To The Brink The State Of Democracy In South Africa:

History for the IB Diploma: Democratic States Jean Bottaro, John Stanley, 2011-05-26 An exciting new series that covers the five Paper 2 topics of the IB 20th Century World History syllabus This coursebook covers Paper 2 Topic 2 Democratic states challenges and responses in the 20th Century World History syllabus for the IB History programme It is divided into thematic sections following the IB syllabus structure and is written in clear accessible English It covers the following areas for detailed study Africa South Africa 1991 2000 Americas United States 1953 73 Asia and Oceania India 1947 64 and Europe and Middle East Weimar Germany 1919 33 The content is tailored to the requirements and assessment objectives of the syllabus and provides opportunities for students to make comparisons between different regions and time periods

Democratization Jean Grugel, Matthew Louis Bishop, 2013-12-04 The second edition of this popular and authoritative text provides a truly global assessment of democratization in theory and practice in the contemporary world It has been systematically revised and updated throughout to cover recent developments from the impact of 9 11 and EU enlargement to the war in Iraq

Healing and Change in the City of Gold Ingrid Palmay, Brandon Hamber, Lorena Núñez, 2014-10-19 This volume collects case studies on the lives of people living in post apartheid Johannesburg South Africa In doing so it considers how people manage respond to narrate and or silence their experiences of past and present violence multiple insecurities and precarity in contexts where these experiences take on an everyday continuous character Taking seriously how context shapes the meaning of violence the forms of response and the consequences thereof the contributing chapter authors use participatory and ethnographic techniques to understand people s everyday responses to the violence and insecurity they face in contemporary Johannesburg Each case study documents an example of a strategy of coping and healing and reflects on how this strategy shapes the theory and practice of violence prevention and response The case studies cover a diversity of groups of people in Johannesburg including migrants refugees homeless people sex workers and former soldiers from across the African continent Read together the case studies give us new insights into what it means for these residents to seek support to cope and to heal challenging the boundaries of what psychologists traditionally consider support mechanisms or interventions for those in distress They develop a notion of healing that sees it as a process and an outcome that is rooted in the world view of those who live in the city Alongside the people s sense of insecurity is an equally strong sense of optimism care and a striving for change It is perhaps not surprising then that this book deals very centrally with themes of the struggle for progress mobility geographic material and spiritual and a sense of possibility and change associated with Johannesburg Ultimately the volume argues that coping and healing is both a collective and individual achievement as well as an economic psychological and material phenomenon Overall this volume challenges the notion that people can and should seek support primarily from professional medicalized psychological services and rather demonstrates how the particular support needed is shaped by an understanding of the cause of precarity

History for the IB Diploma

Paper 2 Evolution and Development of Democratic States (1848-2000) Jean Bottaro, John Stanley, 2015-12-03 Comprehensive second editions of History for the IB Diploma Paper 2 revised for first teaching in 2015 This coursebook covers Paper 2 World History Topic 9 Evolution and Development of Democratic States 1848 2000 of the History for the IB Diploma syllabus for first assessment in 2017 Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers it offers authoritative and engaging guidance through the following detailed studies from around the world South Africa India Germany and the USA *Practising Empowerment in Post-Apartheid South Africa* Agatha Herman, 2017-07-28

Despite the promise and optimism surrounding the post apartheid transition South African society continues to be highly racialised in its discourses identities and practices even within the very strategies that aim to change power relations and heal racialised divisions Renowned for its brutal past practices the wine industry in South Africa has long been associated with white power and black exploitation and remains dogged by continuing allegations of poor working conditions and labour abuses Through in depth longitudinal fieldwork this book considers how different ethics interact and draws attention to the positive changes and continuing development challenges faced in South Africa Situating practice at its heart it brings a novel everyday and micro scale dimension to understandings of empowerment in the post apartheid South African wine industry It develops a critical analysis of the interplay between practice as scaled and inherently spatial and discourse to conceptualise how big concepts such as empowerment are articulated materialised and experienced at the ground level Through this it gives voices to the marginalised who experience empowerment setting these within the context of their relations with the other stakeholders who shape this engagement This book contributes to broader critical social science debates around ethical development and questions of power and empowerment in development interventions This is critical to reducing the disconnection between policy aims and realities within development and empowerment initiatives as well as enabling ethical commodities to be strategic in retaining their appeal throughout their networks **The Right to Health at the**

Public/Private Divide Colleen M. Flood, Aeyal Gross, 2014-04-28 Through a comparative global study of countries from all continents representing a diversity of health legal political and economic systems this book explores the role of health rights in advancing greater equality through access to health care Does health care promote equality or does it in fact advance the opposite result Does inserting the idea of the right to health into health systems allow the reinsertion of public values into systems that are undergoing privatization Or does it allow for private claims to be re articulated as rights in a way that actually reinforces inequality This volume includes studies from countries such as the United States United Kingdom Brazil Canada The Netherlands China and Nigeria among many others and authors with expertise in the legal and health systems of their countries making this a seminal study that allows readers to see the differing role of rights in various health systems
