The Oxford Handbook of Early Christian Ritual Rikard Roitto, 2018-10-31 Scholars of religion have long assumed that ritual and belief constitute the fundamental building blocks of religious traditions and that these two components of religion are interrelated and interdependent in significant ways Generations of New Testament and Early Christian scholars have produced detailed

analyses of the belief systems of nascent Christian communities including their ideological and political dimensions but have by and large ignored ritual as an important element of early Christian religion and as a factor contributing to the rise and the organization of the movement In recent years however scholars of early Christianity have begun to use ritual as an analytical tool for describing and explaining Christian origins and the early history of the movement Such a development has created a momentum toward producing a more comprehensive volume on the ritual world of Early Christianity employing advances made in the field of ritual studies The Oxford Handbook of Early Christian Ritual gives a manifold account of the ritual world of early Christianity from the beginning of the movement up to the fifth century The volume introduces relevant theories and approaches central topics of ritual life in the cultural world of early Christianity and important Christian ritual themes and practices in emerging Christian groups and factions **Dao Companion to China's fa Tradition** Yuri Pines, 2024-08-14

This volume offers the most comprehensive introduction to the ideas of ancient Chinese thinkers who looked to perfect a political system thru the emphasis on impersonal standards laws and norms fa This book covers the works of these thinkers misleadingly dubbed Legalists as well as the controversies they aroused the legacy they left behind and their potential relevance The fa thinkers contributed decisively to the formation of China's first unified empire in 221 BCE but this contribution was not widely acknowledged Their derision of the moralizing discourse of their rivals dismissal of independent intellectuals as self-serving hypocrites and advocacy of a powerful centralized state did not endear them to most Chinese literati To a certain extent these reservations remain visible in modern research which explains why a comprehensive study of the fa traditions is still lacking This volume fills that gap The first of four parts introduces major texts and thinkers of the fa tradition from the Warring States 453-221 BCE to the Former Han 206-9 CE periods The second part analyzes the major ideas of the fa texts including concepts of fa and their implementation in political and legal spheres views of human nature state society relations rulership morality in politics the evolutionary view of history and philosophy of language The third part focuses on the changing attitudes toward fa ideas in imperial and modern China The fourth part explores the ideas of fa advocates from a comparative perspective both against intellectual currents in early China and Western traditions such as Machiavellianism and totalitarianism This book serves as a reference for students and researchers in ancient Chinese history and thought and comparatists in the field of political philosophy *The Craft of Ritual Studies* Ronald L.

Grimes, 2014 Readership Students and scholars of ritual studies religious studies anthropology *Cross-Cultural Existentialism* Leah Kalmanson, 2020-09-17 Engaging in existential discourse beyond the European tradition this book turns to Asian philosophies to reassess vital questions of life's purpose death's imminence and our capacity for living meaningfully in conditions of uncertainty Inspired by the dilemmas of European existentialism this cross-cultural study seeks concrete techniques for existential practice via the philosophies of East Asia The investigation begins with the provocative writings of twentieth-century Korean Buddhist nun Kim Iryop who asserts that meditative concentration conducts a potent energy

outward throughout the entire karmic network enabling the radical transformation of our shared existential conditions Understanding her claim requires a look at East Asian sources more broadly Considering practices as diverse as Buddhist merit making ceremonies Confucian Ruist methods for self cultivation the ritual memorization and recitation of texts and Yijing divination the book concludes by advocating a speculative turn This speculative existentialism counters the suspicion toward metaphysics characteristic of twentieth century European existential thought and at the same time advances a program for action It is not a how to guide for living but rather a philosophical methodology that takes seriously the power of mental cultivation to transform the meaning of the life that we share **Monty Python and Philosophy** Gary L. Hardcastle, 2010 Humour Interreligious Relations and the Negotiation of Ritual Boundaries Marianne Moyaert, 2019-08-05 This volume explores the ways in which interreligious encounters happen ritually Drawing upon theology philosophy political sciences anthropology sociology and liturgical studies the contributors examine different concrete cases of interrituality After an introductory chapter explaining the phenomenon of interrituality readers learn about government sponsored public events in Spain the ritual life of mixed families in China and the UK We meet Buddhist and Christian monks in Kentucky and are introduced to rituals of protest in Jerusalem Other chapters take us to shared pilgrimage sites in the Mediterranean and explore the ritual challenges of Israeli tour guides of Christian pilgrims The authors challenges readers to consider scriptural reasoning as a liturgical practice and to inquire into the in felicitous nature of rituals of reconciliation This volume demonstrates the importance of understanding the many contexts in which interrituality happens and shows how ritual boundaries are perpetually under negotiation
