Three Little Javelinas Lesson Plans:

Internet Activities Through the Year Mary Zinn Beiting, 2002-06 **Culturally Specific Pedagogy in the Mathematics Classroom** Jacqueline Leonard, 2017-10-03 Culturally Specific Pedagogy in the Mathematic Classroom offers a wide variety of conceptual and curricular resources for teachers interested in teaching mathematics in a way that challenges stratification based upon race class gender and other forms of oppression that students face in today's world. With the publication of this book all teachers will have available to them instructional strategies in mathematics for meeting the academic needs of culturally diverse students. They will have an explanation of the linkage between culture and students' mathematical cognition and problem solving. The ease in which Leonard brings the reader along and the caring way she tells a story about making mathematics a fun and social justice experience makes for an exciting learning opportunity for all students and teachers. Carl A. Grant, University of Wisconsin-Madison, United States. From the Foreword. Mathematics educators are in a period of deep concern about our ability to educate all students in mathematics. Most students of color do not have the opportunities to fully learn mathematics. Nothing more important can be done for these students and their teachers than to publish this book addressing the miseducation of these students and offering a way to change what we are doing. Carol E. Malloy, University of North Carolina-Chapel Hill, United States. This compelling text advocates the use of culturally specific pedagogy to enhance the mathematics instruction of diverse students. It accomplishes this by making clear the link between research and practice and offering lesson templates that teachers can use with ethnically and culturally diverse students and with females. Specifically, the text draws on sociocultural theory and research on culture and mathematics cognition to focus on three goals: using qualitative research to extend the literature on culturally based education to African American and Latina/o. *Teaching Reading Strategies in the Primary Grades* Bette S. Bergeron, Melody Bradbury-Wolff, 2003-04. A clear and concise guide to teaching reading strategies to young learners. **Social Studies Review**, 2005. *Scholastic Literacy Place*, 1996. **Literacy Place**, 1996. *Becoming a Teacher of Reading* Susan Davis Lenski, Susan L. Nierstheimer, 2004. A core text for introduction to reading and beginning reading courses. This new developmentally organized social constructivist reading methods text follows children's literacy progress as they develop from being early readers to being interpretive readers to being independent, critically thinking readers. It weaves together integrated discussion of skills, strategies, and assessment procedures. The authors place the reader squarely in today's reading classroom, grounding theoretical discussions with self-regulating pedagogy and connecting ideas to Interstate New Teachers Assessment and Support Consortium (INTASC) Principles as well as IRA/NCTE Standards. The result is a polished, engaging text that will quickly instill in future teachers the joy of helping children learn to read and read to learn. **Words on Cassette, 2002** R. R.
