Toddler Learning Games Judi Willis, 2015-04-13 Toddler Learning Games FREE Bonus Included 33 Creative Toddler Learning Games That Your Child Will Love It's no secret that toddlers can be quite the handful forcing parents to find whatever activities they can to keep their children occupied But what many parents may not realize is that several activities they can occupy their toddlers with can be great for their learning process For instance did you know that it's been proven that games and activities are one of the best ways that toddlers can learn Many parents may feel that their toddlers shouldn't begin to learn until they reach pre school or kindergarten age But the unfortunate truth is that these parents are missing out on an excellent opportunity to allow their young children to begin the learning process well before then and to have fun while they are doing it In this book you will learn about thirty three different toddler learning games that are both fun and imaginative for your toddler Since it's been shown that younger children learn much faster than older children and adults the fundamental lessons your young children learn from these fun and imaginative games will stick with them for the rest of their lives As a parent with the responsibility to raise a child or children this a wondrous opportunity that you simply can't afford to miss out on Getting Your FREE Bonus Read this book to the end and see BONUS Your FREE Gift chapter after the introduction and conclusion

Young Children Learning Barbara Tizard, Martin Hughes, 2008-04-15 This fascinating account of an unusual research project challenges many assumptions about how young children learn and how best to teach them In particular it turns upside down the commonly held belief that professionals know better than parents how to educate and bring up children and it throws doubt on the theory that working class children underachieve at school because of a language deficit at home The second edition of this bestselling text includes a new introduction by Judy Dunn Fascinating account of an unusual research project challenges many assumptions about how young children Turns upside down the commonly held belief that professionals know better than parents how to educate and bring up children Throws doubt on the theory that working class children underachieve at school because of a language deficit at home The authors evidence is the children's own conversations which are quoted extensively and are delightful The second edition of this bestselling text includes an introduction by Judy Dunn
