Fernandini León,2021-04-26 Hello My name is Smart Donkey and I am going to teach you the alphabet in the most fun way It was hard for me to learn the alphabet and I found a way to do it very easy I created a card game and I practiced with my brothers friends from the neighborhood school and now I know the alphabet very well We ll have so much fun I have designed this cards for different ages From 2 years to more so that everyone can learn by playing Also for foreign students The way each letter and word is pronounced is written on each card Pronunciation was the hardest thing to learn for me I have many friends who did not know the alphabet in English and they learned a lot by playing with their little brothers I have also thought that parents can learn with their children Early stimulationYounger children learn a lot by watching play At first they relate the letters to the words according to the figures For this reason I have put very colorful and simple photographs and without many ornaments to stimulate the abilities and skills of the youngest children When they can cut the letters they pay close attention to the letters and words when cutting them because the pictures helps a lot I look at them very well because I have a photographic memory when I see a face I never forget it Many children also have this quality Young children have fun and clap when they find another card with the same shape They have fun learning 3 5 year oldsYoung children can cut out the letters with the help of their parents or guardians I cut my cards myself because I like to use my blunt tipped scissors And even though I took a lot of time on each letter it helped me memorize the letters and the words But in the case of children it is different not all infants are the same some like to cut cards and have a lot of patience others want to play and do not entertain themselves cutting so many cards ALL GAMES MUST BE FUN The general rule of thumb for using my cards is to encourage children to prepare before starting to play but nothing is required Also many learn just by watching them play But I understand that the little ones can t do it what s more the older siblings help a lot to prepare the cards and learn the rules This game is for teamwork with friends or with family Everyone learn the alphabet with these letters it is also a lot of fun Let s do it Children over 5 years oldThis card game will be very entertaining for them especially that they will be able to cut their cards themselves increasing their manual dexterity with blunt tipped scissors as well as

doing a very good fine motor activity for their development As they progress they themselves will want to increase the level of effort to demonstrate their capabilities The challenge will be greater according to the age of the participants Children learn very quickly at first by watching how to play and then by practicing with brothers parents or friends who already know how to play It is important not to rush them when they are playing the ideal is to help them and explain the game as many times as necessary Now comes the fun The four games are as follows The easier Nobody knows who she works for The regular level I work for me The advanced level Nobody knows who she works for 2NervousThe most fun game
