Hoare, 2013-10-31 This text traces the history of three Far Eastern embassies through the vicissitudes of war and revolution against the background of an apparent steady decline of Western influence in Asia Dr Hoare tracks the key events and people shaping the British view of Asia Key dramatis personae are Sir Harry Parkes British Minister to Japan China and Korea Sir Ernest Satow the student interpreter who became Minister in Tokyo and Peking and in more recent years Sir Charles Eliot lover of big cars and scholar of Buddhism This book will interest those wishing to know more about all aspects of Britain in East Asia whether in the tense years of the Boxer troubles in China during the wartime repatriation of Britons from Japan and the Japanese Empire in the traumas of the Korean War or during the excess of China's Cultural Revolution **The Scarlet Gang of Asakusa** Yasunari Kawabata, 2005-04-18 A new translation of the only work not currently available in English by a Nobel Prize winning author and the best known Japanese writer outside of Japan *Bad Youth* David R. Ambaras, 2006 *Bad Youth* draws from official sources as well as press accounts novels songs and films Throughout Ambaras demonstrates that juvenile protection remained contested terrain marked by complex negotiations among reformers young people and the adults in their lives for whom the promises and perils of modernity could assume starkly different meanings **BOOK JACKET** **The World's Population** Fred M. Shelley, 2014-12-16 This one volume encyclopedia examines key topics major world players and imminent problems pertaining to the world's ever growing population According to the United Nations the population of our planet reached 7 billion people in 2011 What areas of the world have the most people What measures if any are in place to control the population Why is Europe's population shrinking while the rest of the world is growing This eye opening encyclopedia answers questions like these by examining significant issues and topics relating to the population and exploring profiles of the most populated countries and cities of the world More than 100 alphabetically arranged entries focus on such topics as census demography megacity overpopulation and urban sprawl Author Fred M Shelley an accomplished academic in the field of environmental sustainability reveals the steps taken by major cities such as Rio de Janeiro Paris Tokyo Beijing Mexico City Seoul Manila and New Delhi in handling their population and what is being done in China and other countries to prevent overcrowding The text includes a discussion of how factors like migration patterns war and disease impact population change This comprehensive encyclopedia also includes primary document excerpts from court cases legislation and political speeches relating to population issues *Contemporary Japanese Architecture* James Steele, 2017-03-16 *Contemporary Japanese Architecture* presents a clear and comprehensive overview of the historical and cultural framework that informs the work of all Japanese architects as an introduction to an in depth investigation of the challenges now occupying the contemporary designers who will be the leaders of the next generation It separates out the young generation of Japanese architects from the crowded distinguished multi generational field they seek to join and investigates the topics

that absorb them and the critical issues they face within the new economic reality of Japan and a shifting global order Salient points in the text are illustrated by beautiful descriptive images provided by the architects and from the extensive collection of the author By combining illustrations with timelines and graphics to explain complex ideas the book is accessible to any student seeking to understand contemporary Japanese architecture *East Asia Modern* Peter Rowe,2005-08-15 Peter G Rowe s *East Asia Modern* is a timely comparative analysis of urban growth in this rapidly evolving part of the globe

Beyond the Metropolis Louise Young,2013-04-15 In *Beyond the Metropolis* Louise Young looks at the emergence of urbanism in the interwar period a global moment when the material and ideological structures that constitute the city took their characteristic modern shape In Japan as elsewhere cities became the staging ground for wide ranging social cultural economic and political transformations The rise of social problems the formation of a consumer marketplace the proliferation of streetcars and streetcar suburbs and the cascade of investments in urban development reinvented the city as both socio spatial form and set of ideas Young tells this story through the optic of the provincial city examining four second tier cities Sapporo Kanazawa Niigata and Okayama As prefectural capitals these cities constituted centers of their respective regions All four grew at an enormous rate in the interwar decades much as the metropolitan giants did In spite of their commonalities local conditions meant that policies of national development and the vagaries of the business cycle affected individual cities in diverse ways As their differences reveal there is no single master narrative of twentieth century modernization By engaging urban culture beyond the metropolis this study shows that Japanese modernity was not made in Tokyo and exported to the provinces but rather co constituted through the circulation and exchange of people and ideas throughout the country and beyond **Routledge Handbook of Modern Japanese History** Sven Saaler,Christopher W. A. Szpilman,2017-10-16 The *Routledge Handbook of Modern Japanese History* is a concise overview of modern Japanese history from the middle of the nineteenth century until the end of the twentieth century Written by a group of international historians each an authority in his or her field the book covers modern Japanese history in an accessible yet comprehensive manner The subjects featured in the book range from the development of the political system and matters of international relations to social and economic history and gender issues to post war discussions about modern Japan s historical trajectory and its wartime past Divided into thematic parts the sections include Nation empire and borders Ideologies and the political system Economy and society Historical legacies and memory Each chapter outlines important historiographical debates and controversies summarizes the latest developments in the field and identifies research topics that have not yet received sufficient scholarly attention As such the book will be useful to students and scholars of Japanese history Asian history and Asian Studies Taipei Joseph R. Allen,2011-11-11 Winner of the Joseph Levenson Post 1900 Book Prize This cultural study of public space examines the cityscape of Taipei Taiwan in rich descriptive prose Contemplating a series of seemingly banal subjects maps public art parks Joseph Allen peels back layers of obscured history to reveal forces that caused cultural objects

to be celebrated despised destroyed or transformed as Taipei experienced successive regime changes and waves of displacement In this thoughtful stroll through the city we learn to look beyond surface ephemera moving from the general to the particular to see sociocultural phenomena in their historical and contemporary contexts Watch the book trailer <https://www.youtube.com/watch?v=xBdGIoox7zM>
