Toledo Cathedral Building Histories Medieval:

Toledo Cathedral Tom Nickson, 2015-12-07 Medieval Toledo is famous as a center of Arabic learning and as a home to sizable Jewish Muslim and Christian communities Yet its cathedral one of the largest richest and best preserved in all of Europe is little known outside Spain In Toledo Cathedral Tom Nickson provides the first in depth analysis of the cathedral s art and architecture Focusing on the early thirteenth to the late fourteenth centuries he examines over two hundred years of change and consolidation tracing the growth of the cathedral in the city as well as the evolution of sacred places within the cathedral itself He goes on to consider this substantial monument in terms of its location in Toledo Spain s most cosmopolitan city in the medieval period Nickson also addresses the importance and symbolic significance of Toledo s cathedral to the city and the art and architecture of the medieval Iberian Peninsula showing how it fits in with broader narratives of change in the arts culture and ideology of the late medieval period in Spain and in Mediterranean Europe as a whole **The Worlds of**

Peninsula: Studies in Honour of Professor Simon Barton , 2023-10-20 A Plural Peninsula embodies and upholds

Professor Simon Barton's influential scholarly legacy eschewing rigid disciplinary boundaries. Focusing on textual, archaeological, visual, and material culture, the sixteen studies in this volume offer new and important insights into the historical, socio-political, and cultural dynamics characterising different yet interconnected areas within Iberia and the Mediterranean. The structural themes of this volume—the creation and manipulation of historical, historiographical, and emotional narratives, changes and continuity in patterns of exchange, cross-fertilisation, and the recovery of tradition, and the management of conflict, crisis, power, and authority—are also particularly relevant for the postmedieval period within and beyond Iberia. Liturgy of Empire: Reading the Mozarabic Rite in Early Modern Europe, 1500-1800 Susan Boynton, 2025-09-22. Liturgy of Empire examines the European reception of the neo-Mozarabic rite created under the patronage of the Archbishop of Toledo, Francisco Jiménez de Cisneros (1495-1517), in relation to the history of the Mozarabs of Toledo, the development of bibliophilia and libraries, the scholarly study of medieval liturgy, and the crusading ideology of Spanish expansionism in the Mediterranean. During the emergence of Spain's global empire, the editions of the Mozarabic rite entered collections throughout Europe. The provenance of the copies studied here for the first time reveals their mediation of knowledge about Iberian history and the political contexts for their acquisition.

Narrative, Piety and Polemic in Medieval Spain Alun Williams, 2024-03-21. This book presents an original perspective on the variety and intensity of biblical narrative and rhetoric in the evolution of history writing in León, Castile, during the twelfth and thirteenth centuries. It focuses on six Hispano-Latin chronicles, two of which make unusually overt and emphatic use of biblical texts. Of particular importance is the part played by the influence of exegesis that became integral to scriptural and liturgical influence both in and beyond monastic institutions. Alun Williams provides close analysis of the text and comparisons with biblical typology to demonstrate how these historians from the north of Iberia were variously dependent on a growing corpus of patristic and early medieval interpretation to understand and define their world and their sense of place.

Narrative, Piety and Polemic in Medieval Spain sees Williams examine this material as part of a comparative exploration of language and religious allusion, showing how the authors used these biblical liturgical elements to convey historical context, purpose, and interpretation.
