Trustees Of Culture Power Wealth And Status On Elite Arts Boards:

Trustees of Culture Francie Ostrower, 2002 Why do wealthy people choose to serve on the boards of fine arts institutions How do they exercise their influence as trustees and how does this affect the way arts institutions operate This study based on trustee interviews addresses these and other issues

Trustees of Culture Francie Ostrower, 2020-06-05 Cultural trusteeship is a subject that fascinates those who wonder about the relationship between power and culture What compels the wealthy to serve on the boards of fine arts institutions How do they exercise their influence as trustees and how does this affect the way arts institutions operate To find out Francie Ostrower conducted candid personal interviews with 76 trustees drawn from two opera companies and two art museums in the United States Her new study demonstrates that members of elite arts boards walk a fine line between maintaining their status and serving the needs of the large scale organizations they oversee As class members whose status depends in part on the prestige of the boards on which they serve trustees seek to perpetuate arts boards as exclusive elite enclaves But in response to pressures to increase and diversify the audiences for arts institutions elite board members act in a surprisingly open manner in terms of organizational accessibility and operations Written with clarity and grace *Trustees of Culture* will contribute significantly to our understanding of organizational governance the politics of fundraising elite arts participation and philanthropy as well as the consequences of wider social policies that continue to emphasize private financial support Ostrower's study will prove to be indispensable reading for not just sociologists of culture but anyone interested in how the arts are financially and institutionally supported

Nonprofit Governance Chris Cornforth, William A. Brown, 2013-07-04 The current fashion for rolling back the state has seen the nonprofit or third sector playing an increasing role in what were previously the heartlands of the public sphere The growing significance of the sector and its increasing reliance on public funds mean it has also attracted increased scrutiny From outside the sector concerns have been raised about the accountability and performance of nonprofit organizations From within the sector there has been considerable debate about whether the increased reliance on government contracts is in danger of undermining the sector's independence As a result the spotlight has fallen on governance arrangements and whether they are adequate to ensure that nonprofit organizations are effective and accountable for their actions and able to retain their independence This collection offers a comprehensive assessment of research on the governance of nonprofit organizations Nonprofit governance research has been dominated by the study of boards of unitary organizations and has paid insufficient attention to the multi level nature of governance governance relationships and dynamics and the contribution of actors other than board members to governance processes Drawing on the research of leading scholars in the US UK Canada and Australia this book presents new perspectives on non profit governance which help to overcome these weaknesses Written in an accessible manner the book will be of value to scholars researchers students reflective practitioners and governance consultants and advisers
