Tuning Into Mom Understanding Americas Most Powerful Consumer:

Tuning Into Mom Michal Clements, Teri Lucie Thompson, 2011 American mothers are household CFOs in charge of an estimated 2.45 trillion in direct spending. They are also an important influence on other family members' buying habits. Many organizations have identified moms as an important customer group, but the broad age-based definitions these companies work with mask an array of different consumer behaviors. Written by two leading marketers, this book provides a new approach to understanding the American Mom market, examining the mom's influence on or control of the purchasing habits of children of all ages from infants and toddlers to young adults and bring focus to the frequently overlooked purchase influence of moms on teenagers. The authors combine large-scale quantitative research of more than 4,700 mothers with qualitative case studies from individual participants. Highly recommended for practitioners in retailing and product development, this book will also be a valuable supplemental text for college courses in consumer behavior and marketing strategy.

Motherhoods, Markets and Consumption Stephanie O'Donohoe, Margaret Hogg, Pauline Maclaran, Lydia Martens, Lorna Stevens, 2013-10-30 It takes more than a baby to make a mother and mothers make more than babies. Bringing together a range of international studies, *Motherhoods, Markets and Consumption* examines how marketing and consumer culture constructs particular images of what mothers are, what they should care about, and how they should behave, exploring how women's use of consumer goods and services shapes how they mother as well as how they are seen and judged by others. Combining personal accounts from many mothers with different theoretical perspectives, this book explores how advertising media and consumer culture contribute to myths and stereotypes concerning good and bad mothers. How particular consumer choices are bound up with women's identities as mothers. The role of consumption for women entering different phases of their mothering lives such as pregnancy, early motherhood, and the empty nest.

Moving Your Brand Up the Food Chain Patrick Nycz, 2017-11-01 The food industry is on the verge of a revolution with smaller local and regional food brands finding big potential for growth. The increasing influence of millennials on consumer tastes, the desire for products produced locally, and mistrust of big food companies open opportunities to small and medium-sized food companies. An experienced consumer packaged goods marketer and his team have created a book to help navigate the looming volatility in the food industry. For instance, the U.S. Department of Agriculture predicts that the sales of locally produced foods, which reached 12 billion in 2014, will soar to 20 billion by 2019. A 2015 study by the Food Marketing Institute and the Grocery Manufacturers Association found that smaller and private food brand manufacturers grew 4 percent vs. the 25 biggest U.S. food and beverage manufacturers who grew 1 percent between 2009 and 2013. *Moving Your Brand Up the Food Chain* offers practical tips to help local small and emerging food brands compete against the big brands to grow their market share. Interviews and survey answers from industry professionals provide invaluable information. The book covers the retail buyer's perspective, marketing, external market factors, brand development, packaging, brand management, strategic
