Theorizing Social Work Practice Neil Thompson, 2010-02-03 In social work theory and practice are inextricably linked. This ground breaking book explores the ways in which theory informs practice and how practice can test and inform theory. With the help of detailed explanations, practitioner quotes and case examples, Neil Thompson guides the reader through the process of theorizing practice clearly and accessibly. Tackling advanced concepts in an accessible way, he critically discusses social work approaches and perspectives including post structuralism and postmodernism and highlights the role of existentialism in understanding the challenges of contemporary practice. Social work requires the ability to handle complexity. This book helps the reader to expand their capacity for reflective practice, critical analysis and the personal evaluation of theoretical positions. It provides much needed food for thought about the complexities of theory and practice with the aim of inspiring high quality work and enlivening day to day practice.

Resilience in Action Michael Ungar, Linda Liebenberg, 2008 Mental health specialists and researchers contend that the development of resilience in youth is facilitated at several levels. Relational, cultural, individual and governmental factors all have a strong influence over the mental well being of young people. *Resilience in Action* looks at youth interventions with a view to fostering resilience in those living in adverse situations and conditions. In order to provide a practical approach to the issue, the essays in this volume explore the components of successful interventions, encouraging the transmission of effective practices from one community to another across borders. It is organized into four sections, each dealing with a different aspect of work with at risk youth. The first section focuses on individual health and the ways in which intervention and therapy strengthen personal resources. The second section explores the dynamics of interventions in relation to specific contexts and localized relationships, emphasizing holistic approaches to youth work. A review of the cultural relevance of resilience follows in section three and the fourth considers ways of increasing the accessibility to resources that encourage healthy development. Featuring contributors from a variety of academic and cultural backgrounds, *Resilience in Action* offers diverse answers to many of the persistent questions mental health professionals ask regarding how to enhance resilience.

This important book is essential reading for undergraduate and postgraduate social work students throughout all three years of their training, but it will be particularly useful for students who are on placement or who are reflecting on their experiences on placement. It is also a

useful resource for practice teachers who need a framework for discussing practice with students they supervise on placement *Partnership Made Painless* ,2003 Partnership Made Painless offers clues and suggestions about how to develop partnerships and shows that it is possible to work in ways which are not only less stressful but can also help you and your partners work purposefully towards intended outcomes Public Welfare ,1984 **Publications of the Association of Collegiate Alumnae** American Association of University Women,1908 Includes the Association s Register
