Nonviolence in Political Theory Iain Attack, 2012-07-30 Develops a coherent theory of nonviolent political action in the context of Western political theory Ian Attack identifies the contribution of nonviolence to political theory through connecting central characteristics of nonviolent action to fundamental debates about the role of power and violence in politics This in turn provides a platform for going beyond historical and strategic accounts of nonviolence to a deeper understanding of its transformative potential From Mahatma Gandhi and Martin Luther King to toppled communist regimes in Eastern Europe and pro democracy movements in Serbia Georgia and Ukraine nonviolent action has played a significant role in achieving social and political change in the last century The Arab Spring revolutions particularly those in Tunisia and Egypt and the Occupy movement in the US and UK demonstrate that nonviolence continues to be a vital feature of many campaigns for democracy human rights and social justice

Leaving World War II Behind David Swanson, 2020 This book documents the case that World War II happened in such a different world that it has little relevance to today's foreign policy as well as the case that U S participation in WWII was not justifiable Specifically WWII was not fought to rescue anyone from persecution was not necessary for defense was the most damaging and destructive event yet to occur and would not have happened had any one of these factors been missing World War I the manner in which WWI was ended U S funding and arming of Nazis a U S arms race with Japan U S development of racial segregation U S development of eugenics U S development of genocide and ethnic cleansing or the U S and British prioritization of opposing the Soviet Union at all costs The author corrects numerous misconceptions about the most popular and misunderstood war in western culture in order to build a case for moving to a world beyond war

Peace and Development ,2012 Protest and Dissent Melissa Schwartzberg,2020-03-03 Essays on the justification strategy and limits of mass protests and political dissent In *Protest and Dissent* the latest installment of the NOMOS series distinguished scholars from the fields of political science law and philosophy provide a fresh interdisciplinary perspective on the potential and limits of mass protest and disobedience in today s age Featuring ten timely essays the contributors address a number of contemporary movements from Black Lives Matter and the Women s March to Occupy Wall Street and Standing Rock Ultimately this volume challenges us to re imagine the boundaries between civil and uncivil disagreement political reform and radical transformation and democratic ends and means *Protest and Dissent* offers thought provoking insights into a new era of political resistance Peace Research ,2008 **Both Swords and Ploughshares** Linda Martz,Ineke Bockting,2015 This collection of essays examines interactions of war peace and religion in the United States a country where religious faith was and still is often deeply felt and widely held where faith has provided a set of values to uphold with fervor or to transgress in protest and where religion has been used to legitimize both armed violence and passive resistance These essays analyze the mythos of America as a place of religious freedom yet one imbued with a socially imposed civil religion and underpinned by a heavy presumption of Protestant dominance With subjects ranging from the War of Independence to the early 21st century the contributions to this volume focus on a variety of historical and chronological circumstances in order to consider what concrete tangible outcomes what artifacts were produced by the interface of war peace and religion the swords and ploughshares of the title This volume thus presents a variety of often multifaceted responses that reflect its interdisciplinary scope Some contributions refer to fine art pieces including statues paintings and murals and others to works of literature theology or public speaking Some of these interfaces were performed on stage or in film while yet others were heard on the radio or read in newspapers or journals Some of the essays gathered here concern individuals working through the meaning of armed conflict in terms of their own personal faith while others examine the impact of such conflicts on a larger scale as with whole faith communities or in the shaping of national or foreign policy The first part *Communities* looks at interfaces that served to structure a whole community The second *Margins* examines instances where the relationship between religion and war and peace has occupied a more marginal space within a faith community The final section turns this interface Outward situating it away from American soil or noting how foreign war shaped the spirituality of those returning **Peace Magazine** ,2005 **Between Global Violence and the Ethics of Peace** Mason Gaffney,2009-02-09 This book analyzes in a new way the causes of the current crash by showing how such events derive from real estate bubbles and their interactions with banks and other lenders **People Power** Howard Clark,2009-09-15 Across the world nonviolent movements are in the forefront of resistance against repression imperial aggression and corporate abuse However it is often difficult for activists in other countries to know how best to assist such movements The contributors to *Unarmed Resistance and Global Solidarity* place nonviolent struggles in an international context where solidarity can play a crucial role Yet they

also warn that good intentions are not enough solidarity has to listen to local movements Using clear examples the contributors assess various forms of solidarity criticizing those in the global North who try to impose their view of what is possible and arguing that a central role of solidarity is to strengthen the counter power of those resisting domination and oppression **Seeds of New Hope** Matt Meyer, Elavie Ndura-Ouédraogo, 2009 **Sharp's Dictionary of Power and Struggle** Gene Sharp, Sir Adam Roberts, 2012 Sharp's Dictionary of Power and Struggle is a groundbreaking book by the godfather of nonviolent resistance In nearly 1 000 entries the Dictionary defines those ideologies political systems strategies methods and concepts that form the core of nonviolent action as it has occurred throughout history and across the globe providing much needed clarification of language that is often mired in confusion **American Book Publishing Record**, 2003 *When Communities Confront Corporations* Austin Onuoha, 2008 In April of 2005 Shell sought an injunction in a Dublin court against residents of Erris in northwestern Republic of Ireland who were obstructing the laying of pipelines across their lands On June 29 2005 the court convicted and jailed five people for failing to comply with the order of the High Court restraining them from interfering with Shell's project *When Communities Confront Corporations* examines the issues and events that led to the incarceration of the Rossport Five and how it resonates with events in the Niger Delta region of Nigeria It argues that conflicts between communities and corporations though pervasive do not appear to receive adequate scholarly attention The book compares the altercations between Shell and the Erris communities in Ireland and the responses to these conflicts with similar conflicts generated in the Niger Delta area of Nigeria by the presence of the oil giant It challenges the so called conspiracy theory which is often associated with the oil company's operations in the Niger Delta and argues that the key difference between the two sets of conflicts and responses to them is the context Gandhi Marg, 2007
