The book cover features a central image of a muscular man with short brown hair and a light beard, wearing a black leather jacket. He is looking directly at the viewer with a serious expression. To his left is a large, detailed illustration of a grey and white wolf's head, looking towards the right. The background is a dramatic, fiery red and orange landscape with a large, glowing full moon in the upper right corner. In the bottom left corner, there is a small, dark, metallic object that looks like a mechanical part or a piece of machinery. The title 'PROTECTIVE ALPHA WOLF' is written in a large, stylized, metallic font across the bottom half of the cover. The word 'PROTECTIVE' is in a smaller font above 'ALPHA', which is above 'WOLF'. The letters have a metallic texture and some sparks or fire around them.

Miranda, 2025-06-20 I came to Forks to debunk monsters Instead I discovered I was destined to protect them Dr Kira Thorne built her career destroying supernatural myths until she encountered a shadow wolf with silver eyes that haunted her dreams As a cryptozoologist and YouTube debunker she'd exposed every hoax from Bigfoot to lake monsters But when mysterious sightings in the Olympic Peninsula forests led her to ranger Dante Blackwater everything she thought she knew about reality shattered Dante was supposed to remain hidden An exiled shapeshifter prince betrayed by his own pack and stripped of his throne he'd found refuge working as a park ranger in the misty depths of Washington's ancient forests The last thing he needed was a brilliant scientist asking dangerous questions about the creatures lurking in the shadows But when their blood mingles during a chance encounter an ancient guardian pact awakens binding them together in ways that transcend species

boundaries Kira isn't just any human. She's the descendant of guardians, women who've protected supernatural communities for centuries. And Dante isn't just any wolf. He's her destined protector; the alpha her bloodline was meant to serve. Their awakening connection triggers something deadly. Her former mentor, Marcus Voss, a corporate supernatural hunter with military resources and technology designed to capture and exploit every enhanced being in North America. Now Dante's scattered pack members are being hunted, supernatural families are fleeing their territories, and Kira must choose between the scientific career she's built and embracing abilities that could save an entire hidden world. But Marcus isn't their only threat. As guardian powers awaken dormant supernatural abilities across the region, something ancient and malevolent stirs in response, forces that view their love as a cosmic disruption requiring elimination. Some bonds are forged in blood. Others in destiny. Theirs will either save both their worlds or destroy everything.
