INTERNATIONAL MONETARY FUND

Vulnerabilities Impacts And Responses To Hiv aids In Sub Saharan Africa:

Vulnerabilities, Impacts, and Responses to HIV/AIDS in Sub-Saharan Africa Getnet Tadele, Helmut Kloos, 2013-05-07 This book examines HIV AIDS vulnerabilities impacts and responses in the socioeconomic and cultural context of Sub Saharan Africa With contributions from social scientists and public health experts the volume identifies gender inequality and poverty as the main causes of the HIV epidemic in sub Saharan Africa **HIV/AIDS and Agriculture in sub-Saharan Africa** Tanja R. Müller, 2023-08-28 This publication is the first in a series on HIV AIDS and agriculture in sub Saharan Africa with the overall objective of providing a resource base on issues of rural development in a broad sense in the times of HIV AIDS This first book discusses the impact of the epidemic as it has emerged over the last decades at different levels of the agricultural sector namely the farming system level the livelihood level and the household level In a further step impact on the agricultural estate sector as well as pastoralism is discussed One overarching issue that emerges is the importance of gender attributes to adequately understand and address HIV AIDS impact the topic at the centre of the second part of the series The text ends with a discussion of HIV AIDS in relation to other shocks that befall rural livelihoods It is followed by an annotated bibliography **African Youth and the Persistence of Marginalization** Danielle Resnick, James Thurlow, 2015-04-10 The much heralded growth and transformation of many economies in sub Saharan Africa over the last decade continues to receive prominent attention in academic scholarship and among policy practitioners An apparent feature about this transformation however is that Africa s youth appear to have been left out This book critically examines the extent and consequences of the marginalization of African youth It questions conventional wisdoms about data trends aspirational goals and common policy interventions surrounding Africa s youth that have been variously propagated in both the development studies literature and in mainstream donor policy reports The book explores macro trends from both a temporal and cross regional perspective in order to highlight what is distinct about contemporary African youth and whether their prospects and behaviours do actually vary from their counterparts in other regions of the world or from previous generations of African youth Such studies include cross country analyses of youth employment patterns and modes of political participation in depth examination of the behaviours and aspirations of the urban youth and critical reflections on the impact of rural employment initiatives vocational education and learnership programmes The incorporation of multiple methods and disciplines as well as its attention to policy issues ensures that the book will be of great interest to graduate students researchers and professional researchers whose work lies at the intersection of African area studies and development studies as well as those focused on development economics political science and public policy and administration **Sizongoba! Outliving AIDS in Southern Africa** Ngcaweni, Busani, 2017-04-11 The aim of this book is to better understand the phenomenon of HIV in a country that has faced the fullest might of the disease and yet after first faltering has made more progress than any other country in the world in its response to HIV It aims to reflect the complexity

of this narrative and the range of widely differing insights by featuring what is likely the largest number of contributors in a single publication on the subject in South Africa as well as a full spectrum of specialised areas ranging from high end science to personal reflections

Accelerating the Education Sector Response to HIV Donald Bundy,Anthi Patrikios,Changu Mannathoko,Andy Tembon,Stella Manda,Bachir Sarr,Lesley Drake,2010-02-02 The education sector plays a key external role in preventing and reducing the stigma surrounding HIV AIDS It also plays an important internal role in providing access to care treatment and support for teachers and education staff a group that in many countries represents more than 60 percent of the public sector workforce The education sector can also have a critically important positive effect on the future Even in the worst affected countries most schoolchildren are not infected For these children there is a chance to live lives free from AIDS if they can be educated on the knowledge and values that can protect them as they grow up The authors of Accelerating the Education Sector Response to HIV explore the experiences of education sectors across Sub Saharan Africa as they scale up their responses to HIV AIDS within the Accelerate Initiative Working Group established in 2002 by the Joint United Nations Programme on HIV AIDS UNAIDS Inter Agency Task Team on Education This book demonstrates that leadership by the ministries of education and commitment from key development partners are crucial for mobilizing activities and that full participation of all stakeholders is required for effective implementation This book summarizes the experiences of technical Focal Points from the 37 ministries of education in Sub Saharan Africa which are represented on the sub regional networks for HIV and Education These experiences prove that the education sector response can play a crucially important role in the multisectoral national responses to this epidemic

Inside Xinjiang Anna Hayes,Michael Clarke,2015-12-14 The Xinjiang Uyghur Autonomous Region is China s largest province shares borders with Kazakhstan Kyrgyzstan Tajikistan Afghanistan Pakistan Russia and Mongolia and possesses a variety of natural resources including oil The tensions between ethnic Muslim Uyghurs and the growing number of Han Chinese in Xinjiang have recently increased occasionally breaking out into violence At the same time as being a potential trouble spot for China the province is of increasing strategic significance as China s gateway to Central Asia whose natural resources are of increasing importance to China This book focuses in particular on what life is like in Xinjiang for the diverse population that lives there It offers important insights into the social economic and political terrains of Xinjiang concentrating especially on how current trends in Xinjiang are likely to develop in the future In doing so it provides a broader understanding of the region and its peoples

The Elusive African Renaissance George Klay Kieh, Jr.,2018-08-28 Africa faces several major development challenges that have adversely affected the political and material well being of the majority of the people living there This collection of new essays rigorously analyzes those frontier development issues including democracy leadership the economy poverty alleviation through microfinance schemes food security education health and political instability and offers prescriptions that differ from the dominant neoliberal solutions

Ex-post impact assessment review of the Regional Network on AIDS, Livelihoods, and Food Security

(RENEWAL) Frankenberger, Tim, Nelson, Suzanne, 2012-02-16 The Regional Network on AIDS Livelihoods and Food Security RENEWAL was officially launched in 2001 as a joint project of the International Food Policy Research Institute IFPRI and the International Service for National Agricultural Research ISNAR and was operational in Malawi Uganda Kenya Zambia and South Africa through most of 2011 RENEWAL is a network of networks comprised of national networks of food and nutrition relevant organizations along with partners in AIDS and public health practitioners Its overarching goal is to provide evidence based research on the linkages between HIV food security and nutrition in Sub Saharan Africa that would inform responses to prevent or mitigate the impact and consequences of AIDS RENEWAL s three main objectives are 1 to reduce critical gaps in understanding how livelihoods particularly those deriving from agriculture both contribute to the spread of HIV and are affected by HIV and AIDS 2 to generate new policy relevant knowledge on how households and communities may strengthen both their resistance to HIV transmission and their resilience to the impacts of AIDS and 3 to enable relevant institutions particularly governments to generate and act upon realistic priorities for responding to the interaction of the AIDS epidemic with food and nutrition insecurity RENEWAL s strategic approach to achieving these goals involved the three core pillars of capacity strengthening policy communications and action research and the synergies resulting from their interactions This report assesses the impact of RENEWAL activities from 2000 to 2010 and is based on a review of products resulting from RENEWAL activities such as books policy briefs workshop summaries reports and discussion papers stakeholder perceptions of RENEWAL products and activities and national policy or programming changes resulting from RENEWAL supported action research capacity strengthening efforts and policy communications **Regional Economic Outlook April 2004: Sub-Saharan Africa** INTERNATIONAL MONETARY FUND, 2006-01-23 The five Regional Economic Outlooks published biannually by the IMF cover Asia and Pacific Europe the Middle East and Central Asia Sub Saharan Africa and the Western Hemisphere In each volume recent economic developments and prospects for the region are discussed as a whole as well as for specific countries The reports include key data for countries in the region Each report focuses on policy developments that have affected economic performance in the region and discusses key challenges faced by policymakers The near term outlook key risks and their related policy challenges are analyzed throughout the reports and current issues are explored such as when and how to withdraw public interventions in financial systems globally while maintaining a still fragile economic recovery These indispensable surveys are the product of comprehensive intradepartmental reviews of economic developments that draw primarily on information the IMF staff gathers through consultation with member countries Living with AIDS in Uganda Monica Karnhanga Beraho, 2023-08-28 This book was originally written as a doctoral dissertation The research in this book was carried out among banana farming households in the districts of Masaka and Kabarole in Uganda A gendered livelihood approach was used The research focused on the identification of critical factors that need to be taken into consideration in the development of relevant policies for HIV AIDS

affected agriculture based households or those that are at risk The book shows that HIV AIDS causes significant negative effects on the lives of those affected Their resources are affected due to HIV AIDS related labour loss and asset eroding effects and disinvestment in production and child education While in the overwhelming majority of the affected cases the effects of AIDS are negative and lead to increased impoverishment and vulnerability for some households HIV AIDS related effects are manageable It is concluded that a household s socio economic status and demographic characteristics influence the magnitude of HIV AIDS related impacts experienced and capacity to cope The book also highlights some historically specific social practices policies and ideologies that continue to maintain or reproduce distinct forms of inequality with certain social groups being marginalized and others being privileged Unless these are redressed they will continue to aggravate people s vulnerability regardless of the type of shock that they are exposed to or experience **Pastoral**

Counseling for Orphans and Vulnerable Children Tuntufye Anangisye Mwenisongole, Elia Shabani Mligo, 2018-04-27 The existence of orphans is as inevitable to most African cities and the world as it is death These orphans are caused by the death of one or both parents due to various reasons including the scourge of HIV and AIDS Being orphans most of them are vulnerable to difficult lives because they have nobody to fend for them and take care of their lives They lack adequate food living expenses school fees and care since their current guardians are also in adverse economic situations In such situations orphans end up living a life of hopelessness and trauma which makes them deeply remember their dead parents and the care they received from them before death Following the vulnerable situation of most orphans this book through a study done in the Tanzanian context challenges churches to extend their counseling and caring ministries to Orphans and Vulnerable Children OVC It purports that the use of narrative approach is the most effective way to enter into the world of vulnerable children in order to provide pastoral counseling to them This approach helps pastoral counselors to use life stories proverbs biblical narratives plays arts songs riddles poems symbols and images as healing and coping mechanisms for OVC Therefore this book is helpful not only to churches and their ministry to orphans and vulnerable children but also to those who care for orphans in their homes Moreover it will be helpful to children who live in adverse conditions worldwide to find ways to cope with their situations through the stories of children used inside this book Africa's Orphaned and Vulnerable Generations

UNICEF., 2006 Africa s Orphaned and Vulnerable Generations Children affected by AIDS shows how the AIDS epidemic continues to affect children disproportionately and in many harmful ways making them more vulnerable than other children leaving many of them orphaned and threatening their survival Released by UNICEF UNAIDS and PEPFAR The US President s Emergency Program for AIDS Relief the report contains new and improved research on orphans and vulnerable children including what governments NGOs the private sector and the international community can do to better respond Situation and Outlook Series , 1997 Measuring Vulnerability in Developing Countries Wim Naude, Amelia Santos-Paulino, Mark McGillivray, 2014-10-29 In all of the major challenges facing the world currently whether it be climate change terrorism and

conflict or urbanization and demographic change no progress is possible without the alleviation of poverty New approaches in development economics have in recent years started from the premise that we cannot successfully deal with poverty unless we also deal with vulnerability but not only vulnerability to income poverty but also vulnerability to various others hazards such as climate conflict macroeconomic shocks and natural disasters This book provide insights into new approaches in conceptualising and measuring vulnerability It includes chapters dealing with advanced issues such as the compilation of economic vulnerability indices EVIs on a macro level of conceptualizing and measuring local vulnerability across regions in a country and of measuring the flip side of vulnerability namely resilience The book also explores the sensitivities of the various measurements of vulnerability to vulnerability lines poverty lines and permanent income with consideration to some of the most vulnerable groups in developing countries Overall the contributions in the book consolidate new approaches as far as the concept and measurement of vulnerability on different levels and outcomes are concerned and note directions for future research This book was published as a special issue of Oxford Development Studies

A Qualitative Assessment of Orphans and Vulnerable Children in Two Zimbabwean Districts Shungu Munyati, 2006 The Human Sciences Research Council was commissioned by the WK Kellogg Foundation to develop and implement a five year intervention project focusing on orphans and vulnerable children OVC in southern Africa In collaboration with several partner organisations the project currently focuses on how children families and communities in Botswana South Africa and Zimbabwe are coping with the impact of HIV AIDS The aim of the project is to develop models of best practise so as to enhance and improve support structures for OVC in the southern African region as a whole

Climate Vulnerability , 2013-03-15 Climate change has been the subject of thousands of books and magazines scientific journals and newspaper articles daily It s a subject that can be very political and emotional often blurring the lines between fact and fiction The vast majority of research studies projections and recommendations tend to focus on the human influence on climate change and global warming as the result of CO2 emissions often to the exclusion of other threats that include population growth and the stress placed on energy sources due to emerging global affluence Climate Vulnerability Five Volume Set seeks to strip away the politics and emotion that surround climate change and will assess the broad range of threats using the bottom up approach including CO2 emissions population growth emerging affluence and many others to our five most critical resources water food ecosystems energy and human health Inclusively determining what these threats are while seeking preventive measures and adaptations is at the heart of this unique reference work Takes a Bottom Up approach addressing climate change and the threat to our key resources at the local level first and globally second providing a more accurate and inclusive approach Includes extensive cross referencing which is key to readers as new connections between factors can be discovered Cuts across a number of disciplines and will appeal to Biological Science Earth Environmental Science Ecology and Social Science comprehensively addressing climate change and other threats to our key resources from multiple perspectives

IDS Bulletin , 2009

Resilience and Vulnerability Factors in Response to Stress Chantal Martin-Soelch, Ulrich Schnyder, 2020-01-31 *The World of Child Labor* Hugh D Hindman, Hugh Hindman, 2014-12-18

The World of Child Labor details both the current and historical state of child labor in each region of the world focusing on its causes consequences and cures Child labor remains a problem of immense social and economic proportions throughout the developing world and there is a global movement underway to do away with it Volume editor Hugh D Hindman has assembled an international team of leading child labor scholars researchers policy makers and activists to provide a comprehensive reference with over 220 essays This volume first provides a current global snapshot with overview essays on the dimensions of the problem and those institutions and organizations combating child labor Thereafter the organization of the work is regional covering developed developing and less developed regions of the world The reference goes around the globe to document the contemporary and historical state of child labor within each major region Africa Latin and South America North America Europe Middle East Asia and Oceania including country level accounts for nearly half of the world s nations Country level essays for more developed nations include historical material in addition to current issues in child labor All country level essays address specific facets of child labor problems such as industries and occupations in which children commonly work the national child welfare policy occupational safety regulations educational system and laws and often highlight significant initiatives against child labor Current statistical data accompany most country level essays that include ratifications to UN and ILO conventions the Human Development Index human capital indicators economic indicators and national child labor surveys conducted by the Statistical Information and Monitoring Program on Child Labor The World of Child Labor is designed to be a self contained comprehensive reference for high school college and professional researchers Maps photos figures tables references and index are included

Family and HIV/AIDS Willo Pequegnat, Carl Bell, 2011-10-22 Three decades into the HIV pandemic the goals remain clear reduce the number of infections improve the health outcomes of those who are infected and eliminate disparities in care And one observation continues to gain credence families are a powerful resource in preventing adapting to and coping with HIV Recognizing their complex role as educators mentors and caregivers Family and HIV AIDS assembles a wealth of findings from successful prevention and intervention strategies and provides models for translating evidence into effective real world practice Chapters spotlight the differing roles of mothers and fathers in prevention efforts clarify the need for family community collaborations and examine core issues of culture ethnicity gender and diagnosis e g minority families adolescents with psychological disorders Throughout risk reduction and health promotion are shown as a viable public health strategy A reference with considerable utility across the health mental health and related disciplines Family and HIV AIDS will be a go to resource for practitioners working with families researchers studying at risk populations administrators seeking to create new or evaluate existing prevention and care programs and policymakers involved in funding such programs
