Cataldo, 2019-08-22 The purpose of this volume is twofold to introduce readers to the study of cultural memory and identity in relation to the Hebrew Bible and to set up strategies for connecting studies of the historical contexts and literature of the Bible to parallel issues in the present day The volume questions how we can better understand the divide between insider and outsider and the powerful impact of prejudice as a basis for preserving differences between us and them In turn the contributors question how such frameworks shape a community's self perception its economics and politics Guided by the general framework of Anderson's theory of nationalism and the outsider such issues are explored in related ways throughout each of the contributions Each contribution focuses on social economic or political issues that have significantly shaped or influenced dominant elements of cultural memory and the construction of identity in the biblical texts Together the contributions present a larger proposal the broad contours of memory and identity in the Bible are the products of a collective desire to reshape the social political world *International Migration and Citizenship Today* Niklaus Steiner, 2023-03-17 This completely revised and updated textbook explores the moral economic political and cultural dimensions of the movement of people across international borders In style and substance it is designed to spark thoughtful discussions and to challenge readers to draw their own conclusions to questions such as how should democracies balance the rights of immigrants with those of citizens What exactly constitutes persecution and how should we define a refugee How should democracies allocate citizenship Can and should a distinction be made between voluntary and forced migration and does one group of migrants deserve admission more than the other What does a reasonable border policy look like The rise of populism the vote for Brexit and the unprecedented flow of refugees around the world are all evidence that these questions remain highly salient controversial and unresolved The content has been thoroughly updated to cover Migration into Europe since 2015 Climate change as a driver of migration and the concept of environmental refugees Unaccompanied minors fleeing gang violence asylum for victims of domestic violence family separation policies and the building of a wall on the U S Mexican border The controversies surrounding the Danish cartoons Charlie Hebdo and hijabs as examples of the tensions in liberal democracies between free speech individual freedom religious expressions and minority rights The Dream Act and Deferred Action for Childhood Arrivals DACA Demographic shifts and the debates around multiculturalism and diversity Guest worker programs as alternatives to admitting immigrants Intended as the main text for undergraduate classes on international migration the book will also appeal to broad survey courses on world politics comparative politics international relations global history and more specialized courses on human rights citizenship and nationalism *China's Muslims and*

Japan's Empire Kelly A. Hammond, 2020-09-30 In this transnational history of World War II Kelly A Hammond places Sino Muslims at the center of imperial Japan's challenges to Chinese nation building efforts Revealing the little known story of Japan's interest in Islam during its occupation of North China Hammond shows how imperial Japanese aimed to defeat the Chinese Nationalists in winning the hearts and minds of Sino Muslims a vital minority population Offering programs that presented themselves as protectors of Islam the Japanese aimed to provide Muslims with a viable alternative and at the same time to create new Muslim consumer markets that would the Japanese hoped act to subvert the existing global capitalist world order and destabilize the Soviets This history can be told only by reinstating agency to Muslims in China who became active participants in the brokering and political jockeying between the Chinese Nationalists and the Japanese Empire Hammond argues that the competition for their loyalty was central to the creation of the ethnoreligious identity of Muslims living on the Chinese mainland Their wartime experience ultimately helped shape the formation of Sino Muslims religious identities within global Islamic networks as well as their incorporation into the Chinese state where the conditions of that incorporation remain unstable and contested to this day

Pure and True David R. Stroup, 2022-02-23 The Chinese Communist Party points to the Hui China's largest Muslim ethnic group as a model ethnic minority and touts its harmonious relations with the group as an example of the party's great success in ethnic politics The Hui number over ten million but they lack a common homeland or a distinct language and have long been partitioned by sect class region and language

Despite these divisions they still express a common ethnic identity Why doesn't conflict plague relationships between the Hui and the state And how do they navigate their ethnicity in a political climate that is increasingly hostile to Muslims Pure and True draws on interviews with ordinary urban Hui cooks entrepreneurs imams students and retirees to explore the conduct of ethnic politics within Hui communities in the cities of Jinan Beijing Xining and Yinchuan and between Hui and the Chinese party state By examining the ways in which Hui maintain ethnic identity through daily practices it illuminates China's management of relations with its religious and ethnic minority communities It finds that amid state sponsored urbanization projects and in country migration the boundaries of Hui identity are contested primarily among groups of Hui rather than between Hui and the state As a result understandings of which daily habits should be considered proper or correct forms of Hui identity diverge along professional class regional sectarian and other lines By channeling contentious politics toward internal boundaries the state is able to manage ethnic politics and exert control
