What Do Gay Men Want? David Halperin, 2010-04-20 Compelling timely and provocative The writing is sleek and exhilarating It doesn't waste time telling us what it will do or what it has just done it just does it Don Kulick Professor of Anthropology New York University How we can talk about sex and risk in the age of barebacking or condomless sex without invoking the usual bogus and punitive clichés about gay men's alleged low self esteem lack of self control and other psychological deficits Are there queer alternatives to psychology for thinking about the inner life of homosexuality What Do Gay Men Want explores some of the possibilities Unlike most writers on the topic of gay men and risky sex David Halperin liberates gay male subjectivity from psychology demonstrating the insidious ways in which psychology's defining opposition between the normal and the pathological subjects homosexuality to medical reasoning and revives a whole set of unexamined moral assumptions about good sex and bad sex In particular Halperin champions neglected traditions of queer thought including both literary and popular discourses by drawing on the work of well known figures like Jean Genet and neglected ones like Marcel Jouhandeau He shows how the long history of gay men's uses of abjection can offer an alternative nonmoralistic model for thinking about gay male subjectivity something which is urgently needed in the age of barebacking Anyone searching for nondisciplinary ways to slow the spread of HIV AIDS among gay men or interested in new modes of thinking about gay male subjectivity should read this book David M Halperin is W H Auden Collegiate Professor of the History and Theory of Sexuality Professor of English Professor of Women's Studies Professor of Comparative Literature and Adjunct Professor of Classical Studies at the University of Michigan **What Women Want--what Men Want** John Marshall Townsend, 1998 Drawing upon 2 000 questionnaires and 200 intimate interviews with men and women this lucid and accessible new study reveals why the sexual psychologies of men and women are so different and so resistant to change
