What Is History Eh Carr:

What is History? E. H. Carr, 2018-06-07 Not only one of our most distinguished historians but also one of the most valuable contributors to historical theory Spectator In formulating an answer to the question of What is History Carr argues that the facts of history are simply those which historians have chosen to focus on All historical facts come to us as a result of interpretive choices by historians influenced by the standards of their age Now for the first time in Penguin Modern Classics with an introduction by Richard J Evans author of the Third Reich trilogy What Is History? Edward Hallett Carr, 1967-10-12 Who is to say how things really were In formulating a modern answer to the question What is History Professor Carr shows that the facts of history are simply those which historians have selected for scrutiny Millions have crossed the Rubicon but the historians tell us that only Caesar's crossing was significant All historical facts come to us as a result of interpretative choices by historians influenced by the standards of their age Yet if absolute objectivity is impossible the role of the historian need in no way suffer nor does history lose its fascination With lucidity Carr casts a light on the proper function of the historian and the vital importance of history in modern society This is an admirably stimulating and intrepid book a bold excursion into a region of central importance where most contemporary philosophers and historians unaccountably either fear or disdain to tread Isaiah Berlin New Statesman **What is History?** Edward Hallett Carr, 1986

H. Carr and International Relations Charles Jones, 1998-10 E H Carr is widely remembered as an influential theorist of international relations The scourge of inter war idealists he became the best known Briton in a generation of predominantly American political realists But Carr's realism differed greatly from that of his contemporaries a vigorous advocate of social and economic planning and friend of the Soviet Union he stood closer to Lenin than to Morgenthau In this book Charles Jones makes sense of Carr's distinctive form of realism by examining his rhetoric and the reciprocal relationship between theory and policy making in his writings Close attention is paid to the period from 1936 when Carr left the Foreign Office through his subsequent career as a one man foreign ministry at Aberystwyth the Ministry of Information and above all The Times culminating in the final frustration of his schemes for continued British world power in 1947 **What is History Now?** D.

Cannadine,2002-07-05 E H Carr's What is History was originally published by Macmillan in 1961 Since then it has sold hundreds of thousands of copies throughout the world In this book ten internationally renowned scholars writing from a range of historical vantage points answer Carr's question for a new generation of historians What does it mean to study history at the start of the Twenty first century This volume stands alongside Carr's classic paying tribute to his seminal enquiry while moving the debate into new territory to ensure its freshness and relevance for a new century of historical study
