The Valuerreporting Revolution The Valuerreporting Revolution:

The ValueReporting Revolution Robert G. Eccles, Robert H. Herz, E. Mary Keegan, David M. H. Phillips, 2002-03-14
Provides a comprehensive framework for achieving higher levels of corporate information disclosure and transparency In order to decide whether or not a company is a good investment analysts and investment professionals need to know as much as possible about the company's tangible and intangible assets as well as a variety of critical performance measures Written by an international team of experts The Value Reporting Revolution clearly explains why corporations must move toward greater transparency and more importantly it provides a comprehensive framework for achieving that goal Among other important lessons readers learn how to identify the gaps between how corporate managers perceive their disclosure practices versus how the markets see them as well as how to leverage their organizations electronic communications technology and tools to ensure easy access to vital information and more meaningful data analysis Robert Eccles Jupiter FL is President of Advisory Capital Partners Inc Robert H Herz New York NY is a Partner at PricewaterhouseCoopers US David Phillips London UK is a Partner at PricewaterhouseCoopers UK Mary M Keegan London UK is head of Global Corporate Reporting at PricewaterhouseCoopers UK Revolution in the Church: Challenging the Religious System with a Call for Radical Change, 2002 **ValueReporting Forecast 2002** PricewaterhouseCoopers LLP., 2001 *Corporate accounting practices* United States. Subcommittee on Capital Markets, Insurance, and Government Sponsored Enterprises, 2002 More Accounting Changes Robert Herz, 2016-09-12 This volume *More Accounting Changes* is a revised and updated edition of Herz's earlier work reflecting developments in financial reporting global developments regarding the use of International Financial Reporting Standards current efforts at disclosure modernization and simplification by the SEC and FASB and more developments in the field **Building Public Trust** Samuel A. DiPiazza, Jr., Robert G. Eccles, 2002-09-18 Business reporting in a post apocalypse global marketplace Clearly now is the time for creating an effective business reporting model appropriate for the markets of the twenty first century Rather than start from scratch after the Enron Andersen fiasco two leading consultants from PricewaterhouseCoopers present a plan that supplements the current model one in which executives accountants analysts investors regulators and other stakeholders can truly embrace the spirit of transparency The Future of Corporate Reporting highlights the best practices for global financial reporting explaining the concept of performance auditing which focuses on the real performance of the business as opposed to technical adherence to GAAS Eccles and Masterson also discuss the pros and cons of GAAP v IAS present new approaches to reforming financial reporting and outline a twenty first century model of accounting that will improve markets and benefit shareholders **Six Capitals, or Can Accountants Save the Planet?: Rethinking Capitalism for the Twenty-First Century** Jane Gleeson-White, 2015-02-25 A timely and fascinating account of the revolution going on in the world of finance from the acclaimed author of Double Entry This is the story of a twenty first

century revolution being led by the most unlikely of rebels accountants Only the second revolution in accounting since double entry bookkeeping began it is of seismic proportions driven by the 2008 financial crash and our ongoing environmental crisis The changes it will wreak are profound and far reaching and not only will transform the way the world does business but also will alter the nature of capitalism While the wealth of nations and corporations has been vital to the global economy increasingly the world is coming to realize that such endless growth is limited by the earth's resources and comes at a huge price to the planet and to human well being It simply cannot be sustained This revolution demands that we go beyond merely accounting for traditional financial and industrial capital and take account of the benefits and detriments to the natural world and society It urges us to include four new categories of wealth intellectual such as intellectual property human skills productivity and health social and relationship shared norms and values and natural environment Making them part of our financial statements and GDP figures may be the only way to address the many calamities we face Just two years ago this revolution seemed idealistic and unlikely Today it is quickly unfolding In 2012 the sea change year two key initiatives took root an international movement to transform how corporate accounting is calculated and the rise of incorporating the effects on the environment to the accounting of national and global economies Six Capitals tells the story of this coming new age in capitalism evaluating its promise and the disaster that lies ahead if it is not implemented **Preparation of Annual**
