## **The Visible And The Invisible The Visible And The Invisible:**

**The Visible and the Invisible** Maurice Merleau-Ponty, 1968 The Visible and the Invisible contains the unfinished manuscript and working notes of the book Merleau Ponty was writing when he died The text is devoted to a critical examination of Kantian Husserlian Bergsonian and Sartrean method followed by the extraordinary The Intertwining The Chiasm that reveals the central pattern of Merleau Ponty s own thought The working notes for the book provide the reader with a truly exciting insight into the mind of the philosopher at work as he refines and develops new pivotal concepts The Visible and the Invisible John Baker Dafin, *Merleau-Ponty and the Art of Perception* Duane H. Davis, William S. Hamrick, 2016-03-01 Philosophers and artists consider the relevance of Maurice Merleau Ponty s philosophy for understanding art and aesthetic experience This collection of essays brings together diverse but interrelated perspectives on art and perception based on the philosophy of Maurice Merleau Ponty Although Merleau Ponty focused almost exclusively on painting in his writings on aesthetics this collection also considers poetry literary works theater and relationships between art and science In addition to philosophers the contributors include a painter a photographer a musicologist and an architect This widened scope offers important philosophical benefits testing and providing evidence for the empirical applicability of Merleau Ponty s aesthetic writings The central argument is that for Merleau Ponty the account of perception is also an account of art and vice versa In the philosopher s writings art and perception thus intertwine necessarily rather than contingently such that they can only be distinguished by abstraction As a result his account of perception and his account of art are organic interdependent and dynamic The contributors examine various aspects of this intertwining across different artistic media each ingeniously revealing an original perspective on this intertwining Michel Henry Jeffrey Hanson, Michael R. Kelly, 2012-02-09 Michel Henry 1922 2002 was a French philosopher and novelist whose work spanned decades and genres while remaining united by a singular vision In this specially commissioned collection eight internationally recognized experts on Henry s thought investigate his profound acquaintance with the mystery of life which he understood as the irreducible bedrock of all reality in its self manifestation under the rubrics of phenomenological experience religion and praxis Each chapter investigates a different aspect of Henry s remarkable range of thought focusing on his special relevance to debates on the relationship of phenomenology and theology as well as to contemporary radical discourses on embodiment and immanence politics and theory Henry s phenomenology of life is both deep and demanding and its relevance to the topics under examination in this book cannot be denied This collection represents the first sustained effort in coming to an understanding of just how far and wide that relevance reaches It will not only spark a resurgence in Henry studies but resonate within that sphere for many years to come *'Essence' and 'equivalence': Merleau-Ponty's The Visible and the Invisible* Dennis R. kendo: Keiken Suru Stevie Roquelaure, 2021-04-23T00:00:00Z The word kendo means the way of the sword Well beyond the technical skills it relates to our emotional and intellectual skills If in Japan and more generally in Asia this multidimensionality of kendo is straightforward and fully apprehend this is not yet the case all around the World where the practice of kendo still needs to gain maturity to blossom The heart strength and soul of the Japanese kendo is undeniable and we must inspire ourselves from its rich history However we have to be careful of the shortcut residing in the temptation of a copy and paste This easy way will lead to the edification of a fake kendo without any character and soul On the contrary we should inspire ourselves from the Japanese reference to build a kendo culture that will rely on our own experience and traditions the roots of our strength and singularity This book proposes a multidimensional pedagogical approach of both learning and teaching kendo where beginners as well as experts are going to find relevant and practical materials for daily practice Moreover any isolated trainee can find in this manual references to guide his practice and monitor his improvements Keiken suru means to make the experience so Embrace your own Experience with Force Efficiency and Soberness

Transgressive Corporeality Diane MacDonald, 1995-07-01 This study begins with Nietzsche's attempt to subvert the projects of classical and modern metaphysics through an unmasking of their abusive underpinnings Because Nietzsche ultimately retreated into his own violent metaphysics of a will to power his critique has been radicalized by other philosophers who explore the body as a site of resistance to foundationalist metaphysics and for clues pointing toward nonfoundational modes of thinking and becoming The philosophies of body explored in this book are those of Maurice Merleau-Ponty Michel Foucault and Julia Kristeva In their respective analyses oppressive modes of the will to truth include the objectifying thought of Enlightenment empiricism and idealism classical and modern modes of rationality discipline and sexuality as well as a monological thinking operative in literature and religion Each theorist attempts to retrieve remainders of these cultural truths as sites of resistance and of alternative modes of relatedness The book concludes by suggesting how these philosophies of body might reshape the imagination of contemporary constructive theology Transgressive

Corporeality Diane Louise Prosser, Diane L. Prosser MacDonald, 1995-01-01 This book examines embodiment and poststructuralism as they pertain to theological method The Problematic of Merleau-Ponty's The Visible and the Invisible

Michael L. Gillespie, 1974 **The Visible and the Invisible in the Interplay between Philosophy, Literature and Reality** Anna-Teresa Tymieniecka, 2002-03-31 Merleau-Ponty's categories of the visible and the invisible are investigated afresh and with originality in this penetrating collection of literary and philosophical inquiries Going beyond the traditional and current references to the mental and the sensory mind and body perceptual content and the abstract ideas conveyed in language etc these studies range from the hidden spheres of reality to the play of the visible and the invisible left as traces in works of human genius the origins of intellect and language the real and the imaginary in literature and the hidden realities in the philosophy of the everyday world These literary and philosophical probings collectively reveal the role of this disjoined

conjoined pairing in the onto-poietic establishment of reality that is in the manifestation of the logos of life. In tandem they bring to light the hidden play of the visible and the invisible in the emergence of our vital societal intimate intellectual and creative involvements

**Polish Theory of History and Metahistory in Topolski, Pomian, and Tokarczuk** Jan Pomorski, 2023-07-18 This book traces the development of the Polish theory of history analysing how Jerzy Topolski Krzysztof Pomian and Olga Tokarczuk have both built upon and transgressed the metahistorical theories of American historian Hayden White. Poland's reception of White's work has gone through different phases from distancing to a period of fascination and eventual critical analysis beginning with Topolski's methodological school in the 1980s. Topolski played a major role in international debates on historical theory in the second half of the 20th century. The book's second study is a rare opportunity for English speaking audiences to engage with the thoughts of Pomian a philosopher and historian of ideas who has both complemented and developed theories of historical cognition independently from White. In the final chapter the book presents a study of the historical imagination in 21st century Central and Eastern Europe through the work of novelist Tokarczuk the winner of the 2018 Nobel Prize in Literature. In considering the contributions of these three thinkers the book explores the active process by which past becomes history and thus motivates contemporary actions and realities. By deconstructing and reconstructing contemporary theories of history this research is a unique contribution to the fields of historiography and the philosophy of history. **Herodotus in Context** Rosalind Thomas, 2000 Herodotus called his work an enquiry and wrote before history was a separate discipline. Coming from Halicarnassus at the crossroads between the Persian and Athenian spheres of influence he combined the culture of Athens with that of the more pluralistic and less ethnocentric cities of east Greece. Alive to the implications of this cultural background for Herodotus thought this study explores the much neglected contemporary connotations and context of the Histories looking at them as part of the intellectual climate of his time. Concentrating on Herodotus ethnography geography and accounts of natural wonders and examining his methods of argument and persuasion it sees the Histories which appear virtually without antecedents as a product of the late fifth century world of the natural scientists medical writers and sophists a world of controversy and debate

Materiality in Religion and Culture Saburo Shawn Morishita, 2017 This book examines the significance of the material dimensions of religion and culture By looking at how scholars have researched religious materiality in the past and focusing especially upon the variety of ways objects are handled in contemporary religious life the reader will discover some insight into the interplay between the material and the immaterial Case studies analyze the use of things in rituals and sacred places as well as ways in which they are appropriated for religious and academic instruction The book attempts to reinterpret what the materiality in religion and culture might signify in light of multidisciplinary methodological approaches and helps to gain some ground on the abstract perspective of religions Series Marburg Religious Science in Discourse Marburger Religionswissenschaft im Diskurs Vol 2 Subject Religious Studies Sociology *Inadvertent Images* Peter Geimer, 2018-03-14 As an artistic medium photography is uniquely subject to accidents or disruptions that can occur in the making of an artwork Though rarely considered seriously those accidents can offer fascinating insights about the nature of the medium and how it works With *Inadvertent Images* Peter Geimer explores all kinds of photographic irritation from throughout the history of the medium as well as accidental images that occur through photo like means such as the image of Christ on the Shroud of Turin brought into high resolution through photography Geimer's investigations complement the history of photographic images by cataloging a corresponding history of their symptoms their precarious visibility and the disruptions threatened by image noise Interwoven with the familiar history of photography is a secret history of photographic artifacts spots and hazes that historians have typically dismissed as spurious phenomena parasites or enemies of the photographer With such photographs it is virtually impossible to tell where a picture has been disrupted where the representation ends and the image noise begins We must Geimer argues seek to keep both in sight the technical making and the necessary unpredictability of what is made the intentional and the accidental aspects representation and its potential disruption
