The War Against Boys:

The War Against Boys Christina Hoff Sommers, 2013-08-20 Argues that boys have become the primary victims of American society showing how boys weaknesses are aggravated by anti boy prejudices and offering constructive suggestions on how to help young males

The War Against Boys Christina Hoff Sommers, 2013-08-20 An updated and revised edition of the controversial classic now more relevant than ever argues that boys are the ones languishing socially and academically resulting in staggering social and economic costs Girls and women were once second class citizens in the nation s schools Americans responded with concerted efforts to give girls and women the attention and assistance that was long overdue Now after two major waves of feminism and decades of policy reform women have made massive strides in education Today they outperform men in nearly every measure of social academic and vocational well being Christina Hoff Sommers contends that it s time to take a hard look at present day realities and recognize that boys need help Called provocative and controversial impassioned and articulate The Christian Science Monitor this edition of The War Against Boys offers a new preface and six radically revised chapters plus updates on the current status of boys throughout the book Sommers argues that the problem of male underachievement is persistent and worsening Among the new topics Sommers tackles how the war against boys is harming our economic future and how boy averse trends such as the decline of recess and zero tolerance disciplinary policies have turned our schools into hostile environments for boys As our schools become more feelings centered risk averse competition free and sedentary they move further and further from the characteristic needs of boys She offers realistic achievable solutions to these problems that include boy friendly pedagogy character and vocational education and the choice of single sex classrooms The War Against Boys is an incisive rigorous and heartfelt argument in favor of recognizing and confronting a new reality boys are languishing in education and the price of continued neglect is economically and socially prohibitive

Sample Book Insights

- 1 Aviation High School is a great example of how a school can help students become engaged and interested in learning The school is all about structure and students are kept so busy that they have neither the time nor the desire for antics
- 2 There are very few visits from American officials to Aviation High The school is 85 percent male and the women students are well respected but their numbers remain minuscule
- 3 There is no simple answer as to why there are so few girls in Aviation High School s program but the school s administrators are confident that their success will allay any concerns
- 4 The shortchanged girl movement was based on a lot of unconventional evidence such as controversial self esteem studies unpublished reports on classroom interactions and speculative metaphor laden theories about school climates and female adolescent malaise

The Churchman ,1928 **The War Against the Family** William Douglas Gairdner,1992 Believing it is high time for someone to speak out in defense of the family William Gairdner the author of *The Trouble with Canada* has turned his attention to what he calls the civil war of values that is weakening the soul of the family in Canada Among his findings Traditional marriage is being demoted in our children s textbooks as only one choice among many types of family relationships Massive funding is given to radical lobby groups devoted to destroying the family while those supporting it go begging Sex education at one time the concern of families has become the property of sexologists and peer groups The mainline churches have abandoned souls for political causes and pagan theories The law and the courts of the land are decimating the traditional privileges of the family in the name of individual rights In writing that is vigorous and compelling Gairdner traces the war against the family to a political ideology springing from Plato Rousseau and a utopian liberalism that has become a caricature of itself everywhere promoting rights but forgetting duties Powered by this ideology the modern State eager for votes and hostile to freedom effectively weakens the family unit which it sees as a bastion of privacy privilege and authority In *The War Against the Family* Gairdner throws down the gauntlet forcing into the open a much needed debate about the future of the family in Western societies The family of today and future generations are sure to benefit Jacket flap
