Saving the Mail R. Richard Geddes, Rick Geddes, 2003 A comprehensive overview of the U S Postal Service its organization and its performance since its creation by the 1970 Postal Reorganization Act *Water Capitalism* Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth s surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e g whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water Medicare Hospital Subsidies Sean Nicholson, 2002 This study reviews the rationales legislative history and financial incentives of hospital subsidies in the US After this detailed analysis the author suggest alternative designs for programmes that could curb their costs and ensure that they achieve the goals for which they were created **An Analytic Assessment of U.S. Drug Policy** David Boyum, Peter Reuter, 2005 This book concludes that AmericaOs drug policy should be reoriented in several ways to be more effective Closing the Education Achievement Gap Marvin H.
