Scales : scales and scale studies for the violin Simon Fischer, 2012-06-20 One of the central and original features of SCALES by Simon Fischer is that scales are built up gradually in order to develop good intonation Taking this approach beyond that developed by Carl Flesch in THE ART OF VIOLIN PLAYING each scale is also preceded by studies using the tonic third fifth and seventh as their basics An extensive system of held down finger lines further helps intonation and left hand stability In addition to presenting scales and scale studies in all keys this book includes a wide range of related practice material including exercises for finger preparation exercises for smooth bowing rhythm accent and bowing patterns a practice method to develop fast fingers the turning point at the top of the scale and exercises for shifting

Basics Simon Fischer, 1997 The volume includes a general introduction instruction for the individual exercises a general index and an index of musical examples

The Complete Pianist Penelope Roskell, 2022-12-09 Winner of the Presto Music Best New Publication Award 2020 The Complete Pianist covers all aspects of piano technique including posture finger touch and tone production chords octaves rotation lateral movements Also included are sections on mental preparation effective practice sight reading memorizing phrasing rhythm articulation sound pedalling injury prevention and performance anxiety The book is suitable for pianists of all levels from beginner intermediate to professional performers and teachers The book is currently available as a print version with online videos demonstrating the techniques discussed Containing more than 500 pages of text 300 videos performed by Penelope herself and 250 newly devised exercises this is the most comprehensive book ever written on piano playing

A Guide to Practicing David Popper's 'Hohe Schule' Etudes Benjamin Whitcomb, 2018-08-31 There are few works in the cello repertoire as significant as the etudes by David Popper They are practiced studied and learned by cellists all over the world as a sort of rite of passage to the advanced cello techniques This has been the case since their publication and there is no

sign that this is going to change in the foreseeable future Auditions for such things as youth orchestras festivals competitions or university admissions frequently require the performance of one or more Popper etudes Learning these etudes is a wonderful way to prepare yourself for the advanced cello repertoire However tackling them on your own can be a daunting task Several authors have published their ideas and suggestions for practicing these etudes whether as articles books or videos What makes this guide different is that it shows you step by step exactly how you can effectively practice all the difficult spots in each etude such that you will surely learn and master each one at a faster rate than you would without these suggestions and exercises VIOLIN LESSON - A MANUAL FOR TEACHING AND SELF -TEACHING THE VIOLIN. ,2022
