

THE WEREWOLF

By
MONTAGUE SUMMERS

*Author of The History of Witchcraft,
The Vampire, his Kith and Kin, etc.*

With 8 Full Page Plates

As wide as the world and as old as time, the terrible tradition of the werewolf is inextricably commingled with the psychology, the vital thought, the history of all peoples. Even in the twentieth century the werewolf is not unknown in certain parts of Europe. And, in the remoter districts of England itself, there lingers a vague but very real dread of, a half-belief in, this monstrous denizen of night and hell. The subject of the werewolf has received some cursory notice from folklorists and puzzled anthropologists, but hitherto there has been no sufficiently detailed and serious study of shape-shifting written in English, and even the old French and Latin monographs, books of the last rarity, belong for the most part to the close of the sixteenth century. The present work deals comprehensively with the subject, and does not neglect the legends of many countries that serve to throw some light upon these mysteries. A full account, moreover, is given of the werewolf trials, and a chapter has been added upon the werewolf theme in literature. A very ample bibliography is appended.

Body and Tradition in Nineteenth-Century France William G. Pooley, 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe *Body and Tradition in Nineteenth Century France* explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of Félix Arnaudin 1844-1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by

Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe
