Bringing Wisdom to Life Anita Carter, Frank Carter, 2019 It is now over 2 600 years since one of the greatest historical figures the world has known passed away Although he lived in ancient times what the Buddha found out and taught to others is a significant influence in our world today Modern emanations of the Buddha s Teachings have found their way into psychology business the arts medicine education sport and many other fields changing the way many live their lives undoubtedly for the better If it hadn t actually happened it hardly seems possible that the teachings of a single person born in Northern India in antiquity could have transformed the lives of millions and millions of people for over two and a half millennia Yet the Buddha changed the culture and traditions of over a dozen countries engendered the support and patronage of kings and rulers the rich and poor young and old alike without the use of any force or persecution It is an

incredible legacy Through all these years since the Buddha's time how many thousands of battles invasions and conflicts have there been to conquer and rule only for all of these many empires of the long past to die out Yet the Buddha's message carries on with strength and clarity and testifies that love truth and peace have their own power and endurance as they resonate deeply with every individual's fundamental need for happiness and wellbeing Bringing Wisdom to Life is written from the perspective of practicing Buddhists who have studied and learnt from many of the Buddhist Traditions found in our world today This book offers a rich diversity of wisdom and compassion teachings for use as a practical handbook for everyday living and is a remarkable guide for inner development and peace Extraordinary Freedom Dana

Marsh, 2014-10-29 Extraordinary Freedom is an approachable and straightforward invitation to open to life to inquire within and to go beyond confusion and live in the light of awareness Although the book isn't filled with the esoteric language of the Buddhist tradition it has the depth of this powerful wisdom tradition By becoming conscious of our inner world our habits beliefs neurosis and attachments there is an opportunity to see their empty nature and in doing so transform our lives The wisdom we need is already within us it is who we are By living in awareness and gaining insight we discover this for ourselves In order to reveal this wisdom in our consciousness we need to try on a new way of seeing and relating to life and all the conditions it presents then the extraordinariness of who we are can reveal itself and the chains that bind us to old hardened views will break We can experience extraordinary freedom moment by moment embracing all that life offers Many people need a book like this which is simple in its language and profound in its meaning Anam Thubten
