The Virtuous Citizen Patriotism In A Multicultural Society:

The Virtuous Citizen Tim Soutphommasane, 2012-08-16 What does it mean to be a citizen in a multicultural society And what role must patriotism play in defining our relationship with our country and fellow citizens In *The Virtuous Citizen* Tim Soutphommasane answers these questions with a critical defence of liberal nationalism Considering a range of contemporary political debates from Europe North America and Australia over issues including multiculturalism national history civic education and immigration Soutphommasane argues that a love of country should be valued alongside tolerance mutual respect and public reasonableness as a civic virtue A liberal form of patriotism grounded in national identity is if anything essential for political stability in a diverse society This book is required reading not only for political theorists and philosophers but also for researchers and professionals in political science sociology history and public policy

Multiculturalism and Interculturalism Nasar Meer, 2016-02-02 Both interculturalism and multiculturalism address the question of how states should forge unity from ethnic cultural and religious diversity But what are the dividing lines between interculturalism and multiculturalism This volume brings together some of the most prominent scholars in the field to address these two different approaches With a Foreword by Charles Taylor and an Afterword by Bhikhu Parekh this collection spans European North American and Latin American debates Citizenship and Multiculturalism in Western Liberal Democracies Leah Bradshaw, David Edward Tabachnick, 2017-03-16 This volume explores some of the tensions and pressures of citizenship in Western liberal democracies Citizenship has adopted many guises in the Western context although historically citizenship is attached only to some variant of democracy How democracy is configured is thus at the core of citizenship Beginning in ancient Greece citizenship is attached to the notion of a public sphere of deliberation open only to a small number of males Nonetheless we take from these origins an understanding of citizenship that is attached to friendship preservation of a distinct community and adherence to law These early conceptions of citizenship in the west have been dramatically altered in the modern context by the ascendancy of individual rights and equality expanding the inclusiveness of definition of citizenship The universality of rights claims has led to debate about the legitimacy of the nation state and questioning of borders A further development in our understanding of citizenship and one that has shifted citizenship studies considerably in the last few decades is the backlash against the universalism of rights in the defense of cultural recognition within democratic polities Multiculturalism as a broad spectrum of citizenship studies defends the autonomy and recognition of cultural and sometimes religious identity within an overarching scheme of rights and equality This collection draws upon the many threads of citizenship in the Western tradition to consider how all of them are still extant and contentious in contemporary liberal democracy The Politics of Citizenship in Immigrant Democracies Geoffrey Brahm Levey, Ayelet Shachar, 2017-10-02 This book brings together scholars from various disciplines to explore current issues and trends in the rethinking of migration and citizenship from the perspective of three major immigrant democracies Australia Canada and the

United States These countries share a history of pronounced immigration and emigration extensive experience with diasporic and mobile communities and with integrating culturally diverse populations They also share an approach to automatic citizenship based on the principle of jus soli as opposed to the traditionally common jus sanguinis of continental Europe and a comparatively open attitude towards naturalization Some of these characteristics are now under pressure due to the restrictive turn in citizenship and migration worldwide This volume explores the significance of political structures political agents and political culture in shaping processes of inclusion and exclusion in these diverse societies This book was originally published as a special issue of Citizenship Studies

Liberal Multiculturalism and the Fair Terms of Integration P.

Balint,S. Guérard de Latour,2013-10-29 Multiculturalism has come under considerable attack in political practice yet the fact of diversity remains and with it the need to establish fair terms of integration This book defends multiculturalism as the most coherent and practicable approach to liberal integration but one that is not without the need for crucial reformulation

The Labour Party under Ed Miliband Eunice Goes,2016-04-08 By charting the ideas that informed and shaped Ed Miliband s attempt to re imagine social democracy this book shows that he tried but failed in that task This failure is one of the several reasons why Milibandism was so overwhelmingly rejected by voters at the 2015 general election I'm Not Racist But ... 40 Years of the Racial Discrimination Act Tim Soutphommasane,2015-06-01 Is Australia a racist country Why do issues of race and culture seem to ignite public debate so readily Tim Soutphommasane Australia s Race Discrimination Commissioner reflects on the national experience of racism and the progress that has been made since the introduction of the Racial Discrimination Act in 1975 As the first federal human rights and discrimination legislation the Act was a landmark demonstration of Australia s commitment to eliminating racism Published to coincide with the Act s fortieth anniversary this book gives a timely and incisive account of the history of racism the limits of free speech the dimensions of bigotry and the role of legislation in our society s response to discrimination With contributions by Maxine Beneba Clarke Bindi Cole Chocka Benjamin Law Alice Pung and Christos Tsiolkas

The American School: From the Puritans to No Child Left Behind

Joel Spring,2008 This current comprehensive history of American education is designed to stimulate critical analysis and critical thinking by offering alternative interpretations of each historical period The point of view taken by this text emphasizes 1 the role of multiculturalism and cultural domination in shaping U S schools 2 the position of the school as one of many institutions that manage the distribution of ideas in society 3 racism as a central issue in U S history and U S educational history and 4 economic issues as an important factor in understanding the evolution of U S schools *The Many Faces of Patriotism* Philip Abbott,2007 The Many Faces of Patriotism debate the consequences of the 21st century s patriotic resurgence examining it both in theoretical and comparative terms that draw on examples of patriotism from ancient Greece to post apartheid South Africa **Patriotism and Citizenship** Sean Richey, **Good Citizenship in America** David M. Ricci,2004-07-19 Good Citizenship in America describes a civic ideal of who enjoys membership in the state and what

obligations that entails and traces its history in America Until 1865 this ideal called for virtuous political behavior republicanism but extended the franchise beyond early republican expectations democracy The book follows the widening of the franchise to women and people of color and to those with little or no property following economic development post 1865 In the twentieth century the civic ideal was influenced by the increase of consumerism its peak after World War II and its subsequent decline More recent citizenship informed by environmental problems and growing global Darwinism places a bigger and bigger emphasis on the economic conscience This is an easily accessible analysis of civic trends in America and one that highlights much of what is decent in American life **A Course in Citizenship and Patriotism** Ella Lyman

Cabot, Fannie Fern Andrews, Fanny E. Coe, Mabel Hill, Mary McSkimmon, 1918 *Good Citizenship* Grover Cleveland, 1908

The Good Citizen Joanne Myers, 2019-08-31 Using applied political theory JoAnne Myers presents five markers by which citizens become second class citizens property productivity participation patriotism and reproduction Citizenship is a highly contested status since it grants members political rights and responsibilities It is contextualized by cultural political historical economic situational and place In the United States we think of citizenship in principle as democratic but citizenship is not just a binary status norms policies and laws can mark some citizens as other In *The Good Citizen* The Markers of Privilege in America Myers argues that being marked as not having or achieving these markers is how citizenship is controlled and regulated To illustrate this argument each chapter begins with a practical question or myth to ease the reader into the marker being examined She later articulates the ways in which law and norms and biopower regulates and controls citizens in three policy areas Myers moves beyond theories of citizen marginalization based on identity politics and intersectionality to provide a new understandings of citizenship practice *The Good Citizen* will be of interest to scholars and researchers of the politics sociology or legal studies of citizenship and anyone concerned with distributive justice **The Good Citizen**

number of basic concepts associated with the standard analysis of patriotism e g civic friendship solidarity associative duties civic virtue loyalty pride responsibility courage etc It also presents some of the concepts that were previously left outside its gravitational orbit e g federalism religion taxation and the economy Promoting Good Citizenship James Bryce Bryce (Viscount),1913 *Beacon Lights of Patriotism; Or, Historic Incentives to Virtue and Good Citizenship* Henry Beebe Carrington,1895 A Course in Citizenship and Patriotism (1918) Ella Lyman Cabot,Fannie Fern Andrews,Fanny E.
