Vulture Moshe Kasher,2024-01-30 NATIONAL BESTSELLER A hilarious Dax Shepard surprisingly emotional trip The Chainsmokers through deep American subcultures ranging from Burning Man to Alcoholics Anonymous by the writer and comedian Moshe Kasher Part history lesson part standup set and often part love letter Kasher s ability to blend humor with

homework works almost too well The New York Times After bottoming out being institutionalized and getting sober all by the tender age of fifteen Moshe Kasher found himself asking What's next Over the ensuing decades he discovered the answer a lot There was his time as a boy king of Alcoholics Anonymous a kind of pubescent proselytizer for other teens getting and staying sober He was a rave promoter turned DJ turned sober ecstasy dealer in San Francisco's techno warehouse party scene of the 1990s For fifteen years he worked as a psychedelic security guard at Burning Man fishing hippies out of hidden chambers they'd constructed to try to sneak into the event As a child of deaf parents Kasher became deeply immersed in deaf culture and sign language interpretation translating everything from end of life care to horny deaf clients attempts to hire sex workers He reconnects and tries to make peace with his ultra Hasidic Jewish upbringing after the death of his father before finally settling into the comedy scene where he now makes his living Each of these scenes gets a gonzo historiographical rundown before Kasher enters the narrative and tells the story of the lives he has spent careening from one to the next A razor sharp gut wrenchingly funny and surprisingly moving tour of some of the most wildly distinct subcultures a person can experience Subculture Vulture deftly weaves together memoir and propulsive cultural history It's a story of finding your people over and over again in different settings and of knowing without a doubt that wherever you are is where you're supposed to be

The Face of Africa Stan Chu Ilo, 2006 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and

groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development

The Vultures of Africa Peter J. Mundy, 1992 *AF Press Clips*, 1968-07

The Great Eagles Michael O'Neal Campbell, 2022-05-18 This book examines the current literature and knowledge on the evolution and ecology of all the birds named as eagles with particular emphasis on the larger species It also examines the past and current relations between eagles and people including habitat change and conservation issues Eagle ecologies and conservation are currently seriously impacted by human activities such as industrialization urbanization pollution deforestation and hunting Some eagle species have consequently experienced extreme population changes There are however some positive developments Eagles have a strong historic bond with human civilization due to their status as the world's most charismatic birds Conservation policies have also been successful in repopulating some ecosystems with breeding eagles Therefore despite the complexity of this relationship there may yet be hope for this unique species group frequently rated as the kings of birds and symbolic of human power ambition royalty nationality and even concepts of God It is hoped that this book will contribute to the further understanding of these unique and fantastic birds
