Cases on Tour Guide Practices for Alternative Tourism Yildirim, Gulsun, Ozbek, Ozlem, Kilinc, Ceyhan Caglar, Tarinc, Abdullah, 2020-06-19. Tour guides, a highly responsible group of professionals who are in direct communication with tourists traveling around the world, have a great impact on the proper promotion of the culture of countries, global peace and tolerance. Additionally, they are also effective in the preservation of world natural heritage. Thus, the educational status of tour guides as well as the characteristics and ethical values that they should possess need to be examined on an international scale. In today's world, where tourism demand is directed towards all types of tourism practices, special interest tourism should be customized in order to ensure the highest level of service quality and cultural appreciation. *Cases on Tour Guide Practices for Alternative Tourism* provides emerging research exploring the theoretical and practical aspects of the occupational issues that surround tour guides and their applications within international tourism. Featuring coverage on a broad range of topics such as cultural education, specialized learning and international business, this book is ideally designed for tour guides, travel agencies, tour managers, tour developers, heritage sites, museums, academicians, researchers, students, industry experts and hospitality professionals.

Gender, Disability, and Tourism in Africa Erisher Woyo, Hellen Venganai, 2022-11-10 This book explores the intersection of gender and disability in the context of tourism In part the book foregrounds feminist theorising of intersectionality by examining how gender can overlap with other social identities to contribute to more systemic oppression domination discrimination and marginalisation of certain categories of people Our point of departure is that disability does not operate in isolation as it is constituted and experienced within an already gendered social and tourism environment With substantial research on the intersection of gender and tourism on the one hand and the intersection of disability and tourism on the other hand the interconnectedness of gender and disability and the implications this has on tourism policy and practice remains understudied Thus the book provides a critical lens that helps unpack underlying assumptions about gender and disability while questioning the dominant ideas about gender and disability reproduced through tourism policies and institutional practices in an African context This book will be of interest to scholars and researchers in Gender Studies Disability Studies and Tourism Studies particularly those with a research interest in Africa
