Machine Learning for Business Analytics Galit Shmueli, Peter C. Bruce, Kuber R. Deokar, Nitin R. Patel, 2023-04-19

MACHINE LEARNING FOR BUSINESS ANALYTICS Machine learning also known as data mining or predictive analytics is a fundamental part of data science. It is used by organizations in a wide variety of arenas to turn raw data into actionable information. Machine Learning for Business Analytics: Concepts, Techniques, and Applications with Analytic Solver Data Mining provides a comprehensive introduction and an overview of this methodology. The fourth edition of this best-selling textbook covers both statistical and machine learning algorithms for prediction, classification, visualization, dimension reduction, rule mining, recommendations, clustering, text mining, experimentation, time series forecasting, and network analytics. Along with hands-on exercises and real-life case studies, it also discusses managerial and ethical issues for responsible use of machine learning techniques. This fourth edition of Machine Learning for Business Analytics also includes: An expanded chapter on deep learning; A new chapter on experimental feedback techniques including A/B testing, uplift modeling, and reinforcement learning; A new chapter on responsible data science. Updates and new material based on feedback from instructors teaching MBA, Masters in Business Analytics, and related programs; undergraduate diploma and executive courses; and from their students. A full chapter devoted to relevant case studies with more than a dozen cases demonstrating applications for the machine learning techniques. End-of-chapter exercises that help readers gauge and expand their comprehension and competency of the material presented. A companion website with more than two dozen data sets and instructor materials including exercise solutions, slides, and case solutions. This textbook is an ideal resource for upper-level undergraduate and graduate-level courses in data science, predictive analytics, and business analytics. It is also an excellent reference for analysts, researchers, and data science practitioners working with quantitative data in management, finance, marketing, operations, management information systems, computer science, and information technology.

Creating Great Teams Sandy Mamoli, David Mole, 2015-11-11 People are happiest and most productive if they can choose what they work on and who they work with. Self-selecting teams give people that choice. Build well-designed and efficient teams to get the most out of your organization with step-by-step instructions on how to set up teams quickly and efficiently. You'll create a process that works for you whether you need to form teams from scratch, improve the design of existing teams, or are on the verge of a big team re-shuffle. Discover how New Zealand's biggest e-commerce company completely restructured their business through Self-Selection. In the process, find out how to create high-performing groups by letting people self-organize into small cross-functional teams. Step-by-step guides, easy-to-follow diagrams, practical examples, checklists, and tools will enable you to run a Self-Selection process within your organization. If you're a manager who wants to structure your organization into small teams, you'll discover why Self-Selection is the fastest and safest way to do so. You'll prepare for and organize a Self-Selection event and make sure your Self-Selection participants and fellow managers are on board and ready. If you're a team member, you'll discover what it feels like to be part of a Self-Selection process and what the consequences are for your daily work. You'll learn how to influence your colleagues and bosses to be open to the idea of Self-Selection. You'll provide your manager with

a plan for how to facilitate a Self Selection event and with evidence that the system works If you re feeling the pain and chaos of adding new people to your organization or just want to ensure that your teams have the right people with the right skills Self Selection will help you create the effective teams you need **Managing People in Sport Organizations** Tracy Taylor,Alison Doherty,Peter McGraw,2015-01-09 Managing People in Sport Organizations provides a comprehensive overview of the theory and practice of managing people within a strategic framework This revised and updated second edition examines a range of strategic human resource management approaches that can be used by sport organizations to respond to contemporary challenges and to develop a sustainable performance culture Drawing on well established conceptual frameworks and current empirical research the book systematically covers every key area of HRM theory and practice including recruitment training and development performance management and appraisal motivation and reward organizational culture employee relations diversity managing change This new edition also includes expanded coverage of social media volunteers and individuals within organizations and is supported with a new companion website carrying additional resources for students and instructors including PowerPoint slides exam questions and useful web links No other book offers such an up to date introduction to core concepts and key professional skills in HRM in sport and therefore Managing People in Sport Organizations is essential reading for any sport management student or any HR professional working in sport **Oceanography and Benthic Ecology of Patagonian Fjords - 500 years From the Discovery of the Strait Magellan** Giorgio Bavestrello,2022-09-02 **Data Classification** Charu C.
