World Of Literature The:

What Is World Literature? David Damrosch, 2018-06-05 World literature was long defined in North America as an established canon of European masterpieces but an emerging global perspective has challenged both this European focus and the very category of the masterpiece The first book to look broadly at the contemporary scope and purposes of world literature What Is World Literature probes the uses and abuses of world literature in a rapidly changing world In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction David Damrosch looks at the ways works change as they move from national to global contexts Presenting world literature not as a canon of texts but as a mode of circulation and of reading Damrosch argues that world literature is work that gains in translation When it is effectively presented a work of world literature moves into an elliptical space created between the source and receiving cultures shaped by both but circumscribed by neither alone Established classics and new discoveries alike participate in this mode of circulation but they can be seriously mishandled in the process From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today foreign works have often been distorted by the immediate needs of their own editors and translators Eloquently written argued largely by example and replete with insightful close readings this book is both an essay in definition and a series of cautionary tales World Literature in Theory David

Damrosch, 2014-01-28 World Literature in Theory provides a definitive exploration of the pressing questions facing those studying world literature today Coverage is split into four parts which examine the origins and seminal formulations of world literature world literature in the age of globalization contemporary debates on world literature and localized versions of world literature Contains more than 30 important theoretical essays by the most influential scholars including Johann Wolfgang von Goethe Hugo Meltzl Edward Said Franco Moretti Jorge Luis Borges and Gayatri Spivak Includes substantive introductions to each essay as well as an annotated bibliography for further reading Allows students to understand articulate and debate the most important issues in this rapidly changing field of study **The Story of the World's Literature** John
