The World within the Group Martin Weegmann,2018-05-01 *The World within the Group* is an original and ambitious endeavour to connect group analysis to philosophy history and modern social theory The book argues

that group analysis needs theoretical renewal to remain relevant and that philosophy is a valuable resource for such thinking In particular the work of three philosophers is examined Nietzsche Dewey and Gadamer each being associated with pragmatic perspective inquiry The author demonstrates that group analysis is compatible with such inquiry and that we understand and intervene from within the horizon of specific traditions of training and theory Group analysis typifies an unremitting relational stance valuing openness of dialogue and moving in and out of the perspectival worlds of the participants The book also offers a re formulation of the concept of social unconscious seen as a discursive world of production and articulation Drawing on contemporary social theories it chimes with the spirit of Elias s historical approach

Worlds Within Vilashini Cooppan, 2009-10-08 From Conrad to Rushdie from Du Bois to Ngugi *Worlds Within* explores the changing form of novels nations and national identities by attending to the ways in which political circumstances meet narratives of the psyche

Worlds Within Worlds Jane Tussey Costlow, 2014-07-14 The novelist Ivan Turgenev 1818 1883 is known primarily as a chronicler of his age and crafter of elegant prose like the simplest painting of daily artifacts his works have pleased partly because they shape a recognizable world and partly because their form gives to the content its resonant signifying power Here Jane Costlow accounts for both the historicity and aesthetic elegance of Turgenev s realist novels in close readings of *Rudin* *A Nest of Gentry* *On the Eve* and *Fathers and Children* all written between 1855 and 1861 Each essay focuses on a particular aspect of Turgenev s art as it relates to his human and aesthetic concerns This study challenges traditional views of Turgenev as an objective recorder of his times suggesting that the engaging qualities of his novels lie less in their historicity than in the lyricism and aesthetic consciousness with which he shaped his narratives Costlow explores the lyric meditation pastoral longing and unspoken emotion that are the hallmarks of Turgenev s prose and that make up his worlds within worlds the realms of his novels that elude the historical Throughout she demonstrates how the aesthetics of constraint and understatement mask the author s awareness of limitation and complexity in human experience By stressing the enigmatic and challenging qualities of his works Costlow exposes Turgenev to revealing new readings Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The World within War Gerald Linderman, 2013-10-16 Gerald Linderman has created a seamless and highly original social history authoritatively recapturing the full experience of combat in World War II Drawing on letters and diaries memoirs and surveys Linderman explores how ordinary frontline American soldiers prepared for battle related to one another conceived of the enemy thought of home and reacted to battle itself He argues that the grim logic of protracted combat threatened soldiers not only with the loss of limbs and lives but with growing

isolation from country and commanders and ultimately with psychological disintegration The World Within The Screen
