## **Wounds Of The Spirit Black Women Violence And Resistance Ethics:**

*Wounds of the Spirit* Traci C. West, 1999-03 West a professor of ethics and African American studies at Drew University and a United Methodist clergy person employs first person accounts from slave narratives to contemporary interviews to Tina Turner's autobiography to document a historical legacy of violence against black women in the US She confronts the ways that racism and sexism can intensify black women's anguish in the wake of intimate assault situating spiritual matters within a discussion of the psychosocial impact of violence against women Annotation copyrighted by Book News Inc Portland OR

Violence in the Lives of Black Women Carolyn West, 2014-01-02 Break the silence surrounding Black women's experiences of violence Written from a Black feminist perspective by therapists researchers activists and survivors *Violence in the Lives of Black Women* Battered Black and Blue sheds new light on an understudied field For too long Black women have been suffering the effects of violence in painful silence This book winner of the Carolyn Payton Early Career Award for its contribution to the understanding of the role of gender in the lives of Black women provides a forum where personal testimony and academic research meet to show you how living at the intersection of many kinds of oppression shapes the lives of Black women With moving case studies in depth discussions of activism and resistance and helpful suggestions for treatment and intervention this book will help you understand the impact of violence on the lives of Black women Topics you'll find in *Violence in the Lives of Black Women* include using the arts to deal with sexual aggression in the Black community racial aspects of sexual harassment the consequences of head and brain injuries stemming from abuse domestic violence in African American lesbian relationships strategies Black women use to escape violent living situations lifelong effects of childhood sexual abuse on Black women's mental health references and resources to help you learn more Sisters in the Statehouse Nadia E. Brown, 2014-03-11 Descriptive studies of women in office have well documented the ways in which the gender and race of legislators affects policy preferences However descriptive studies of female legislators tend to treat identity as constant over time and context and so fail to account for the substantive work of legislators As *Sisters in the Statehouse* shows it is not enough to disaggregate women from Blacks While scholars have long advanced the notion that African American women as a group exhibit specificities informed by the intersection of race and gender that provide them with a unique worldview it is necessary to further explore differences among Black women This book addresses this gap by utilizing humanistic inquiry to examine the connection between descriptive and substantive representation in the case of Black women legislators This link hinges on how such legislators see the effects of their own race gender identity on their legislative work By combining humanistic and social science techniques including feminist life histories elite interviews and participant observation in conjunction with legislative case studies and bill sponsorship data Nadia E Brown presents a fuller description of how identity informs Black women state legislators descriptive and substantive representation Linking personal narratives to political behavior Brown elicits the feminist life histories of African American women legislators to

understand how their experiences with racism and sexism have influenced their legislative decision making and policy preferences *Sisters in the Statehouse* is a groundbreaking inquiry into how an intersectional approach can enhance our understanding of political representation *The Divided Mind of the Black Church* Raphael G Warnock, 2023-11-21 An altar call to action from the U S senator and senior pastor at Atlanta s Ebenezer Baptist Church Publishers Weekly What is the true nature and mission of the church Is its proper Christian purpose to save souls or to transform the social order This question is especially fraught when the church is one built by an enslaved people and formed from its beginning at the center of an oppressed community s fight for personhood and freedom Such is the central tension in the identity and mission of the Black church in the United States For decades the Black church and Black theology have held each other at arm s length Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression arguing that Jesus urged his disciples to seek the freedom of all peoples Meanwhile the Black church even when focused on social concerns has often emphasized personal piety rather than social protest With the rising influence of white evangelicalism biblical fundamentalism and the prosperity gospel the divide has become even more pronounced This book traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church Calling for honest dialogue between Black and womanist theologians and Black pastors this fresh theological treatment demands a new look at the church s essential mission An informative work for historians theologians and humanities scholars interested in debating what the Black Church needs to be doing in the 21st century *Journal of African American History* As a person who is not Black reading this book provided a learning experience for me I could also see this book serving as a way to spark discussion involving all ethnic groups as to how we can all as fellow Christians blend the goals of saving lost people and moving the culture toward equality for everyone Ministry Well written and meticulously researched *The Christian Century* *Handbook of Violence* Lisa A. Rapp-Paglicci, Albert R. Roberts, John S. Wodarski, 2002-07-03 A multidisciplinary team of experts examines violence from a resilience perspective Violence knows no boundaries It attacks in schools in families and even in the workforce places that should be regarded as safe havens Encompassing the enormity of violence through a comprehensive biopsychosocial perspective *Handbook of Violence* examines community school family and workplace violence including identification classification prevention and intervention programs and case management Written by the leading authorities in their fields this groundbreaking compilation Reviews how children and adolescents from violent homes are detrimentally affected in multiple ways including short and long term consequences that seriously impair their psychological social educational and physical development Explores issues related to the occurrence of domestic violence in African American families presenting an array of theoretical formulations that may prove useful to practitioners who must service both victims and perpetrators Examines the prevalence of female juvenile delinquency and reviews the literature from a sociological and practice perspective Focuses on the current trends and issues surrounding youth gang violence

discussing identification classification and prediction as they relate to gang violence as well as effective prevention and intervention Addresses the identification classification and prediction of school violence among middle school and high school youth Covers the broad range of cases that are classified as workplace violence examining the differences in definition and analyzing the bases for the growing prevalence of incidents Topics include Violence within families through the life span Adolescent dating violence Assessing violent behavior Domestic violence in Latino cultures Conduct disorder and substance abuse Youth gang violence School violence Preventing workplace violence Domestic violence in the workplace And much more

*God Forbid* Kathleen M. Sands,2000 Since the 1980s religion has been most visible in American public life when issues of sexuality and reproduction are at stake Paradoxically however the voices that speak most loudly in the name of religion are often unschooled in religious history world religions theology or ethics As a result religion in America is misrepresented as anxiously and obsessively concerned with sex and as uniformly supporting the conservative agenda of family values This volume corrects that distortion in American public discourse Its thirteen previously unpublished articles introduce scholarly perspectives on issues including the family gay rights abortion welfare policy prostitution and assisted reproduction They richly display the complexities and conflicts that exist not only between but within America s various religious traditions for example the pro choice strain within Christian history the support of many religious denominations for gay rights and the criticism of patriarchal family structures within religious communities past and present In these essays contributors put forth views of sexual ethics that are just and compassionate respectful of cultural pluralism and attentive to democratic processes Thoroughly researched lucidly written and carefully argues this anthology will debunk the claims of the Religious Right to be the only religious word on sexuality in America

*Victims of Crime* Robert C. Davis,Arthur J. Lurigio,Susan Herman,2007-02-21 This edition provides up to date reports on criminal victimization including current trends the emotional impact of crime the needs and problems of certain victims and victim participation in the criminal justice system

**Feminist Theories of Crime** Merry Morash,2017-07-05 This collection re imagines the field of criminology with insights gleaned from feminist theory Works included here illustrate that gender is a key organizing principle of social life This means that men and women have gender that patriarchy as well as gender must be theorized and that other systems of oppression such as race and class must also be studied to fully understand the crime problem and the criminal justice system Finally the articles collected here exemplify the feminist concern for thinking consciously about how and why we do our research with the crucial goal of producing knowledge that will promote social justice

**Black Intimacies** Shirley Ann Hill,2005 In *Black Intimacies A Gender Perspective on Families and Relationships* Shirley A Hill applies a gender lens to the multiple systems of oppression that have shaped the lives of African American women and men She challenges the image of a monolithic black population a legacy of the civil rights movement that she argues is impossible to sustain in the postmodern era Through a critique of intersectionality theory Hill examines the ways in which gender has affected experiences of

intimacy family relationships child rearing and motherhood for contemporary African Americans Drawing on ethnographic material interviews and scholarly research Hill s work rethinks the cultural and historical definitions of black identity and reconceptualizes the various forms of oppression faced by black women This book will be useful to students and instructors of African American Studies Gender Studies Sociology Anthropology Marriage and Family and Social Work     **Power For: Feminism and Christ's Self-Giving** Anna Mercedes,2011-09-22 Contesting the feminist critique of the dangers of Christianity s self giving ethics this book advances a contemporary feminist christology engaging the strength of self giving power
