Treating The New Anxiety A Cognitive Theological Approach:

Treating the New Anxiety Kirk A. Bingaman, 2007 A new form of anxiety has emerged stemming in part from our post 9 11 reality but even more stemming from the influence of supermodernity Whereas postmodernism theorizes an anxiety that results from the collapse or loss of meaning through the lens of supermodernity it appears that the new anxiety is evoked more by an excess of meaning generated by the rapid acceleration of human life and the media s daily bombardment with serious global national and local concerns This book explores the nature of the anxiety our supermodern condition provokes and proposes that with the void left by the diminishment of religious involvement and practice the therapy session becomes the definitive place for meaning making Building on a cognitive therapy approach that emphasizes the client s belief system Bingaman demonstrates that to treat this new anxiety most effectively practitioners must help clients identify and explore their core theological beliefs and spiritual values *Pastoral Power Beyond Psychology's Marginalization* Philip Browning Helsel, 2016-04-29 This book explores the suffering of social class and how traditional biomedical models for mental illness do not adequately account for the stresses of poverty Turning to mental health user testimonies this book equips ministers and counsellors to become working class advocates **Icons of Unbelief** S. T. Joshi, 2008-10-30 Discusses the ideas and impact of 27 atheists agnostics and secularists whose ideas have shaped society over the last 200 years In the opinion of many critics and philosophers we are entering an age of atheism marked by the waning of Christian fundamentalism and the flourishing of secular thought Through alphabetically arranged entries written by expert contributors this book profiles 27 iconic figures of unbelief whose ideas have shaped American society over the last 200 years Included are entries on influential figures of the past such as Albert Einstein and Voltaire as well as on such contemporary figures as Richard Dawkins and Sam Harris Each entry discusses the ideas and lasting significance of each person or group provides sidebars of interesting information and illuminating quotations and cites works for further reading The volume closes with a selected general bibliography Students in social studies and history classes will welcome this reference as a guide to the ideas central to the American separation of Church and State and to many of the political debates at the heart of society today Each entry discusses the ideas and lasting significance of the person or group provides sidebars of interesting information and quotations and closes with a list of works for further reading The volume ends with a selected general bibliography Students in history and social studies classes will welcome this reference as a guide to the American separation of Church and State and to the ideas central to contemporary political debates *Redeeming Fear* Jason C. Whitehead, 2013-06-01 Our brains are hard wired to experience the emotion of fear Yet do not be afraid is a common refrain from the Bible used for both comfort and chastening We have often treated fear as something to be dismissed or suppressed Being afraid means more than simply fighting or running from a threat to be afraid is to remember that something in life is worth living for Whitehead helps us find the roots of hope in the soil of our fears so that we can form lives and communities of hope in the midst of a culture of fear **Shadow Self** Mark
