Trill On Eden Scan:

Sleeping in Eden Nicole Baart, 2013-05-21 The lives of a middle aged doctor and a love struck young woman intersect across time in *Sleeping in Eden* Nicole Baart's haunting novel about love jealousy and the boundaries between loyalty and truth On a chilly morning in the Northwest Iowa town of Blackhawk Dr Lucas Hudson is filling in for the vacationing coroner on a seemingly open and shut suicide case His own life is crumbling around him but when he unearths the body of a woman buried in the barn floor beneath the hanging corpse he realizes this terrible discovery could change everything Lucas is almost certain the remains belong to Angela Sparks the missing daughter of the man whose lifeless body dangles from a rope above When Angela went missing years earlier he and his wife never really believed she was just another teenage runaway Fueled by passion Lucas resolves to uncover the details of Angela's suspected death to bring some closure to their small community and to his wife But his obsession may not be able to fix what is broken and Lucas may be chasing shadows Years before Lucas ever set foot in Blackhawk Meg Painter met Dylan Reid It was the summer before high school and the two quickly became inseparable Although Meg's older neighbor Jess was the safe choice she couldn't let go of Dylan no matter how hard she tried Caught in a web of jealousy and deceit that spiraled out of control Meg's choices in the past ultimately collide with Lucas's discovery in the present weaving together a taut story of unspoken secrets and the raw complex passions of innocence lost

A Fairweather Eden Mark Roberts, Michael Pitts, 2013-03-31 The discovery of the remains of Boxgrove Man a Missing Link hominid half a million years old in chalk pits in Sussex made world headlines in May 1994 This was the most sensational archeological find in the UK since Piltdown Man only this time it was not a hoax Continuing excavation by site archeologist Mark Roberts has enabled him and his team to build up a picture of this the first Englishman and to open up a unique window on life in Britain before the Ice Age Because these human remains the artefacts surrounding them and the remains of the local flora and fauna including elephants and rhinoceroses of an extinct species are preserved in an unprecedented way we now discover how our ancestors hunted ate manufactured the implements they needed to survive and interacted these were neither the opportunist scavengers nor the mindless killers that they have previously been supposed to be Boxgrove therefore represents a revolutionary view of the origins of mankind and changes our understanding of what it means to be human

Fairweather Eden Michael W. Pitts, Mark Roberts, 1998 *Fairweather Eden* is the story through the eyes of those involved of over ten years of archeological excavations at Boxgrove in England the world's best preserved early human site Beyond the discovery of the human remains themselves the site revealed a unique treasure of tools and fossils left behind by our earliest ancestors in an archeological context which provided many astonishing clues Boxgrove Man it emerges lived in a Fairweather Eden in a warm period during the Ice Age together with lions rhinos elephants and wolves The story the fossils and artifacts eventually told opened a unique window on life as it was lived by early humans in Europe half a million years ago
