irony of our technologically advanced connected digital age that many people report not feeling sufficiently connected in the traditional sense with other people Why would you even want to leave the house Tinder finds you a perfect romantic match Skype connects you with your friends around the globe And Instagram shares your friends vacation experiences Connection or bonding based on a meaningful shared affinity or experience is key for developing vital relationships with others and ourselves The value of solid relationships can't be overestimated Strong relationships mean meaning community and influence They meet our deepest needs and support us through thick and thin According to researchers from the University of California we are suffering from an epidemic of loneliness Their studies found that 3 out of 4 Americans feel lonely Could you use more real life relationships Could you stand to strengthen the ones you already have What gets in the way of this desire Full disclosure relationships aren't easy at first And they can be frustrating when you first start trying to cultivate them The good news These skills can be learned And once you do it's like magic People start responding to you differently You feel the love and hear yes a lot more than before It's a great feeling and it doesn't take much to get there Just a little awareness and shift in how you do things The typical response to a challenge is to look to the latest trends Maybe we should be looking to the past instead Looking into an ancient system that goes back thousands of years could be the answer to your loneliness The Enneagram System defines 9 personality types and every human being fits predominantly into one of these By identifying where you and others fit you can establish their default ways of being situational responses and what they value most If you can establish their type you can quickly uncover new insights about them and engage more effectively And voila You have another rewarding relationship The Path to Connection clearly walks you through it and roots you in the fundamental concepts and types In Path to Connection you'll discover Inventory of strengths and weaknesses for every personality type to identify your untapped potential and greatest risks Practical steps you can apply immediately to build better relationships from the moment you meet someone Relationship styles for the different types and how to effectively interact with them Critical do's and don'ts for each type to find the opportunities and avoid the pitfalls How relationship dynamics change by the types involved in a particular interaction and how to effectively position yourself Methods for identifying a person's Enneagram Type including your own to spend your time with the right people And much more Some people are resistant to learning about the Enneagram Personality Types because it seems complicated initially or they don't see how it works The key is to get the fundamental concepts down first and then everything else becomes straight forward from there It actually doesn't take much information before you can start applying it If you want to understand people better to cultivate stronger relationships with them scroll up and click the Add to Cart button right now *Books Out Loud*, 2007

hidden we carry in ourselves the features of each of the personality types represented on the enneagram That is why some of us recognize ourselves to one degree or another in several portraits at once It should be borne in mind that the enneagram is not a way of classifying people or labeling so many psychologists do not use the names of personality types and prefer to limit themselves to numbers type 1 type 2 etc Also not all psychologists recognize the enneagram by the scientific method but in our opinion it is interesting to get to know it To build your enneagram answer the test question Choose the answer that best fits you Do not hurry Avoid any ratings both positive and negative You may seem close to several options at once This is natural since each of us has different qualities It is important to find out which of them prevails in you If you are undecided you can choose three options For convenience write these options on paper ranging in order from the most significant to the less important Go back to the test question and mark your first option in the first test result corresponding to the most significant fear for you your main personality type will be indicated Then mark your second and third options these results are your minor types Knowing the number of your enneatype you will be able to better relate with others and be a better you After working on yourself then you will be able to work on others around you and integrate into their lives to for a better society as a whole Sounds good All of these are pretty true and this book shows you that and more SCROLL UP AND CLICK THE BUY NOW BUTTON Buy the Paperback Version of this Book and get the Kindle Book Version for FREE

The Enneagram Road Cooper Mind, 2019-12-09 Description Each one of us is driven by somethings specific that defines our lives your subconsciousness This plays an important role in determining how you live your life Think of it as an invisible compass that gives you direction and can even make important decisions for you Often make decisions and assume our choices are of our own making yet actually this is not true Some of the decisions we make in life are as a result of the conditioning of our subconscious Our brains make choices for us based on our core beliefs our experiences and the kind of environment we grow up in This explains the concept of good and bad and how we relate to situations wherever they manifest You must have an idea about things that make you happy You know some of the things you try to avoid because they make you sad Even with this knowledge you will still occasionally find yourself in unfamiliar territory unable to determine why you are disturbed by some situation The enneagram helps you to answer the important questions you may have previously struggled to find answer to From the personality type you can identify the features that best align with your life based on your frequent decision making patterns What is missing in your life What is the one thing that pushes you to work hard or hide in a corner get away from the rest of the world There are a lot of personal questions we ask ourselves which make a big difference in our lives but our inability to answer them or understand them is what holds us back The answers to these questions are the answers that help us define our personalities Many people

believe that they develop personalities when they grow older or when they are more mature and have started interacting with different environments. However, this is not true. Our personalities start forming from our early childhood and are a function of a lot of things that go on in the world around us from our interaction with the people we love and the activities we are exposed to to the lessons we learn in a school and the communities we live in. When you grow older, it is your realization of your own imperfection that bothers you because you become wise enough to realize the differences between yourself and other people. You notice that people do things differently to you become more aware of the different methods you use to do the same things. Your personality is generally a reflection of your nature manifesting itself through a collection of all the experiences you have gone through in life. This book gives a comprehensive guide on following: What is the Enneagram, Personality types, Subtypes in the Enneagram, Identifying your Enneagram type, Using the Enneagram, The theory of Enneagram, Specific practices for each enneagram personality type, Incorporating the enneagram in your life, Enneagram for parents, Benefits of knowing ourselves, Know your instincts to be appreciated by others AND MORE.
