Treating Aids Politics Of Difference Paradox Of Prevention:

Treating AIDS Thurka Sangaramoorthy, 2014-03-26 There is an inherently powerful and complex paradox underlying HIV AIDS prevention between the focus on collective advocacy mobilized to combat global HIV AIDS and the staggeringly disproportionate rates of HIV AIDS in many places In *Treating AIDS* Thurka Sangaramoorthy examines the everyday practices of HIV AIDS prevention in the United States from the perspective of AIDS experts and Haitian immigrants in South Florida Although there is worldwide emphasis on the universality of HIV AIDS as a social political economic and biomedical problem developments in HIV AIDS prevention are rooted in and focused exclusively on disparities in HIV AIDS morbidity and mortality framed through the rubric of race ethnicity and nationality Everyone is at equal risk for contracting HIV AIDS Sangaramoorthy notes but the ways in which people experience and manage that risk and the disease itself is highly dependent on race ethnic identity sexuality gender immigration status and other notions of difference Sangaramoorthy documents in detail the work of AIDS prevention programs and their effect on the health and well being of Haitians a transnational community long plagued by the stigma of being stereotyped in public discourse as disease carriers By tracing the ways in which public knowledge of AIDS prevention science circulates from sites of surveillance and regulation to various clinics and hospitals to the social worlds embraced by this immigrant community she ultimately demonstrates the ways in which AIDS prevention programs help to reinforce categories of individual and collective difference and how they continue to sustain the persistent and pernicious idea of race and ethnicity as risk factors for the disease

Prescribing HIV

Prevention Nicola Bulled, 2016-06-16 Critical health communication scholars point out that the acceptance of HIV risk prevention methods are bound inside inequitable structures of power and knowledge Nicola Bulled's in depth ethnographic account of how these messages are selected transmitted and reacted to by young adults in the AIDS torn population of Lesotho in southern Africa provides a crucial example of the importance of a culture centered approach to health communication She shows the clash between traditional western perceptions of how increased knowledge will increase compliance with western ideas of prevention and mixed messages offered by local religious educational and media institutions Bulled also demonstrates how structural and geographical forces prevent the delivery and acceptance of health messages and how local communities shape their own knowledge of health disease and illness This volume will be of interest to medical anthropologists and sociologists to those in health communication and to researchers working on issues related to HIV

Routledge Handbook on the Politics of Global Health Richard Parker, Jonathan García, 2018-12-07 In the early twenty first century key public health issues and challenges have taken centre stage on the global scene and health has been placed at the heart of our collective aspirations for human development and well being But significant debate exists not only about the causes but also about the possible solutions for nearly all of the most important global health challenges Competing visions of the values and perspectives that should underlie global health policies have emerged ranging from an

emphasis on cost effectiveness and resource constraints on one extreme to new calls for health and human rights and renewed calls for health and social justice on the other The role of different intergovernmental agencies bilateral or unilateral donors public or private institutions and initiatives has increasingly been called into question whilst the spread of neoliberal policies and programmes and existing international trade regimes and intellectual property rights are deeply implicated in relation to global health responses This volume critically evaluates how the global health industry has evolved and how the interests of diverse political and economic stakeholders are shaping the context of a rapidly changing institutional landscape Bringing together leading authors from across the world the Handbook's eight sections explore Critical perspectives on global health Globalisation neoliberalism and health systems The changing shape of global health governance Development assistance and the politics of global health Scale up scale down and the sustainability of global health programmes Intellectual property rights trade relations and global health Humanitarian emergencies and global health politics Human rights social justice and global health The Routledge Handbook on the Politics of Global Health addresses both the emerging issues and conceptualisations of the political strategies policy making processes and global governance of global health along with expanding upon and highlighting the critical priorities in this rapidly evolving field It provides an authoritative overview for students practitioners researchers and policymakers working in or concerned with the politics of public health around the globe

Public Secrets and Private Sufferings in the South African AIDS Epidemic Jonathan Stadler, 2021-04-26 This book tells the story of the HIV epidemic in South Africa and asks why after more than three decades it has not normalised Despite considerable efforts to prevent infection and ambitious targets set to end the epidemic by 2030 HIV infections are increasing among young women and treatment uptake and adherence have been uneven Focusing on the years preceding and following treatment access this book addresses why an end to AIDS may be misplaced optimism By examining public discourses and private narratives about infection illness and death this work reveals the contradictions between the lived experiences of AIDS suffering on the one hand and biomedical certainties on the other Based on long term ethnographic research in rural villages of the South African lowveld and within HIV prevention interventions in South Africa more generally this book offers an intimate perspective on the social and cultural responses to the epidemic

Queer Emergent Justin Perez, 2025-04-11 In *Queer Emergent* Justin Perez explores how advances in HIV prevention work alongside broader economic and political shifts in global health to shape queer subjectivities Drawing on ethnographic research among gay and transgender communities in urban Amazonian Peru Perez describes how queer social worlds emerge through scandalous storytelling a practice of exaggerating and embellishing stories about everyday life that transgresses social norms and hierarchies Perez shows that through such storytelling gay and transgender communities contested the assumptions of global HIV prevention's shift from the provision of costly antiretrovirals to the mitigation of social conditions like discrimination and stigma He argues that the global ambition to End AIDS by 2030 is not just a technical project oriented at

ending the epidemic but also a project of sexual subjectification and ongoing social transformation By taking seriously the scandalous stories that gay and transgender Peruvians circulated as they responded to new forms of HIV prevention Perez reveals how they imagine possibilities of what could be as the effort to end AIDS continues to play out in the present

Living with HIV in Post-Crisis Times David A.B. Murray, 2021-08-18 Over the past decade effective prevention and treatment policies have resulted in global health organizations claiming that the end of the HIV AIDS crisis is near and that HIV AIDS is now a chronic but manageable disease These proclamations have been accompanied by stagnant or decreasing public interest in and financial support for people living with HIV and the organizations that support them minimizing significant global disparities in the management and control of the HIV pandemic The contributors to this edited collection explore how diverse communities of people living with HIV PLHIV and organizations that support them are navigating physical social political and economic challenges during these so called post crisis times **Epidemics and Society** Frank M. Same-Sex Marriage Scott A. Merriman, 2022-01-11 A valuable survey of a cutting edge issue this book outlines the history of same sex marriage explaining how politics and religion have intersected to decide and control who can legally marry Marriage equality became law in the United States in 2015 with the Supreme Court ruling in Obergefell v Hodges Marriage is strictly speaking a secular ceremony requiring only civil sanction However many couples also seek the blessing of a religious body upon their union and not all religious bodies support marriage equality Some oppose it outright and some support it outright while others are divided This work examines the issue of same sex marriage in the U S and internationally It surveys the attitudes of major religions towards same sex marriage and also looks at leading and sometimes polarizing

personalities like politician Pete Buttigieg and Kentucky clerk Kim Davis who exemplify both the religious and political sides of the issue The book's A-Z organization makes it easy for readers to locate important court cases individuals religious bodies and social movements at the center of the same sex marriage debate Fault Lines of Care Carina Heckert,2018-06-01 The HIV epidemic in Bolivia has received little attention on a global scale in light of the country's low HIV prevalence rate However by profiling the largest city in this landlocked Latin American country Carina Heckert shows how global health funded HIV care programs at times clash with local realities which can have catastrophic effects for people living with HIV who must rely on global health resources to survive These ethnographic insights as a result can be applied to AIDS programs across the globe In Fault Lines of Care Heckert provides a detailed examination of the effects of global health and governmental policy decisions on the everyday lives of people living with HIV in Santa Cruz She focuses on the gendered dynamics that play a role in the development and implementation of HIV care programs and shows how decisions made from above impact what happens on the ground Sweetness in the Blood James Doucet-Battle,2021-03-16 A bold new indictment of the racialization of science Decades of data cannot be ignored African American adults are far more likely to develop Type 2 diabetes than white adults But has science gone so far in racializing diabetes as to undermine the search for solutions In a rousing indictment of the idea that notions of biological race should drive scientific inquiry Sweetness in the Blood provides an ethnographic picture of biotechnology's framings of Type 2 diabetes risk and race and importantly offers a critical examination of the assumptions behind the recruitment of African American and African descent populations for Type 2 diabetes research James Doucet Battle begins with a historical overview of how diabetes has been researched and framed racially over the past century chronicling one company's efforts to recruit African Americans to test their new diabetes risk score algorithm with the aim of increasing the clinical and market value of the firm's technology He considers African American reticence about participation in biomedical research and examines race and health disparities in light of advances in genomic sequencing technology Doucet Battle concludes by emphasizing that genomic research into sub-Saharan ancestry in fact underlines the importance of analyzing gender before attempting to understand the notion of race No disease reveals this more than Type 2 diabetes Sweetness in the Blood challenges the notion that the best approach to understanding managing and curing Type 2 diabetes is through the lens of race It also transforms how we think about sugar filling a neglected gap between the sugar and molasses sweetened past of the enslaved African laborer and the high fructose corn syrup and corporate fed body of the contemporary consumer laborer *A New Companion to Linguistic Anthropology* Alessandro Duranti,Rachel George,Robin Conley Riner,2023-03-21 Provides an expansive view of the full field of linguistic anthropology featuring an all new team of contributing authors representing diverse new perspectives *A New Companion to Linguistic Anthropology* provides a timely and authoritative overview of the field of study that explores how language influences society and culture Bringing together more than 30 original essays by an interdisciplinary panel of renowned

Kalofonos, 2021-08-24 *All I Eat Is Medicine* charts the lives of individuals and the operation of institutions in the thick of the AIDS epidemic in Mozambique during the global scale up of treatment for HIV AIDS at the turn of the twenty first century Even as the AIDS treatment scale up saved lives it perpetuated the exploitation and exclusion that was implicated in the propagation of the epidemic in the first place This book calls attention to the global social commitments and responsibilities that a truly therapeutic global health requires **Landscapes of Care** Thurka Sangaramoorthy, 2023-04-25 This insightful

work on rural health in the United States examines the ways immigrants mainly from Latin America and the Caribbean navigate the health care system in the United States Since 1990 immigration to the United States has risen sharply and rural areas have seen the highest increases Thurka Sangaramoorthy reveals that the corporatization of health care delivery and immigration policies are deeply connected in rural America Drawing from fieldwork that centers on Maryland's sparsely populated Eastern Shore Sangaramoorthy shows how longstanding issues of precarity among rural health systems along with the exclusionary logics of immigration have mutually fashioned a landscape of care in which shared conditions of physical suffering and emotional anxiety among immigrants and rural residents generate powerful forms of regional vitality and social inclusion Sangaramoorthy connects the Eastern Shore and its immigrant populations to many other places around the world that are struggling with the challenges of global migration rural precarity and health governance Her extensive ethnographic

and policy research shows the personal stories behind health inequity data and helps to give readers a human entry point into the enormous challenges of immigration and rural health
