The British National Bibliography Arthur James Wells,2006 **The Explosive Child Updated and Revised Edition** Ross W. Greene,2021-08-17 A groundbreaking approach to understanding and parenting children who frequently exhibit severe fits of temper and other intractable behaviors from a distinguished clinician and pioneer in this field What s an explosive child A child who responds to routine problems with extreme frustration crying screaming swearing kicking hitting biting spitting destroying property and worse A child whose frequent severe outbursts leave his or her parents feeling

frustrated scared worried and desperate for help Most of these parents have tried everything reasoning explaining punishing sticker charts therapy medication but to no avail They can't figure out why their child acts the way he or she does they wonder why the strategies that work for other kids don't work for theirs and they don't know what to do instead Dr Ross Greene a distinguished clinician and pioneer in the treatment of kids with social emotional and behavioral challenges has worked with thousands of explosive children and he has good news these kids aren't attention seeking manipulative or unmotivated and their parents aren't passive permissive pushovers Rather explosive kids are lacking some crucial skills in the domains of flexibility adaptability frustration tolerance and problem solving and they require a different approach to parenting Throughout this compassionate insightful and practical book Dr Greene provides a new conceptual framework for understanding their difficulties based on research in the neurosciences He explains why traditional parenting and treatment often don't work with these children and he describes what to do instead Instead of relying on rewarding and punishing Dr Greene's Collaborative Problem Solving model promotes working with explosive children to solve the problems that precipitate explosive episodes and teaching these kids the skills they lack

The Explosive Child Ross W. Greene, PhD, 2009-10-13 The groundbreaking New Approach for Understanding and Parenting Easily Frustrated Chronically Inflexible Children The Explosive Child by Ross W Greene Ph D has been updated and revised to include the latest research Dr Greene is Associate Clinical Professor in the Department of Psychiatry Harvard Medical School and the originator of the Collaborative Problem Solving approach to the treatment and study of children with social emotional and behavioral challenges With The Explosive Child he offers an indispensable helping hand to parents who may feel overwhelmed by having to deal with children whose reactions to everyday stimuli may be far more extreme than normal

Good Housekeeping Magazine, 2005 Parenting the Explosive Child Ross W. Greene, 2004 Les enfants et les adolescents ayant des comportements excessifs et de refus de se conformer des consignes présentent un défi important pour les parents et une source de stress pour les autres membres de la famille Habituellement les enfants et les adolescents ayant ces difficultés sont souvent incompris et leur trouble de comportement sont souvent traités dans les disciplines traditionnelles touchant le développement de l'attention la motivation et la compréhension de la manipulation Cependant les recherches suggèrent maintenant que ces enfants et adolescents auraient plutôt des lacunes dans leurs aptitudes cognitives essentielles la gestion de leur frustration la résolution de problème et les compétences pour nuancer leur flexibilité et leur adaptabilité certaines situations En somme ces enfants et adolescents sont mieux compris dans des contextes de difficultés d'apprentissage et ils profitent de la mesure plus importante de l'apprentissage de ces habiletés

Lost at School Ross W. Greene, 2008-10-21 From a distinguished clinician pioneer in working with behaviorally challenging kids and author of the acclaimed The Explosive Child comes a groundbreaking approach for understanding and helping these kids and transforming school discipline Frequent visits to the principal's office Detentions Suspensions Expulsions These are the established tools of school

discipline for kids who don't abide by school rules have a hard time getting along with other kids don't seem to respect authority don't seem interested in learning and are disrupting the learning of their classmates But there's a big problem with these strategies They are ineffective for most of the students to whom they are applied It's time for a change in course Here Dr Ross W Greene presents an enlightened clear cut and practical alternative Relying on research from the neurosciences Dr Greene offers a new conceptual framework for understanding the difficulties of kids with behavioral challenges and explains why traditional discipline isn't effective at addressing these difficulties Emphasizing the revolutionarily simple and positive notion that kids do well if they can he persuasively argues that kids with behavioral challenges are not attention seeking manipulative limit testing coercive or unmotivated but that they lack the skills to behave adaptively And when adults recognize the true factors underlying difficult behavior and teach kids the skills in increments they can handle the results are astounding The kids overcome their obstacles the frustration of teachers parents and classmates diminishes and the well being and learning of all students are enhanced In *Lost at School* Dr Greene describes how his road tested evidence based approach called Collaborative Problem Solving can help challenging kids at school His lively compelling narrative includes tools to identify the triggers and lagging skills underlying challenging behavior explicit guidance on how to radically improve interactions with challenging kids along with many examples showing how it's done dialogues Q A's and the story which runs through the book of one child and his teachers parents and school practical guidance for successful planning and collaboration among teachers parents administrations and kids Backed by years of experience and research and written with a powerful sense of hope and achievable change *Lost at School* gives teachers and parents the realistic strategies and information to impact the classroom experience of every challenging kid *Treating Explosive Kids* ,2007-01-01
