Unraveled A Weavers Tale Of Life Gone Modern

Paolo Heywood

Unraveled A Weavers Tale Of Life Gone Modern:

Unraveled Elizabeth L. Krause, 2009-09-17 Deftly bridging literary conventions this compelling work exposes the cultural origins of a quiet revolution that occurred over the course of the twentieth century Elizabeth Krause combines novelistic and ethnographic techniques to illuminate population dynamics that have raised alarm across Europe and the United States and manifested for example in Italy's extremely low birthrate But what actually motivates people to have fewer children Krause turns to the evocative story of one woman Emilia Raugei who was born in a Tuscan hill town in 1920 and worked as a straw weaver in a rapidly globalizing economy to better understand this question Based on extensive fieldwork including in-depth conversations with Emilia herself Krause draws on her rich and unconventional memories to create an engaging portrait of life in a rural village during Mussolini's rise to power it is a tale of migration love and loss political turmoil and the struggle to make a living during hard times Giving voice to a largely silent history that is at once local and global *Unraveled A Weaver's Tale of Life Gone Modern* will challenge us to find innovative approaches to understanding the transformative shift to a modern way of life Publisher's website [New Anthropologies of Italy](#) Paolo Heywood, 2024-07-01 Anthropologists working in Italy are at the forefront of scholarship on several topics including migration far right populism organised crime and heritage This book heralds an exciting new frontier by bringing together some of the leading ethnographers of Italy and placing together their contributions into the broader realm of anthropological history culture and new perspectives in Europe

Educating Activists Rebecca Klenk, 2010-10-26 What do people make of their own development In *Educating Activists* Rebecca M Klenk illuminates a reality that is far more complex than either development planners or critics commonly assume This gracefully written accessible ethnography shows how rural women accept refuse reinterpret and negotiate development's terms in a quest to improve their own communities Klenk offers an account of Lakshmi Ashram a remarkable Gandhian educational initiative for women and girls in Himalayan India Drawing on extensive fieldwork *Educating Activists* blends memories and stories with historical research and richly detailed ethnographic analysis to craft a compelling portrait of how women across two generations have engaged with issues of sustainability poverty gender equity autonomy and progress

Encountering Entrepreneurs Elena Sischarenco, 2019-04-09 This book shows the daily life of businessmen in a particularly productive area of Northern Italy Lombardy It provides insights into their business entrepreneurialism and of them as individuals allowing the reader to immerse themselves in these businessmen's world full of plans ideas hopes and failures in the struggle to survive during a time of economic recession The analysis reveals the importance of trust and networks as a way of opposing the vulnerability and risk involved in entrepreneurialism As such the book has an appeal that extends beyond anthropology It will be of interest not only to students of sociology Italian studies and business studies but also to anyone with an interest in seeing business through different lenses Through its close ethnographic accounts of businessmen it provides a different approach to capitalism and a reflection on human nature [The Negotiation of Urgency](#)

Mirko Pasquini, 2025 *The Negotiation of Urgency* ethnographically explores the everyday life of an Italian ER where aging economic precarity draconian migration policies hospital overcrowding life and death intersect daily The analysis of the different shifting ways in which triage operates and attention circulates in the ER illuminates the practical effects of the changing nature of welfare state in Italy as elsewhere

Tight Knit Elizabeth L. Krause, 2018-08-17 The coveted Made in Italy label calls to mind visions of nimble fingered Italian tailors lovingly sewing elegant high end clothing The phrase evokes a sense of authenticity heritage and rustic charm Yet as Elizabeth L. Krause uncovers in *Tight Knit* Chinese migrants are the ones sewing Made in Italy labels into low cost items for a thriving fast fashion industry all the while adding new patterns to the social fabric of Italy's iconic industry Krause offers a revelatory look into how families involved in the fashion industry are coping with globalization based on longterm research in Prato the historic hub of textile production in the heart of metropolitan Tuscany She brings to the fore the tensions over value money beauty family care and belonging that are reaching a boiling point as the country struggles to deal with the same migration pressures that are triggering backlash all over Europe and North America *Tight Knit* tells a fascinating story about the heterogeneity of contemporary capitalism that will interest social scientists immigration experts and anyone curious about how globalization is changing the most basic of human conditions making a living and making a life

Reproduction and Biopolitics Silvia De Zordo, Milena Marchesi, 2016-02-05 The central theme of this volume is the notion of irrational reproduction the ways in which women's and couples reproductive choices and practices are deemed irrational or irresponsible because they result in the wrong number of children In a global context of declining fertility population policies have shifted to a neoliberal register which despite local differences includes both the deepening of economic and social inequalities and the intensification of rights discourses applied to the unborn Inspired by Foucault's theories on biopolitics and biopower and by a long tradition of feminist anthropological studies on reproduction the ethnographically based papers collected in this volume address the following crucial questions How does the notion of irrational reproduction emerge and play out in diverse socio political contexts and what forms of subjectivities and resistance does it generate How does the threat of too few or too many children itself constructed through expert knowledge of statistics and political concerns over the size of different ethnic populations or classes justify and support different biopolitical projects And how do the increasing privatization of healthcare and the dismantling of welfare states affect reproductive practices and decisions on the ground in the global North and South This book was originally published as a special issue of *Anthropology and Medicine*

International Handbook on Gender and Demographic Processes Nancy E. Riley, Jan Brunson, 2018-05-02 This handbook presents a comprehensive and up to date overview of gender in demography addressing the many different influences of gender that arise from or influence demographic processes It collects in one volume the key issues and perspectives in this area whereby demography is broadly defined The purpose in casting a wide net is to cover the range of work being done within demography but at the same time

to open up our perspectives to neighboring fields to encourage better conversations around these issues The chapters in this handbook carefully document definition and measurement issues and take up parts of the demographic picture and focus on how gender plays a role in outcomes In other cases gender often plays a cross cutting role in social processes rather than having a single or easily distinguishable role it often combines with other social institutions and even other statuses and inequalities to affect outcomes Thus a key factor in this volume is how gender interacts with race ethnicity class nationality and sexuality in any demographic setting While each section contains chapters that are broad overviews of the current state of knowledge and behavior the handbook also includes chapters that focus on specific cultures or events in order to examine how gender operates in a particular circumstance

After Difference Paolo Heywood, 2018-02-19 Queer activism and anthropology are both fundamentally concerned with the concept of difference Yet they are so in fundamentally different ways The Italian queer activists in this book value difference as something that must be produced in opposition to the identity politics they find around them Conversely anthropologists find difference in the world around them and seek to produce an identity between anthropological theory and the ethnographic material it elucidates This book describes problems faced by an activist politics of difference and issues concerning the identity of anthropological reflection itself connecting two conceptions of difference whilst simultaneously holding them apart

Creative Urbanity Emanuela Guano, 2017 Based on more than a decade of ethnographic research in Genoa Italy Creative Urbanity argues for an understanding of contemporary urban life that refuses scholarly condemnation of urban lifestyles and consumption and casts a fresh light on an oft neglected social group the middle class
