Macgregor, 2014-02-10 Providing a thorough and comprehensive survey of the contemporary urban world that is accessible to students *Urban People and Places The Sociology of Cities Suburbs and Towns* will give balanced treatment to both the process by which cities are built i e urbanization and the ways of life practiced by people that live and work in more urban places i e urbanism unlike most core texts in this area Whereas most texts focus on the socio economic causes of urbanization this text analyses the cultural component how the physical construction of places is in part a product of cultural beliefs ideas and practices and also how the culture of those who live work and play in various places is shaped structured and controlled by the built environment Inasmuch as the primary focus will be on the United States global discussion is composed with an eye toward showing how U S cities suburbs and towns are different and alike from their counterparts in Africa Asia and Central and South America **Building the Inclusive City** Nilson Ariel Espino, 2015-03-24 Urban segregation is one of the main challenges facing urban development around the globe The usual outcome of many urban development patterns is an unequal social geography with the urban poor living in large clusters that are remote isolated dangerous or unhealthy The result is inequality in a number of dimensions of urban life from deficient urban access services or infrastructure to social isolation neighbourhood violence and lack of economic opportunity This book brings together debates on ethnic and economic segregation combining theory and practical solutions to create a guide for those trying to understand and address urban segregation in any part of the world and integrate ameliorating policies to contemporary urban development agendas *Istanbul* Nora Fisher-Onar, Susan C. Pearce, E. Fuat Keyman, 2018-02-28 Istanbul explores how to live with difference through the prism of an age old cutting edge city whose people have long confronted the challenge of sharing space with the Other Located at the intersection of trade networks connecting Europe Asia and Africa Istanbul is western and eastern northern and southern religious and secular Heir of ancient empires Istanbul is the premier city of a proud nation state even as it has become a global city of multinational corporations NGOs and capital flows Rather than exploring Istanbul as one place at one time the contributors to this volume focus on the city s experience of migration and globalization over the last two centuries Asking what Istanbul teaches us about living with people whose hopes jostle with one s own contributors explore the rise collapse and fragile rebirth of cosmopolitan conviviality in a once and future world city The result is a cogent interdisciplinary exchange about an urban space that is microcosmic of dilemmas of diversity across time and space **Cities** Ian Douglas, 2013-05-30 Cities are amongst our greatest creations Yet at the start of the twenty first century there is increasing concern over their unchecked

expansion and the detrimental effect this is having on the planet as induced climate change and ever increasing demands upon the world's resources take effect How can we make the world's cities more sustainable Ian Douglas tells the story of cities why they exist how they have evolved the problems they have encountered and those they will face as our century progresses Global in geographical coverage and ranging from the cities of the classical world to the megacities of today it is the first comprehensive environmental history of cities

Population Displacements and Multiple Mobilities in the Late Ottoman Empire, 2023-05-25

The long lasting Ottoman Empire was a theatre of armed conflict and human displacement Whereas military victories in the early modern period enabled its territorial expansion and internal consolidation the later centuries were shaped by military defeat and domestic turmoil setting hundreds of thousands sometimes even millions of people in motion Spanning from Europe to Asia the book reassesses these movements Rather than adopting a teleological approach to the study of the Ottoman defeat it connects late Ottoman history to wider dynamics extending or challenging existing concepts and narratives

The Archaeology of Israelite Society in Iron Age II

Avraham Faust, 2012-06-01 Referring to several important introductory books written about the archaeology of the land of Israel William Dever once stated However adequate these may be as introductions to the basic data none makes any attempt to organize the data in terms of social structure This is a serious deficiency in Syro Palestinian and biblical archaeology when one considers that the general field of archaeology has been moving toward social archaeology for 20 years or more Dever Social Structure in Palestine in the Iron Age II Period on the Eve of Destruction in The Archaeology of Society in the Holy Land ed T E Levy London 1995 p 416 Lack of discussion of social questions has characterized the archaeology of the land of Israel for some time even though around the world these questions constitute an important component of archaeological research see for instance the work of Renfrew Flannery Gibbon Blanton Dark Bahn Hodder Trigger and many others The Archaeology of Israelite Society in Iron Age II fills this gap and analyzes the structure of society in the ancient kingdoms of Israel and Judah from an archaeological viewpoint It also applies models and theories from the field of social and cognitive archaeology using the tools of various social science disciplines anthropology sociology economics geography and so on Due to his ability to use what is probably the largest archaeological data set in the world hundreds of planned excavations thousands of salvage excavations and extensive surveys all from the small region that was ancient Israel Avi Faust contributes not only to the study of ancient Israelite society but to the most fundamental questions about ancient societies These questions include the identification of socioeconomic stratification in the archaeological record the study of family and community organization the significance of pottery small finds and architecture as indicators of wealth and more This groundbreaking monograph is one of the first attempts at a large scale study of Israelite society based primarily on the archaeological evidence The following acknowledgments were inadvertently omitted from the front matter of the volume Amihai Mazar figure 31 Amnon Ben Tor figures 40 41 Israel Antiquities Authority figures 21 24 25 26 29 30 32 33 36 and
