Vodun African Voodoo:

Vodún Timothy R. Landry, 2018-10-02 Tourists to Ouidah a city on the coast of the Republic of Benin in West Africa typically visit a few well known sites of significance to the Vodun religion the Python Temple where Dangbè the python spirit is worshipped and King Kpassè's sacred forest which is the seat of the Vodun deity known as Lokpo. However other less familiar places such as the palace of the so called supreme chief of Vodun in Benin are also rising in popularity as tourists become increasingly adventurous and as more Vodun priests and temples make themselves available to foreigners in the hopes of earning extra money. Timothy R. Landry examines the connections between local Vodun priests and spiritual seekers who travel to Benin some for the snapshot others for full fledged initiation into the religion. He argues that the ways in which the Vodun priests and tourists negotiate the transfer of confidential sacred knowledge create its value. The more secrecy that surrounds Vodun ritual practice and material culture the more authentic, coveted and consequently expensive that knowledge becomes. Landry writes as an anthropologist and initiate having participated in hundreds of Vodun ceremonies, rituals and festivals. Examining the role of money, the incarnation of deities, the limits of adaptation for the transnational community and the belief in spirits, sorcery and witchcraft, Vodun ponders the ethical implications of producing and consuming culture by local and international agents. Highlighting the ways in which racialization, power and the legacy of colonialism affect the procurement and transmission of secret knowledge in West Africa and beyond, Landry demonstrates how paradoxically secrecy is critically important to Vodun's global expansion.

African Vodun Suzanne Preston Blier, 1995 This book will be of critical importance not only to those concerned with African, African American and Caribbean art but also to anthropologists, scholars of the African diaspora, students of comparative religion and comparative psychology and anyone fascinated by the traditions of vodou and vodun. Jacket

Vodun Monique Joiner Siedlak, 2021-05-14 Understanding West African Vodun begins with knowledge. West African Vodun explores and explains this often misunderstood religion. It invites readers to open their eyes and their minds to what Vodun is, where and why it began and how it is practiced. You may think you know everything you need to know because you've seen Hollywood's interpretation of these spiritual practices, but this book proves those theories, misconceptions, artistic licenses and theories wrong. Inside you'll discover Vodun's early days and how it plays a pivotal role in how it is practiced now. How and why it's been mischaracterized. How to practice it properly. Who the deities are and why they're honored. Who the Priestesses are and why they are held to such esteem. And more. Finally learn how Vodun, Hindu, Shango, Jesus and the Buddha are far more alike than you may think and understand what role slavery and slaves play in this religion and why it should matter to you.

African Science Douglas J. Falen, 2018-11-27 In this sensitive and personal investigation into Benin's occult world, Douglas J. Falen wrestles with the challenges of encountering a reality in which magic, science and the Vodun religion converge into a single universal force. He takes seriously his Beninese interlocutors' insistence that the indigenous phenomenon known as *ze* (witchcraft) is an African science credited with fantastic

and productive deeds such as teleportation and supernatural healing Although the Beninese understanding of *ze* reflects positive scientific properties in its use of specialized knowledge to harness nature's energy and realize economic success its boundless power is inherently ambivalent because it can corrupt its users who dispense death and destruction Witches and healers are equivalent to supervillains and superheroes locked in epic battles over malevolent and benevolent human desires Beninese people's discourse about such mystical confrontations expresses a philosophy of moral duality and cosmic balance Falen demonstrates how a deep engagement with another lived reality opens our minds and contributes to understanding across cultural difference

Spirit Possession in French, Haitian, and Vodou Thought Alessandra Benedicty-Kokken, 2014-11-12 This book recuperates the important history that Haitian thought around Vodou possession has had in French critical theory The author takes the period of the 1930s and 40s as the centerfold of a more complex network of relations that places Haiti as one of the pivots of a more expanded intellectual conversation around possession which links anthropology literature psychoanalysis human rights and visual arts in France Haiti and the United States Benedicty argues that Haiti as the anthropological other serves as a kick starter to an entire French based theoretical apparatus Breton Leiris Bataille de Certeau Foucault and Butler but once up and running its role as catalyst is forgotten and the multiple iterations of the anthropological other are cast back into the net of Michel Rolph Trouillot's Savage slot The book offers the reader unfamiliar with Haiti a comprehensive interdisciplinary study of twentieth and early twenty first century Haitian thought including a detailed timeline of important moments in the intellectual history that connects Haiti to France and the United States The first part of the book is about global dispossessions in the first decades of the twentieth century the second part points to how the narratives of Haiti are intimately linked to a Franco U S American discursive space constructed over the course of the twentieth century a discursive order that has conflated the representation of Haiti with an understanding of Vodou primarily as an occult religion and not as a philosophical system The third and fourth parts of the book examine how the novels of Ren Depestre Jean Claude Fignol and Kettly Mars have revisited the notion of possession since the fall of the Duvalier dictatorships
