The Oxford Handbook of the African American Slave Narrative John Ernest, 2014-02-28 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies *The Oxford Handbook of the African American Slave Narrative* will offer a fresh wide ranging assessment of this major American literary genre The volume will begin with articles that consider the fundamental concerns of gender sexuality community and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives The chapters that follow will interrogate the various agendas behind the production of both pre and post Emancipation narratives and take up the various interpretive problems they pose Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing too painful truths far beyond what white audiences were prepared to hear While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs the Handbook will pay more attention to the under studied narratives of Josiah Henson Sojourner Truth William Grimes Henry Box Brown and other often overlooked accounts In addition to the literary autobiographies of bondage the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s With essays on the genre's imaginative afterlife its final essays will chart the emergence and development of neoslave narratives most notably in Styron's *The Confessions of Nat Turner* Toni Morrison's *Beloved* and Octavia Butler's provocative science fiction novel *Kindred* In short the Handbook will provide a long overdue assessment of the state of the genre and the vital scholarship that continues to grow around it work that is offering

book is an interdisciplinary exploration of Black women's contributions to the intellectual life of nineteenth century America. *Black Female Intellectuals in Nineteenth Century America* reconceptualizes the idea of what the term intellectual means through its discussions of both familiar and often forgotten Black women including Edmonia Lewis, Harriet Powers, Sojourner Truth, and Harriet Tubman amongst others. This re-envisioning brings those who have previously been excluded from the scholarship of Black intellectualism more generally and Black female intellectuals specifically into the center of the debate. Importantly, it also situates the histories of Black women participating in the intellectual cultures of the United States much earlier than most previous scholarship. This book will be of interest to both undergraduate and postgraduate specialists and students in the fields of African American history, women's and gender history, and American studies, as well as general readers interested in historical and biographical works.
