Art And Engagement Arnold Berleant, 1993-03-29 In this book Arnold Berleant develops a bold alternative to the eighteenth century aesthetic of disinterestedness Centering on the notion of participatory engagement in the appreciation of art he explores its appearance in art and in aesthetic perception especially during the past century Aesthetic engagement becomes a key both on historical and theoretical grounds to making intelligible our experiences with both contemporary and classical arts In place of the traditional aesthetic that enjoins the appreciator to adopt a contemplative attitude distancing the art object in order to ensure its removal from practical uses Art and Engagement examines the ways in which art entices us into intimate participation in its workings Beginning with the historical and theoretical underpinnings of the idea of engagement Berleant focuses on how engagement works as a force in different arts Successive chapters pursue its influence in landscape painting architecture and environmental design literature music dance and film Art and Engagement argues forcefully for the originality and power of aesthetic perception Demolishing the conceptual barriers erected by the Western world's limiting tradition the book discloses the condition of engagement that has always been present when our aesthetic encounters have been most effective and suggests a new direction for aesthetic inquiry

Understanding Concepts of Place in Recreation Research and Management; Proceedings (2004) Linda E. Kruger, 2010-10 In 2004 a group of scientists met to clarify their understanding of place related concepts approaches to the study of people place relations and the application of that understanding in recreation mgmt for the purpose of integrating perspectives from different disciplines discussing approaches to understanding and measuring sense of place and other questions around the study and application of place related concepts Topics that generated the most discussion included how social processes influence place meanings how

place meanings are shared and negotiated within social groups and when and how place meanings and attachments reduce or avert conflict in natural resource planning and mgmt This collection of papers is a result of that meeting Topophrenia Robert T. Tally, 2018-11-09 What is our place in the world and how do we inhabit understand and represent this place to others Topophrenia gathers essays by Robert Tally that explore the relationship between space place and mapping on the one hand and literary criticism history and theory on the other The book provides an introduction to spatial literary studies exploring in detail the theory and practice of geocriticism literary cartography and the spatial humanities more generally The spatial anxiety of disorientation and the need to know one's location even if only subconsciously is a deeply felt and shared human experience Building on Yi Fu Tuan's topophilia or love of place Tally instead considers the notion of topophrenia as a simultaneous sense of place consciousness coupled with a feeling of disorder anxiety and dis ease He argues that no effective geography could be complete without also incorporating an awareness of the lonely loathsome or frightening spaces that condition our understanding of that space Tally considers the tension between the objective ordering of a space and the subjective ways in which narrative worlds are constructed Narrative maps present a way of understanding that seems realistic but is completely figurative So how can these maps be used to not only understand the real world but also to put up an alternative vision of what that world might otherwise be From Tolkien to Cervantes Borges to More Topophrenia provides a clear and compelling explanation of how geocriticism the spatial humanities and literary cartography help us to narrate represent and understand our place in a constantly changing world **Urban Heat Mitigation Strategies** Paola Favaro, Konstantina Vasilakopoulou, 2025-06-30 Urban Heat Mitigation Strategies An Architecture Perspective explores heat mitigation strategies integrated into the urban architecture of global cities aiming to enhance citizens quality of life through thoughtful design decisions blending architecture science and engineering The projects examined exemplify top tier approaches in architecture urban planning landscape design and engineering across diverse city precincts worldwide Inspired by architect and urban designer Lewis Mumford's 1970s call for urban spaces that support citizens these initiatives focus not just on aesthetics but also on effective social and climate change mitigation strategies Featuring international urban projects recognised for both architectural significance and improved thermal comfort this book examines the various heat mitigation strategies in major urban projects using architectural and engineering methodologies Combining architectural formal critical analysis with engineering performance modelling the authors offer qualitative and quantitative assessments of each urban project These projects showcase best practices utilising elements such as water materials vegetation and canopy to mitigate heat and promote civic life Originally intended for aesthetics and social functionality these strategies now serve as benchmarks for creating thermally comfortable public spaces globally Relevant to architects city planners landscape designers and engineers Urban Heat Mitigation Strategies An Architecture Perspective promotes successful collaboration among built environment professionals to address climate concerns and create liveable comfortable

urban spaces **Mexico and the United States** William Dirk Raat, Michael M. Brescia, 2010-04-15 Drug wars NAFTA presidential politics and heightened attention to Mexican immigration are just some of the recent issues that are freshly interpreted in this updated survey of Mexican U S relations The fourth edition has been completely revised and offers a lively engaging and up to date analysis of historical patterns of change and continuity as well as contemporary issues Ranging from Mexican antiquity and the arrival of the Spanish and British to the present day administrations of Felipe Caldern and Barack Obama historians Dirk Raat and Michael Brescia evaluate the political economic and cultural trends and events that have shaped the ways that Mexicans and Americans have regarded each other over the centuries Raat and Brescia pay special attention to the factors that have subordinated Mexico not only to the colossus of the North but to many other players in the global economy They also provide a unique look at the cultural dynamics of Gran Chichimeca or Mexamerica the borderlands where the two countries share a common history The bibliographical essay has been revised to reflect current research and scholarship **Visions of Nature** Riyan J. G. van den Born, W. T. de Groot, Rob H. J. Lenders, 2006 Visions of nature are the ideas that people hold of what nature is and how we should relate to it These visions are important for the design of democratically grounded landscape and nature policies These contributions were presented at an expert meeting at Radboud University June 2001 Environment and Development Amitava Mukherjee, V.
