Tasie,2023-07-03 **European Traditions in the Study of Religion in Africa** Ulrich Berner,Christoph Boehinger,2004 This volume comprises case studies of five centuries of European encounters with and imaginations of Africa encompassing her triple religious heritage African Traditional Religions Christianity and Islam The introductory chapters outline the challenges and present overviews some of them also analyze the early accounts of European travelers and missionaries The following contributions examine the lasting legacy of the European Enlightenment in employing an ambivalent language of human equality and universalism while in actual fact consigning Africa to an inferior position It has been difficult for western scholars to divorce themselves wholly from the perceptions thus established However there have been quite different approaches This is indicated in the papers discussing the role and impact of influential European academics scholars of religion theologians historians and social scientists during the colonial and postcolonial period Other contributions examine specific institutional centers of African religious studies in Europe The concluding chapters critically assess European approaches and their use for the study of religion in Africa from an African perspective **Spaces of Insurgency** Elias Edise Courson,2025-05-15 The dominant scholarly and policy discourse on the insurgencies and conflicts in Nigeria s oil rich Niger Delta has been significantly shaped by the resource curse narrative This influential framework deeply integrated into wider debates concerning neoliberal globalization security and development as evidenced by the World Bank s 2011 World Development Report on security conflict and development positions the Niger Delta as a key case study The region s unique context a global oil and gas industry operating within a pluri ethnic federal system and a complex social field characterized by a range of contentious struggles from chieftainship disputes to electoral and territorial conflicts seemingly reinforces this narrative However this book argues for a necessary shift in focus towards a historical and spatial analysis of crisis from the 19th century to the present Such an approach it contends is crucial for understanding the deep seated and unresolved animosities that underpin contemporary tensions in the region By critically interrogating resource curse narratives in the Niger Delta conflicts insurgencies that have emerged since the 1990s this book demonstrates the layered and historically contingent nature of these conflicts Employing an interdisciplinary and comparative methodology it reflects on the specific ways in which political violence and the security development nexus in Africa a subject of considerable academic attention since the 1980s are situated within broader global patterns of knowledge production The central contribution of this book lies in its analysis of how spatial dynamics particularly the interplay between west and east and inter regional politics are fundamental to a more

Customary Strangers Joseph C. Berland,Aparna Rao,2004-03-30 Social scientists have generally remained impervious to a major economic and cultural adaptation namely the peripatetic lifestyle although this adaptation has been an integral part of developments within the socioeconomic and cultural networks that social scientists study This lack of interest derives perhaps from the ambiguous integration of peripatetics into these networks as well as the often negatively charged constructs Gypsies outsiders or marginal others imposed on peripatetics by dominant cultures As peddlers of the strange to

borrow a phrase from Clifford Geertz peripatetics are situated at the fringes of their host societies and many students of the social ecological and behavioral sciences still continue to overlook the roles of peripatetic peoples This collection presents the latest in cross cultural comparative research on the nature of peripatetic peoples Contributors examine the place of peripatetic peoples in the everyday lives and diverse cognitive maps of client communities Relying on Georg Simmel's construct of The Stranger the contributors to this volume suggest that peripatetic peoples are simultaneously outsiders and insiders but most important they are entrepreneurial middlemen traders par excellence All told the essays provoke vital reassessments of the anthropological focus on the role and status of cultural brokers and go-betweens in political economic and social interactions

Boy-Wives and Female Husbands Stephen O. Murray, Will Roscoe, 2021-04-01 Among the many myths created about Africa the claim that homosexuality and gender diversity are absent or incidental is one of the oldest and most enduring Historians anthropologists and many contemporary Africans alike have denied or overlooked African same sex patterns or claimed that such patterns were introduced by Europeans or Arabs In fact same sex love and nonbinary genders were and are widespread in Africa Boy Wives and Female Husbands documents the presence of this diversity in some fifty societies in every region of the continent south of the Sahara Essays by scholars from a variety of disciplines explore institutionalized marriages between women same sex relations between men and boys in colonial work settings mixed gender roles in east and west Africa and the emergence of LGBTQ activism in South Africa which became the first nation in the world to constitutionally ban discrimination based on sexual orientation Also included are oral histories folklore and translations of early ethnographic reports by German and French observers Boy Wives and Female Husbands was the first serious study of same sex sexuality and gender diversity in Africa and this edition includes a new foreword by Marc Epprecht that underscores the significance of the book for a new generation of African scholars as well as reflections
