Up Tunket Road The Education Of A Modern Homesteader:

Up Tunket Road Philip Ackerman-Leist, 2010-05-14 Ever since Thoreau's *Walden* the image of the American homesteader has been of someone getting away from civilization of forging an independent life in the country Yet if this were ever true what is the nature and reality of homesteading in the media saturated hyper connected 21st century For seven years Philip Ackerman Leist and his wife Erin lived without electricity or running water in an old cabin in the beautiful but remote hills of western New England Slowly forging their own farm and homestead they took inspiration from their experiences among the mountain farmers of the Tirolean Alps and were guided by their Vermont neighbors who taught them about what it truly means to live sustainably in the postmodern homestead not only to survive but to thrive in a fragmented landscape and a fractured economy *Up Tunket Road* is the inspiring true story of a young couple who embraced the joys of simple living while also acknowledging its frustrations and complexities Ackerman Leist writes with humor about the inevitable foibles of setting up life off the grid from hauling frozen laundry uphill to getting locked in the henhouse by their ox But he also weaves an instructive narrative that contemplates the future of simple living His is not a how to guide but something much richer and more important a tale of discovery that will resonate with readers who yearn for a better more meaningful life whether they live in the city country or somewhere in between

The Chelsea Green Reader Benjamin Watson, 2014 Chelsea Green the Vermont based independent publisher has always had a nose for authors and subjects that are way ahead of the cultural curve as is evident in this new anthology celebrating the company's first thirty years in publishing The more than one hundred books represented in this collection reflect the many distinct areas in which we have published from literature and memoirs to progressive politics to highly practical books on green building organic gardening and farming food and health and related subjects all of which reflect our underlying philosophy The politics and practice of sustainable living The Chelsea Green Reader offers a glimpse into our wide ranging list of books and authors and to the important ideas that they express Interesting and worth reading in their own right the individual passages when taken as a whole trace the evolution of a highly successful small publisher something that is almost an oxymoron in these days of corporate buyouts and multinational book groups From the beginning Chelsea Green's books were nationally recognized garnering positive reviews accolades and awards We've published four New York Times bestsellers and our books have set the standard for in depth how to books that remain relevant years often decades beyond their original publication date Chelsea Green was born from a single seed the beauty of craft Craft in writing and editing in a story well told or a thesis superbly expressed writes cofounder and publisher emeritus Ian Baldwin in the book's foreword Today craft continues to inform all aspects of our work design illustration production sales promotion and beyond It has even informed our business model In 2012 Chelsea Green became an employee owned company With the rise of the Internet new media platforms and a constantly shifting bookselling landscape the future of publishing is anything but predictable But if Chelsea Green's books

prove anything it is that despite these challenges there remains a hunger for new and important ideas and authors and for the permanence and craftsmanship of the printed word Today our ongoing mission is stronger than ever as we launch into our next thirty years of publishing excellence Rebuilding the Foodshed Philip Ackerman-Leist, 2013-01-24 In *Rebuilding the Foodshed* Philip Ackerman Leist provides a roadmap to re-localize our food systems How by rebuilding our foodsheds to keep more of our dollars in the local economy meet food needs affordably and sustainably and make our food systems more just and resilient This book showcases some of the most promising replicable models that are trying to tackle tough issues like distribution and transportation energy costs fair labor rampant food waste and institutional food needs By answering these questions and more *Rebuilding the Foodshed* leads us to the next phase of the local food revolution COVER *This Organic Life* Joan Dye Gussow, 2001 In this bestselling combination memoir polemic and gardening manual Gussow discusses the joys and challenges of growing organic produce in her own New York garden This work offers encouragement to urban and suburban gardeners who want to grow at least some of their own produce 30 recipes **It's Probably Nothing** Beach Conger, 2011 *It's Probably Nothing* continues the tale woven by Dr Beach Conger in his first book *Bag Balm and Duct Tape* This new collection sees Conger and his wife yearning for new challenges and relocating to the suburbs of Philadelphia after 25 years in mythical Dumster Vermont Conger gamely takes a job in a teaching hospital in the poorest part of the city and gets to experience urban bureaucratized medicine and its trials a far cry from the more idiosyncratic and hands on version he practiced in Vermont After 5 years Conger and his wife move back to Dumster where he rediscovers more about his patients capacity to both cope and cherish one another than he expected Each of the tightly constructed chapters is centered around a particular patient or particular theme in medicine *It's Probably Nothing* is both funny and poignant and showcases both Conger's irreverent view into medicine and his profound empathy for the characters he encounters along the way His experience highlights how medicine and problems with our current medical system can remain the same and yet be vastly different across class race and region Among the people the reader meets are urban drag queens small town farmers and other heroes Vermont celebrities and the occasional reclusive author **Bye Bye, Miss American Empire** Bill Kauffman, 2010-07-10 *It's* been almost a century and a half since a critical mass of Americans believed that secession was an American birthright But breakaway movements large and small are rising up across the nation From Vermont to Alaska activists driven by all manner of motives want to form new states and even new nations So just what's happening out there The American Empire is dying says Bill Kauffman in this incisive eye opening investigation into modern day secession the next radical idea poised to enter mainstream discourse And those rising up to topple that empire are a surprising mix of conservatives liberals regionalists and independents who from movement to movement may share few political beliefs but who have one thing in common a sense that our nation has grown too large and too powerfully centralized to stay true to its founding principles *Bye Bye Miss American Empire* traces the historical roots of the secessionist spirit and introduces us to

the often radical sometimes quixotic and highly charged movements that want to decentralize and re localize power During the George W Bush administration frustrated liberals talked secession back to within hailing distance of the margins of national debate a place it had not occupied since 1861 Now secessionist voices on the left and right and everywhere in between are amplifying Writes Kauffman The noise is the sweet hum of revolution of subjects learning how to be citizens of people shaking off their Wall Street and Pentagon overlords and taking charge of their lives once more Engaging illuminating even sometimes troubling Bye Bye Miss American Empire is a must read for those taking the pulse of the nation A Precautionary Tale Philip Ackerman-Leist, 2017-10-28 Mals Italy has long been known as the breadbasket of the Tyrol But recently the tiny town became known for something else entirely A Precautionary Tale tells us why introducing readers to an unlikely group of activists and a forward thinking mayor who came together to ban pesticides in Mals by a referendum vote making it the first place on Earth to accomplish such a feat and a model for other towns and regions to follow For hundreds of years the people of Mals had cherished their traditional foodways and kept their local agriculture organic Their town had become a mecca for tourists drawn by the alpine landscape the rural and historic character of the villages and the fine breads wines cheeses herbs vegetables and the other traditional foods they produced Yet Mals is located high up in the eastern Alps and the valley below was being steadily overtaken by big apple producers heavily dependent on pesticides As Big Apple crept further and further up the region s mountainsides their toxic spray drifted with the valley s ever present winds and began to fall on the farms and fields of Mals threatening their organic certifications as well as their health and that of their livestock The advancing threats gradually motivated a diverse cast of characters to take action each in their own unique way and then in concert in an iconic display of direct democracy in action As Ackerman Leist recounts their uprising we meet an organic dairy farmer who decides to speak up when his hay is poisoned by drift a pediatrician who engaged other medical professionals to protect the soil water and air that the health of her patients depends upon a hairdresser whose salon conversations mobilized the town s women in an extraordinarily conceived campaign and others who together orchestrated one of the rare revolutionary successes of our time and inspired a movement now snaking its way through Europe and the United States A foreword by Vandana Shiva calls upon others to follow in Mals s footsteps *Slowspoke* Mark Schimmoeller, 2014-07-30 Why a unicycle Why a cross country trip Why leave a prominent New York magazine and return to the simple life in Kentucky Reminiscent of classic literary travelogues Mark Schimmoeller s *Slowspoke A Unicyclist s Guide to America* takes readers on an inward emotional journey as he inches across landscapes and communities from North Carolina to Arizona Schimmoeller became inspired by his unicycle as an adolescent It taught him that rushing whether down the driveway or toward adulthood would cause a fall and so instead of accepting the speeding straight line that defines modern American life he adopted his single wheel s wayward rhythms Written with poise and humor *Slowspoke* is more than a cross country trip on a unicycle it s a meditation on a playful recalcitrant slowness that is increasingly rare in a culture

obsessed with acceleration At times ach ing and other times joyful Schimmoeller intersperses recollections of his journey with vignettes of his present day off the grid homesteading with his wife in Kentucky and their efforts to save an old growth forest Schimmoeller s personal journey will resonate with anyone who has slowed down to experience life at a unicycle s speed or who longs to do so who has fallen in love or searched for it or who has treasured tall trees or mourned their loss
