Daniel J. Pukstas,2009-03-13 What might a two month visit to Australia and New Zealand be like if the traveler were not distracted and overwhelmed by the spectacular scenery In this book Dan Pukstas a blind professor answers this question by providing a series of humorous and insightful perspectives about the places and people he encountered Whether he is trying to find his way out of a strange restroom or climbing to the summit of a dormant volcano after by pass surgery Dan is ready with a philosophical quip or amusing observation In the company of his wife Nancy Dan covers a broad geographical area from Auckland to Adelaide from Ayers Rock to Sydney and from Cairns to Brisbane along 2000 kilometers of Queensland highway His topics of interest are just as broad from his observations about

food wine prices parenting styles public transportation human behavior to the joys and challenges of travel for the visually impaired Those who like witty and pointed observations served up with a modest amount of inspiration will find this book a tasty treat Those who have healthy vision might also find that they will see things a bit more clearly after reading this book

Long Road to Hero Mike Haszto,2010-12 Joe is your average guy who has led an average life Or quite possibly there could be more much more But he would never tell anyone that He possesses the talents of being in the right place at the right time Or does he He s not afraid to speak his mind no matter the place and the time Joe is one of those magical guys who came from an era when the world was vastly less complex and complicated And while the rest of the world evolved in their way he evolved too but not in the same direction He was born his own person grew up his own person and lived his life on his terms The people who engage in his life are as special as he is Through the crossroads and intersections of their lives everyone comes to the realization that it is indeed a long road to hero Upside Down Dan Meyer,2016-03-28 We the People have had it pretty good since WWII Our prosperity has resulted in our collective apathy toward the corrupt progression of what once were servants of the People into life long career politicians in Washington D C who have become our elite political ruling class Power corrupts and absolute power corrupts absolutely Today in our United States we have an all powerful central government enabled by a subservient media propelling our nation toward the living hell described in George Orwell s 1984 where truth cannot be found where freedom does not exist Upside Down clearly defines the immediate action We the People can and must take to restore what used to be our government of by and for the people If we choose to continue to sit on the sidelines and not get involved we will transition from apathy to dependence and out of that dependence will come the bondage from which we rose 239 years ago **Upside-down Christmas Tree** Delilah Scott,Emma Troy,
