River Editors,2017-07-12 Includes pictures Includes ancient accounts of Lagash Includes online resources and a bibliography for further reading In southern Iraq a crushing silence hangs over the dunes For nearly 5 000 years the sands of the Iraqi desert have held the remains of the oldest known civilization the Sumerians When American archaeologists discovered a collection of cuneiform tablets in Iraq in the late 19th century they were confronted with a language and a people who were at the time only scarcely known to even the most knowledgeable scholars of ancient Mesopotamia The exploits and achievements of other Mesopotamian peoples such as the Assyrians and Babylonians were already known to a large segment of the population through the Old Testament and the nascent field of Near Eastern studies had unraveled the enigma of the Akkadian language that was widely used throughout the region in ancient times but the discovery of the Sumerian tablets brought to light the existence of the Sumerian culture which was the oldest of all the Mesopotamian cultures For a people so great it is unfortunate that their accomplishments and contributions not only to Mesopotamian civilization but to civilization in general largely go unnoticed by the majority of the public Perhaps the Sumerians were victims of their own success they gradually entered the historical record established a fine civilization and then slowly submerged into the cultural patchwork of their surroundings They also never suffered a great and sudden collapse like other peoples of the ancient Near East such as the Hittites Assyrians and Neo Babylonians did A close examination of Sumerian culture and chronology reveals that the Sumerians set the cultural tone in Mesopotamia for several centuries in the realms of politics governments arts literature and religion The Sumerians were truly a great people whose legacy continued long after they were gone The ruined Sumerian city of Lagash is located 15 miles east of present day Shatrah in the province of Basrah in southern Iraq Also known as Tell al Hiba this was one of the largest urban sites in the ancient lands of southern Mesopotamia at its height in the Early Dynastic period the city is believed to have occupied a total area of approximately 600 hectares Based on the presence of so many temples Lagash clearly served as the religious capital of the state It is from the huge corpus of documents that have been recovered from the city ruins that historians so much about the ancient gods and goddesses that were worshiped by the ancient Sumerians The temple architecture in the city is amongst the finest found in any of the ancient settlements in Mesopotamia Lagash experienced a Golden Age of prosperity and growth in the early 21st century BCE during the reign of Gudea a contemporary of Urnamma the founder of the Third Dynasty of Ur It is no wonder that Gudea was worshipped as a god Although Gudea was a fine ruler after his reign ended the city quickly succumbed to invasion and over time faded out of popular knowledge It is only because of excavations carried out there from the 1950s onwards that the questions regarding this site's identity have been answered Lagash The History and Legacy of the Ancient Sumerian City looks at the remarkable site and its impact on the region Along with pictures depicting important people places and events you will learn about Lagash like never before *A Manual of Sumerian Grammar and Texts (Third, revised and expanded edition)* John Hayes,2019-12-31 This is an introductory pedagogical grammar designed for readers with no previous knowledge of

Sumerian It can be used with or without a teacher A general description of Sumerian is followed by a series of 30 graduated lessons each including a sign list and vocabulary cuneiform texts transliteration transcription and translation Soldiers' Lives through History - The Ancient World Richard A. Gabriel,2006-11-30 Once warfare became established in ancient civilizations it s hard to find any other social institution that developed as quickly In less than a thousand years humans brought forth the sword sling dagger mace bronze and copper weapons and fortified towns The next thousand years saw the emergence of iron weapons the chariot the standing professional army military academies general staffs military training permanent arms industries written texts on tactics military procurement logistics systems conscription and military pay By 2 000 B C E war was an important institution in almost all major cultures of the world This book shows readers how soldiers were recruited outfitted how they fought and how they were cared for when injured or when they died It covers soldiers in major civilizations from about 4000 B C E to about 450 C E Topics are discussed cross culturally drawing examples from several of the cultures armies and time periods within each chapter in order to provide the reader with as comprehensive an understanding as possible and to avoid the usual Western centric perspective too common in analyses of ancient warfare

enduring and great as Babylon they were the people who provided the template of civilization that all later Mesopotamians built upon The Sumerians are credited with being the first people to invent writing libraries cities and schools in Mesopotamia Ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world No site better represents the importance of the Sumerians than the city of Uruk Between the fourth and the third millennium BCE Uruk was one of several city states in the land of Sumer located in the southern end of the Fertile Crescent between the two great rivers of the Tigris and the Euphrates Discovered in the late 19th century by the British archaeologist William Loftus it is this site that has revealed much of what is now known of the Sumerian Akkadian and Neo Sumerian people Although Uruk was not the only city that the Sumerians built during the Uruk period it was by far the greatest and also the source of most of the archeological and written evidence concerning early Sumerian culture Kuhrt 2010 1 23 Uruk went from being the world s first major city to the most important political and cultural center in the ancient Near East in relatively quick fashion Long before Alexandria was a city and even before Memphis and Babylon had attained greatness the ancient Mesopotamian city of Ur stood foremost among ancient Near Eastern cities Today the greatness and cultural influence of Ur has been largely forgotten by most people partially because its monuments have not stood the test of time the way other ancient culture s monuments have For instance the monuments of Egypt were made of stone while those of Ur and most other Mesopotamian cities were made of mud brick and as will be discussed in this report mud brick may be an easier material to work with than stone but it also decays much quicker The same is true to a certain extent for the written documents that were produced at Ur At its height Ur was the center of a great dynasty that controlled most of Mesopotamia directly through a well maintained army and bureaucracy and the areas that were not under its direct control were influenced by Ur s diplomats and religious ideas Ur was also a truly resilient city because it survived the downfall of the Sumerians outright destruction at the hands of the Elamites and later occupations by numerous other peoples which included Saddam Hussein more recently

Laws in the Bible and in Early Rabbinic Collections Samuel Greengus, 2011-10-04

The remarkable discovery of ancient Near Eastern law collections or codes beginning with the Laws of Hammurabi and followed by many other collections in decades following opened a new window upon biblical law This volume seeks to examine within a single study all of the biblical laws that are similar in content with ancient Near Eastern laws from Sumer Babylonia Assyria and Hatti The book also examines a small but important group of early rabbinic laws from postbiblical times that exhibit significant similarities with laws found in the ancient Near Eastern collections or codes This later group of laws although absent from the Bible are nevertheless of comparable antiquity The presentation focuses on the actual law statements preserved in these ancient law codes The discussion then adds narratives records and reports of legal actions from ancient sources outside the laws all of which relate to the formal law statements The discourse is non polemical in tone and does not seek to revisit all theories and interpretations The format allows readers including those who are new to the

subject of biblical law to engage the primary sources on their own **Ancient Near Eastern History and Culture** William H. Stiebing Jr., 2016-07 This introduction to the Ancient Near East includes coverage of Egypt and a balance of political social and cultural coverage Organized by the periods kingdoms and empires generally used in Near Eastern political history the text interlaces social and cultural history with the political narrative This combination allows students to get a rounded introduction to the subject of Ancient Near Eastern history An emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible This introduction to the Ancient Near East includes coverage of Egypt and a balance of political social and cultural coverage **Man, Morals, and History** Chester Charlton McCown, 1958
