Urban Development Strategy And Project Managementchallenge Of Minato Mirai 21:

Spatial Planning and Sustainable Development Mitsuhiko Kawakami,Zhen-jiang Shen,Jen-te Pai,Xiao-lu Gao,Ming Zhang,2013-02-28 This book attempts to provide insights into the achievement of a sustainable urban form through spatial planning and implementation here we focus on planning experiences at the levels of local cities and some metropolitan areas in Asian countries This book investigates the impact of planning policy on spatial planning implementation from multidisciplinary viewpoints encompassing land use patterns housing development transportation green design and agricultural and ecological systems in the urbanization process We seek to learn from researchers in an integrated multidisciplinary platform that reflects a variety of perspectives such as economic development social equality and ecological protection with a view to achieving a sustainable urban form

Japan's Environmental Politics and Governance Yasuo Takao,2016-11-03 Environmental issues stretch across scales of geographic space and require action at multiple levels of jurisdiction including the individual level community level national level and global level Much of the scholarly work surrounding new approaches to environmental governance tends to overlook the role of sub national governments but this study examines the potential of sub national participation to make policy choices which are congruent with global strategies and national mandates This book investigates the emerging actors and new channels of Japan s environmental governance which has been taking shape within an increasingly globalized international system By analysing this important new phenomenon it sheds light on the changing nature of Japan s environmental policy and politics and shows how the links between global strategies national mandates and local action serve as an influential factor in Japan s changing structures of environmental governance Further it demonstrates that decision making competencies are shared between actors operating at different levels and in new spheres of authority resulting from collaboration between state and non state actors It highlights a number of the problems challenges and critiques of the actors in environmental governance as well as raising new empirical and theoretical puzzles for the future study of governance over environmental and global issues Finally it concludes that changes in the tiers and new spheres of authority are leading the nation towards an environmentally stable future positioned within socio economic and political constraints Demonstrating that bridging policy gaps between local action national policy and global strategies is potentially a way of reinventing environmental policy this book will be of interest to students and scholars of Environmental Studies Environmental Politics and Japanese Politics

Water and Urban Development Paradigms Jan Feyen,Kelly Shannon,Matthew Neville,2008-09-03 Communication across and integration of disciplines in the urban water sector seems today more imperative than ever before Water is a strategic and shrinking resource It is probably the world s most valuable resource and clean water has even been touted as the next oil Control of water from access to management has always been a Journal of the Graduate School and Faculty of Engineering, University of Tokyo ,1997 *Media Asia* ,1992 **Community Regeneration Masterplan** Francesco

Manfredi, Dario Costi, 2023-01-01 This book reports on a large research project on community regeneration which integrated the spatial social economic and organizational factors with the dimensions of sustainability resilience and participation Upon providing a detailed review on concepts of community and urban regeneration it analyses a set of successful case studies from 30 European cities which were selected by the authors from different rankings and awards Fifty seven key performance indicators and the results of self assessment questionnaires are here introduced to allow a comparative study of best practices and eventually to outline 20 guidelines and 100 strategic actions for future community regeneration projects All in all this book offers extensive information and a source of inspiration for urban planners economists sociologists public administrators stakeholders and all those involved in the development and management of sustainable cities **Annual Report** Bank of Yokohama, 2000 **Japanese Technical Abstracts**, 1987 *Waterfront Regeneration in a Time of Climate Change* Raffaele Pernice, Tetsuya Yaguchi, 2025-07-28 The current climate crisis and the rapid transformation of the natural environments will inevitably pose a threat to human settlements around the world This book explores possible local strategies and global solutions in the safeguarding of coastal cities and the often neglected urban waterfronts in terms of a more effective integration with the city whilst paying attention to the mitigation of the risks related to climate change Designers administrators and engineers need to start developing various scenarios and possible solutions to tackle the inevitable transformation which is currently unfolding This edited book contains essays which discuss several themes related to the effects of climate change on waterfronts looking at Japan's experience and other international case studies Collectively they provide a multi faceted analysis of selected projects and relevant urban experiences and practices which address issues such as the environmental disruption and the need for more efficient and sustainable forms of regeneration and urban renewal practice for the waterfronts The volume will appeal to architects planners geographers and general readers with an interest in landscape design and social science in an international context as well as undergraduate and postgraduate students in the disciplines of built environment *Business Japan*, 1988-07
