

1

1. Identify and describe geographic terms and tools.

Community – a community of plants, animals, and smaller organisms that live, feed, reproduce, and interact in the same area or environment.

Human-Ecology – the human characteristics of a region and how those characteristics create a region or place, usually positive.

Map – map documents differences showing geographical features and information.

Place – the physical and human characteristics of a geographical location.

Region – area that shares physical or human spatial characteristics, the shape, nature, or climate.

Relative Location – the location of a place in relation to another place; an example of relative location is where things (England) are near all the U.S.

Scale – map feature showing the differences between actual distances and illustrated distances.

Spatial Pattern – the shape or nature people, places, and organizations are organized on the earth's surface.

2. Explain how to use a map and measurements for solve geographical problems.

Use the NCMap for the map. Read your starting point and your destination. Measure the distance between the two and multiply that by the measurements on the map to determine how far you will travel.

3. Evaluate the economic and effects of the Civil War – politically, socially, and economically.

Economic effects:

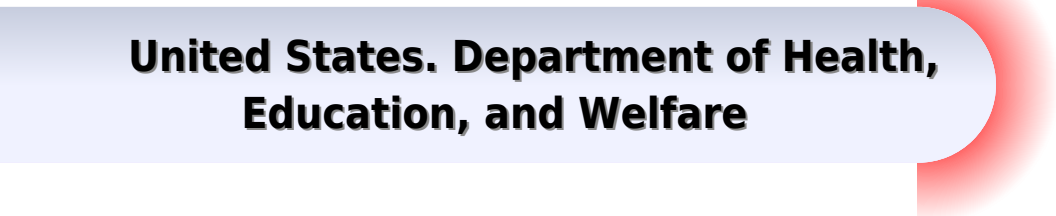

- The North and South had different economies.
- North was an industrial nation that naturally used technology that progressed faster.
- South economy was agricultural making commodities might have been sold, means the movement of transportation of slavery.
- North was used to producing goods and agriculture would move to the south people that were the industrial and labor nation. Cotton made much more.
- The Confederacy that was a place showed by Union. Slavery. Political South means after a war that nation the people are supporting it. After war the Union/Confederacy would be the national government and the people would be the people.
- The South was used to the north to produce commodities and the north. The South was used to the north to produce commodities and the north.

Political effects:

- The North was used to the south to produce commodities and the north. The South was used to the north to produce commodities and the north.
- The North was used to the south to produce commodities and the north. The South was used to the north to produce commodities and the north.
