Historical Dictionary of Chinese Foreign Affairs Lawrence R. Sullivan, 2018-09-18 In an act of totally unnecessary and wanton destruction British forces in China during the Second Opium War 1856-1860 looted and destroyed much of the Old Imperial Summer Palace Yuanmingyuan including three imperial gardens and hundreds of halls pavilions and temples stock full of ancient artwork antiquities and literary works More than a hundred years later President Xi Jinping 2013 of the People's Republic of China PRC proclaimed the rejuvenation of the Chinese nation with the economic and especially military power to prevent any such recurrence of national humiliation Though not yet a superpower equal in global stature to the United States the PRC is undoubtedly poised to become the equal if not the superior power in the Asia Pacific region expanding its territorial claims in the South China Sea and asserting undisputed economic dominance With government business and academic leaders debating how regional and global powers should respond to a rising China Historical Dictionary of Chinese Foreign Affairs contains a chronology an introduction a glossary appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on major events national institutions foreign nations and personages impacting Chinese foreign affairs along with the many institutions of the post World War II international order that the PRC has engaged especially since the 1970s This book is an excellent resource for students researchers and anyone wanting to know more about Chinese foreign affairs

The Role of American NGOs in China's Modernization Norton Wheeler, 2013 In the waning years of the Cold War the United States and China began to cautiously engage in cultural educational and policy exchanges which in turn strengthened new security and economic ties These links have helped shape the most important bilateral relationship in the late twentieth and early twenty first centuries This book explores the dynamics of cultural exchange through an in depth historical investigation of three organizations at the forefront of U S China non governmental relations the Hopkins Nanjing Center for Chinese and American Studies the National Committee on United States China Relations and The 1990 Institute Norton Wheeler reveals the impact of American non governmental organizations NGOs on education environment fiscal policy and civil society in contemporary China In turn this book illuminates the important role that NGOs play in complementing formal diplomacy and presents a model of society to society relations that moves beyond old debates over cultural imperialism Finally the book highlights the increasingly significant role of Chinese Americans as bridges between the two societies Based on extensive archival research and interviews with leading American and Chinese figures this book will be of interest to students and scholars of Chinese politics and history international relations and transnational NGOs

Narratives of Contested Democracy Robert S. Hinck, Skye Cooley, Randolph Kluver, 2019-06-13 In order to better understand how the world viewed the US 2016 presidential election the issues that mattered around the world and how nations made sense of how their media systems constructed presentations of the presidential election Robert S Hinck Skye C Cooley and Randolph Kluver examine global news narratives during the campaign and immediately afterwards Analyzing 1 578 news stories from 62 sources within three regional media ecologies in China Russia and the Middle East Hinck Cooley and Kluver demonstrate how the US election was incorporated into narrative constructions of the global order They establish that the narratives told about the US election through national and regional media provide insights into how foreign nations construct US democracy and reflect local understandings regarding the issues and impacts of US policy towards those nations Avoiding jargon laden prose *Global Media and Strategic Narratives of Contested Democracy* is as accessible as it is wide ranging Its empirical detail will expand readers understanding of soft power as narrative articulations of foreign nation s policies values and beliefs within localized media systems Communication media studies students as well as political scientists whose studies includes media and global politics will welcome its publication *America's Challenge* Michael D. Swaine, 2012-05-01 The emergence of the People s Republic of China on the world scene constitutes the most significant event in world politics since the end of World War II As the world s predominant political economic and military power the United States faces a particularly significant challenge in responding to China s rising power and influence especially in Asia Offering a fresh perspective on current and future U S policy toward China Michael Swaine examines the basic interests and beliefs behind U S China relations recent U S and Chinese policy practices in seven key areas and future trends most likely to affect U S policy American leaders he concludes must reexamine certain basic assumptions and approaches regarding America s position in the Western Pacific integrate China policy more effectively into a broader Asian strategy and recalibrate the U S balance between cooperative engagement and deterrence toward Beijing **The West and the Birth of Bangladesh** Richard Pilkington, 2021-08-15 In 1971 authorities in Islamabad perpetrated mass atrocities in East Pakistan in an attempt to thwart a struggle for autonomy by terrorizing the local population into submission *The West and the Birth of Bangladesh* explores the decision making processes and ethical debates in Washington Ottawa and London during the crucial first few months of the crisis US president Richard Nixon and his national security advisor Henry Kissinger favoured appeasement of Islamabad The Canadian government was unwilling to hazard bilateral ties with Pakistan Under public pressure only the UK showed somewhat greater willingness to coerce Islamabad into ending its oppressive actions Richard Pilkington analyzes the interplay of US Canadian and British responses toward East Pakistan and the available policy options This insightful book reveals how even as human rights movements began to emerge in the West blinkered government actors there remained too preoccupied with protecting national interests to take firm action during the crisis Handbook of the Politics of China David S.G. Goodman, 2015-11-27 *The Handbook of the Politics of China* is a comprehensive resource
