US Navy Aircraft Carriers 1922-45 Prewar Classes New Vanguard:

US Navy Aircraft Carriers 1922-45 Mark Stille, 2012-05-20 The USS Langley the first American aircraft carrier entered service in 1922 Despite being converted into an aircraft tender it was the first step in a new direction for the US Navy and naval warfare This book covers the design development and operation of USN aircraft carriers built prior to World War II including their aircraft and weaponry It also explains their various successes and losses such as the first carrier vs carrier battle at Midway the battle of the Coral Sea the battle of the Philippine Sea and the Operation Torch landings **US**

Navy Aircraft Carriers 1942-45 Mark Stille, 2012-05-20 Aircraft carriers were the US Navy's principal weapon against Japan during the Pacific War Development of the Essex class began in 1939 becoming the largest class of carrier ever to be built Early in the Pacific War it became renowned for its Sunday Punch of 36 fighter planes 36 dive bombers and 18 torpedo planes Alongside the lighter Independence class these carriers formed the formidable Fast Carrier Force in the Pacific Featuring artwork detailing the interior and exterior features of the ships this book explores their design development and the action they saw in the Pacific including the climactic battles of Philippine Sea Leyte Gulf and Okinawa **US Cold War**

Aircraft Carriers Brad Elward, 2014-03-20 An in depth look at the first US super carriers from the design and development of the Forrestal Kitty Hawk and Enterprise classes to their operational history during the Cold War and beyond The Forrestal class Forrestal Saratoga Ranger and Independence was the first completed class of US Navy supercarriers so named for their 25 percent size increase over the World War II era carriers such as the Midway class Design wise the Forrestals were a huge improvement over their predecessors being more stable and comfortable while maintaining advancements such as the armored flight decks that had been introduced with the Midway Brad Elward examines the history of this class of carrier and its successors The Kitty Hawk class was an improvement on the Forrestal class designs and four were built in the 1960s Kitty Hawk Constellation America and John F Kennedy These were even longer than the Forrestals and fitted with advanced defensive weapons systems and an improved elevator layout Featuring special illustrations this is a history of nine iconic carriers that hold a much respected place in US naval history **World War I Seaplane and Aircraft Carriers** Mark

Lardas, 2016-09-22 In 1910 the first aircraft was successfully launched from a small wooden platform on a stationary ship Just four years later seaplane carrying warships were being used to launch the first naval air raids and by 1918 the first aircraft carrier to feature a full length flight deck was in service High quality artwork and historical photographs help author Mark Lardas tell the fascinating story of the pioneering years of naval aviation covering such historic clashes as the Japanese siege of Tsingtao the British raid against German Zeppelin bases at Cuxhaven and the Battle of Jutland which saw the first airplane take part in a naval battle Through detailed analysis he explores their development from hastily adapted merchant ships to the launch of HMS Argus the first aircraft carrier to have a full length flight deck and shows how they paved the way for the aircraft carriers of the future **The Coral Sea 1942** Mark Stille, 2012-06-20 A detailed account of the first check of

Japanese naval expansion in the Pacific The Battle of the Coral Sea is unique in the annals of naval history It is the first battle in which enemy fleets never came within sight of one another Instead aircraft launched from carrier decks were sent out to attack the enemy with bombs and torpedoes In May of 1942 the Japanese fleet moved on Port Moresby the last Allied base between Australia and Japan Forced to respond the Americans sent two aircraft carriers to protect the base In the ensuing battle one American carrier was destroyed and the other severely damaged However the Japanese also lost a carrier and decided to withdraw Although bloody it proved to be an important strategic victory for the Allies as the Japanese were forced to attempt future attacks on Port Moresby over land Using updated research and numerous period photographs retired USN Commander Mark O Stille tells the story of this important and unique battle in the Pacific War **Midway 1942** Mark Stille,2012-06-20 The most important and dramatic carrier battle of World War II which completely changed the fortunes of both Japan and America In less than one day the might of the Imperial Japanese Navy was destroyed and four of her great aircraft carriers sank burning into the dark depths of the Pacific Utilizing the latest research and detailed combat maps this book tells the dramatic story of the Japanese assault on Midway Island and the American ambush that changed the face of the Pacific war With sections on commanders opposing forces and a blow by blow account of the action this volume gives a complete understanding of the strategy the tactics and the human drama that made up the Midway campaign and its place as the turning point in the Pacific war **Santa Cruz 1942** Mark Stille,2012-09-20 A highly illustrated account of the fourth major carrier battle of the war in the Pacific Despite myth the Japanese carrier force was not destroyed at Midway but survived to still prove a threat in the Pacific Theater Nowhere was this clearer than in the battle of Santa Cruz of October 1942 The stalemate on the ground in the Guadalcanal campaign led to the major naval forces of both belligerents becoming inexorably more and more involved in the fighting each seeking to win the major victory that would open the way for a breakthrough on land as well The Japanese were able to gain a tactical victory at Santa Cruz and came very close to scoring a strategic victory but they paid a very high price in aircraft and aircrew that prevented them from following up their victory In terms of their invaluable aircrew the battle was much more costly than even Midway and had a serious impact on the ability of the Japanese to carry out carrier warfare in a meaningful manner Illustrated richly throughout this volume examines the encounter at Santa Cruz and its significance Палубная авиация во Второй мировой войне от Таранто до Мидуэя (1940—1942) Александр Брюханов,2022-12-02 1939 1941 1942 Imperial Japanese Navy Aircraft Carriers 1921-45 Mark Stille,2012-05-20 The Imperial Japanese Navy was a pioneer in naval aviation having commissioned the world's first built from the keel up carrier the Hosho Throughout the 1920s and 1930s it experimented with its carriers perfecting their design and construction As a result by the time Japan entered World War II and attacked the United States at Pearl Harbor in 1941 it possessed a fantastically effective naval aviation force This book covers the design development and operation of IJN aircraft carriers built prior to and during World War II Pearl Harbor Midway and the first carrier vs carrier battle the battle

of the Coral Sea are all discussed *US Standard-type Battleships 1941-45 (2)* Mark Stille, 2015-12-20 This book completes an authoritative two part study on the Standard type US battleships of World War II ships that were designed to fight a different type of war than the one that unfolded It gives precise technical details of the design history and features of the Tennessee Colorado and the unfinished South Dakota and Lexington classes whilst providing an operational history of the former two Written by a leading expert on the US Navy in World War II and augmented by contemporary photographs and specially commissioned illustrations this is the other half of the story of the US Standard type battleships from the terrible damage they sustained at Pearl Harbor to their support of the war winning landings of the US Marine Corps and US Army
