

EXAMPLE ON HOW TO ANSWER CASE STUDY?

Sample case :

Farid was a director of Lotos Mall. He instructed his manager to sell some items at the higher price than they advertised. Thus, the company had been sued for misdescription offences. Farid has been blamed for the offence. However, Farid claimed that the company that was to be blame for the offence, not him. Was the offence committed by Lotos Mall or by Farid?

1. Issue :

- a. Whether the company can be blamed solely for the offences or not
- b. Whether farid can be held responsible for that offences of misdescription of price or the Lotos Mall?

2. Formulation : In Farid situation, Farid should be held responsible for the offence. It is because he had given instruction his manager to sell some of the items at a higher price. When a company commit wrong action, the company cannot think or act by himself to commit such wrong action. Thus we have to look behind the veil of the company to determine the person who shall be responsible for the wrong doing.

3. Legal Principle and supporting case :

Section 20 CA provides that a company incorporated under this Act is a body corporate and shall :

- (a) have legal personality separate from that of its members; and
- (b) continue in existence until it is removed from the register.

Further, **Section 21** states that the companies will have unlimited capacity and will be capable of exercising all the functions of a body corporate and have the full capacity to carry on or undertake any business or activity including:

- (a) to sue and be sued;
- (b) to acquire, own, hold, develop or dispose of any property;
- (c) to do any act which it may do or to enter into transactions.

A company shall have the full rights, powers and privileges for the above purposes.

Not so long ago class actions were considered to be a textbook example of American exceptionalism many of their main features were assumed to be incompatible with the culture of the civil law world However the tide is changing while there are now trends in the USA toward limiting or excluding class actions notorious cases like Dieselgate are moving more and more European jurisdictions to extend the reach of their judicial collective redress mechanisms For many new fans of class actions collective redress has become a Holy Grail of sorts a miraculous tool that will rejuvenate national systems of civil justice and grant them unprecedented power Still while the introduction of various forms of representative action has virtually become a fashion it is anything but certain that attempting to transplant American style class action will be successful European judicial structures and legal cultures are fundamentally different which poses a considerable challenge This book investigates whether class actions in Europe are indeed a Holy Grail or just another wrong turn in the continuing pursuit of just and effective means of protecting the rights of citizens and businesses It presents both positive and critical perspectives supplemented by case studies on the latest collectivization trends in Europe's national civil justice systems The book also shares the experiences of some non European jurisdictions that have developed promising hybrid forms of collective redress such as Canada Brazil China and South Africa In closing a selection of topical international cases that raise interesting issues regarding the effectiveness of class actions in an international context are studied and discussed
