TEACHER EDUCATION, SECOND EDITION MOHAN, RADHA, 2019-08-01 Teacher education is at the base of all educational systems To make it effective we need an education system that equips the teacher trainees with the necessary skills to perform their tasks effectively in the classroom This book discusses how to train teachers improve teacher education programmes and impart quality education The book now in its second edition emphasizes development of skills in teachers keeping in mind the rapid use of technology and changes in education policies procedures and provisions Each chapter has been carefully revised as per the latest NCTE norms and standards recommended by Justice Verma Commission This well organized book is primarily intended for the postgraduate students of Education M A Education and M Ed Besides teacher trainees enrolled in B Ed and Diploma in teaching programmes teacher educators distance education school based administrators and policymakers will also find the book useful **KEY FEATURES** Deals with necessary pedagogical skills and competencies to make the teachers professionally competent Provides a comparative study of teacher education of a number of countries to put things in the right perspective Makes extensive use of flowcharts and diagrams to enable the readers to understand the topics discussed with great ease **TARGET AUDIENCE** M A Education M Ed Teacher trainees *Web 2.0 technologies in education. A brief study* Serafeim A. Triantafyllou, 2020-10-06 Essay from the year 2014 in the subject Didactics E Learning grade 10 University of Macedonia language English abstract This study investigates the second generation of the World Wide Web called Web 2 0 The revolution of Web 2 0 over Web 1 0 was that it allowed Internet users not to be passive recipients who simply read the digital content of a web page but enabled them to add digital content share information and collaborate online The blast of Web 2 0 is therefore largely based on the electronic sharing of knowledge and information In this paper the basic features of Web 2 0 its basic services functions and tools will be firstly described Next concepts such as social networking services and social networks will be analyzed and the application of Web 2 0 in education as well as the benefits it can bring will be studied In conclusion a summary of the possibilities of Web 2 0 is made and the advantages disadvantages and its role in the educational process are presented through a critical point of view One of the major differences between Web 2 0 and the traditional World Wide Web is the greater collaboration between Internet users and other users such as digital service providers and businesses While Web 1 0 was software organized around pages technologies and businesses Web 2 0 was organized around ordinary people and services In the Web 1 0 era internet users had the ability to read the digital content of a web page but could not create their own since the only person who could update the web page content was its webmaster In other words we would say that Web 1 0 was not oriented towards the creation of digital content by internet users *Trends and Issues in Distance Education 2nd Edition* Lya Visser, Yusra Laila Visser, Ray Amirault, Michael Simonson, 2012-07-01 Over the last decade the field of distance education and e learning has substantially strengthened and assumed a more international scope There has been an impressive growth in the conceptual

empirical and experiential foundations of the field Trends and Issues in Distance Education International Perspectives 2nd Ed captures a representative snapshot of the breadth of current global trends and issues in distance education theory research and practice Through 21 chapters from over 30 international authors the book documents new developments in distance education scholarship and practice presenting a diverse set of viewpoints on the trends and issues affecting this increasingly central discipline The book is for researchers practitioners and students Chapters speak to the many creative ways in which distance education addresses learning and human development needs around the world They focus on distance education in dissimilar settings that extend beyond the limitations of the dominating paradigms of the highly developed economies Contributing authors touch upon conceptual as well as practical issues They critically reflect on both large and small scale distance education initiatives discussing the use of everything from the most advanced technologies e g 3 D computing to the most rudimentary technologies e g wind up radios

Handbook of Distance Education Michael G. Moore, 2013 This work provides overviews and summaries of the research and practice of distance education in the USA It addresses such questions as how distance education is best practised at the level of the teacher as well as the administrator
